Graduate Report for 2008-2009

As a component of Pearl River Community College's commitment to excellence in providing a quality educational experience for all students, an exit survey is given to graduating students in order to obtain information concerning their educational experience at PRCC. Some of the results of that survey are summarized as follows:

The majority (95%) of students surveyed thought that faculty members were concerned or very concerned with the personal and intellectual development of their students. Ninety-six percent (96%) of graduating students surveyed indicated that faculty members were available for consultation during posted office hours. Faculty

members are appropriately using instructional technology in courses offered at PRCC according to ninety-six (96%) percent of students surveyed. Over half of the students surveyed (56%) also revealed that faculty members were particularly helpful to them with their adjustment to campus life. The majority of students believed that access to faculty members outside of class was an

extremely important component of campus life, and ninety-five percent (95%) of students surveyed were satisfied or extremely satisfied with access to PRCC faculty members outside of class.

Of graduates surveyed, eighty-seven percent (87%) indicated that PRCC had prepared them more than adequately or exceptionally well to either continue their education or enter the workforce. Of the graduating students surveyed, ninety-five percent (95%) indicated that they would choose PRCC if they could start college again.
