Riverguide 2.0 Quick Start Guide – Faculty

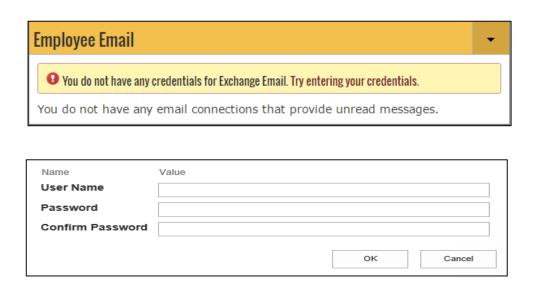

Enter PRCC credentials (same user credentials as previous Riverguide log on).

Example: User name: jsample Password: Password1

Use the Menu button to navigate to various Information Sites or New Icon Bar to open different applications using Single Sign On (Canvas, Wildcat Web, INB Banner). *Note: Lynx still requires login.*

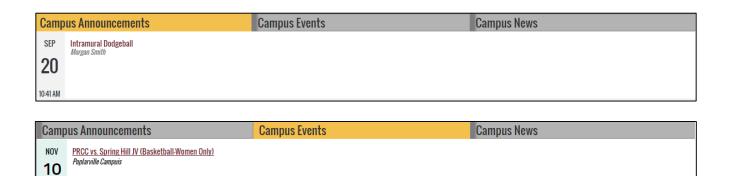

Click the Email icon or Google Apps to navigate your student email. Note: First time users, may have to enter email credentials to sync up account.

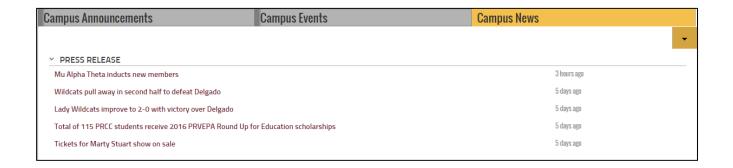

5:30 PM

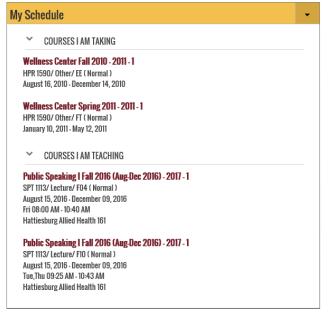

Use My Bookmarks to navigate to the PRCC Directory, Enter a Work Order, and Update Emergency Notification Contact Information (Lynx). FAQ is Frequently Asked Questions and to view an answer to a question you must click the + on the left side of the question.

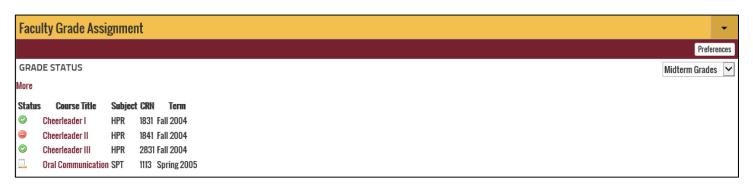

Click on any of the 3 Campus tabs (Campus Announcements, Campus Events, Campus News) to see the latest campus announcements or press releases.

The Faculty Dashboard allows faculty to view active classes and email students.

My Schedule displays basic schedule information for all courses you are currently taking as a student or teaching as a faculty member. Course information displays the course meeting days, times, and locations.

Click Faculty Grade Assignment to see the grading status of classes.

Icon Status:

Grades Not Started. Grade entry has not been started.

▲ Grades Started. Grade entry has been started but not completed.

Grades Entered. Grades have been entered but yet not rolled to academic history.

Grades Completed. Grades have been completed and rolled to academic history. No more action can be taken. This icon does not appear for midterm grades or gradebook, because these grades are not rolled to history.

 $m{arphi}$ Not Gradable. Students have registered but the class is not gradable. This icon is not clickable.

No Enrollment. No students have registered for the class. This icon is not clickable.

Click any of the above Social Media Icons to navigate to that platform.

How to Add Site Exception

Note: Banner may also appear with a blank screen with a little X box.

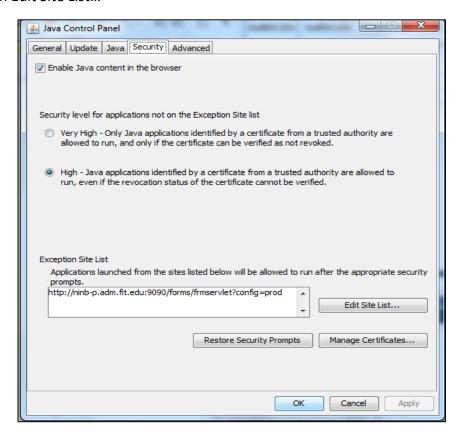

Step 1: Find Configure Java in your start menu and click on it (might be in the Java folder).

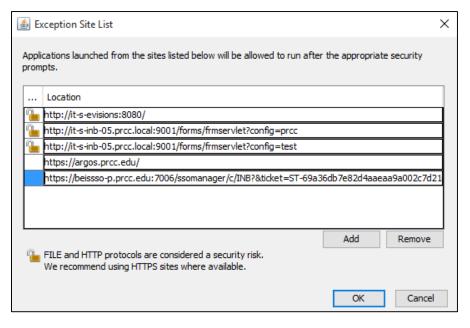

Step 2: Click on the Security Tab in the Control Panel. On the bottom right of the Security tab you want to click on Edit Site List...

Step 3: Click add and enter = https://beissso-p.prcc.edu:7006/ssomanager/c/INB?&ticket=ST-69a36db7e82d4aaeaa9a002c7d21d62d-eis-p.prcc.edu

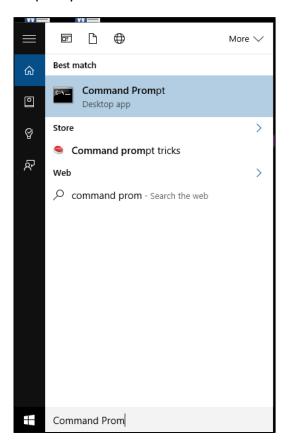

Step 4: Click OK and restart your browser.

How to Flush DNS (for page not found)

Step 1: Type Command Prompt in your start menu and click on it.

Step 2: Type: ipconfig /flushdns then hit Enter.

```
Microsoft Windows [Version 10.0.10240]
(c) 2015 Microsoft Corporation. All rights reserved.

C:\Users\tnoel>ipconfig /flushdns
Windows IP Configuration

Successfully flushed the DNS Resolver Cache.

C:\Users\tnoel>
```

Step 3: Click X to exit.
