

RESOLVING CONFLICTS

VITAL LEADERSHIP

Diverse work teams promote creativity and ideas, which can bring exceptional outcomes. They can also foster conflict when individuals bring to the table different personalities and work styles. Managing those differences quickly and effectively can mean the difference between a minor “speed bump” and a major roadblock, which can diminish the morale and productivity of one team member or the entire team.

MANAGING COMPLAINTS EFFECTIVELY BRINGS SUCCESS

Workplace conflicts are unavoidable; the key is to control and reduce their effect on business. By keeping the team focused on performance and minimizing the effects of inevitable conflicts, supervisors, team leaders and managers can greatly improve their team’s productivity and effectiveness.

The Vital Learning Resolving Conflicts™ program equips supervisors, team leaders and managers with the tools to recognize conflict and handle it quickly and effectively. By understanding the signs of conflict and finding the root cause, managers can eliminate the issues and minimize the negative effects. Facing conflicts directly allows leaders to preserve the integrity of their teams and demonstrate a commitment to individual performance and growth.

Resolving Conflicts helps managers develop skills to identify the source of team member conflicts. Using effective communication and management techniques, managers can help individuals see the situation from another point of view and move beyond the conflict. Managers will also learn about the positive and negative aspects of conflict and how some conflict can be beneficial.

Throughout the course, supervisors, team leaders and managers review video presentations and case studies, participate in group discussions, practice new skills, and receive immediate feedback. The program provides them with implementation tools, a troubleshooting guide and additional resources to help them apply the skills they have learned on the job.
