Introduction

INTRODUCTION

The underlying philosophy that Pearl River Community College (PRCC) holds regarding institutional effectiveness is that its principal mission is that of a teaching/learning institution. The College has a planning and evaluation process that is broad-based and systematic with involvement at all levels. The strategic planning process at PRCC involves the formulation of the Mission Statement and Strategic Goals which serve as the foundation for all planning at the College. The faculty and staff at Pearl River Community College realize that planning and evaluation are very important responsibilities. The planning and evaluation process is continuous and provides assurance that the Mission Statement is being fulfilled, provides a method to measure performance, and provides documentation that improvements are being made as needed.

Pearl River Community College has established a systematic, broad-based, interrelated, and appropriate evaluation process which includes a number of methods to assist in evaluating and determining the effectiveness of educational activities. The Institutional Effectiveness Assessment Charts have been developed to give positive and definitive direction to the various administrative, student services, and instructional programs. The objectives are stated in terms of outcomes to be accomplished, the assessment criteria are identified, and the use of the results is given for each of the objectives at the end of the school year. Early in the Fall Semester, after careful review of the Mission and Strategic Goals of the College, each of the administrative units, student services units, and instructional programs develops objectives which ensure that the Mission and Strategic Goals of the College will be met during the year. The relationship of each unit or program to the PRCC Mission is also reviewed. Members of the Planning and Effectiveness Committee review the objectives and work with administrators, faculty, and staff to ensure that the units develop objectives that are appropriate for the College. The Institutional Effectiveness Assessment Charts are then reviewed by the President and members of the Administrative Council. If approved, each chart is completed prior to the next fall semester. Accomplishments are evaluated by the President and Administrative Council, and, if needed, recommendations are made for the following year. If the chart is not approved, the process begins again with additional guidance from members of the Planning and Effectiveness Committee.

In addition to preparing the Institutional Effectiveness Assessment Charts, academic departments are scheduled to undergo a program review every three years. Program review is a formal process designed to assist in the evaluation of the College's educational programs and services. The promotion of program improvement and growth is the primary focus of these reviews. A second goal of the program reviews is to provide information for planning and decision making. As can be seen by reviewing these reports, program reviews document strengths and weaknesses, describe improvements made since the last evaluation, and note recommendations for the future. In addition, the Career and Technical Division conducts program reviews annually.

Personnel evaluations also play a major role in evaluating and improving educational activities at Pearl River Community College. Faculty members are evaluated by students each Fall Semester. Evaluations by supervisors occur annually for employees with fewer than six years of experience at Pearl River Community College, at least every two years for employees with at least six years, but fewer than ten years, of experience at Pearl River Community College, and every three years for employees with ten or more years experience at Pearl River Community College. Both the supervisor and the student evaluation results are used by the supervisor when meeting with individual faculty members to discuss the evaluation of the faculty member. Areas for improvement are noted on the evaluation form, and a plan for correcting deficiencies is discussed and documented on the evaluation form. Results from the previous year are compared to results from the current year in order to ensure that needed improvements or modifications in specific areas have been accomplished. A follow-up of faculty performance when indicated by the evaluation is scheduled by the supervisor. Also, it should be noted that the same cycle for evaluation is used for supervisors by personnel reporting to them. Results are compiled and used in

planning for improvements. Faculty and staff development opportunities are often based on recommendations resulting from this evaluation process.

Institutional Research, an integral part of the College's planning and evaluation process, is an important responsibility of personnel in several offices and is coordinated by the Institutional Research Specialist in the Office of Planning and Research. Statistics regarding demographics, transfer student data, grade comparisons, distance education, survey data, personnel evaluation data, and department/unit assessment and evaluation information are coordinated and provided to faculty, staff, and administrators by the Chief Planning Officer and the Institutional Research Specialist. Distribution of this research is accomplished through newsletters, focus group reports, program reviews, assessment charts, annual reports, State reports, and individual and group presentations. Evaluations of services provided by these offices can be found in annual assessment charts, annual personnel reviews, and survey data; therefore, improvement in services is an ongoing process.

In addition to these planning and evaluation activities, many committees composed of faculty, staff, and administrators are involved in monitoring the achievement of goals and objectives. Additional data and/or additional methods of evaluation can be suggested at any time. These committees meet on a regular basis and add another avenue for input regarding planning and evaluation for all Pearl River Community College personnel.

The information contained in this document is an example of Pearl River Community College's commitment to growth and change. Many changes and modifications have been made in the instructional, administrative, and educational support services as a result of the analysis of the informative data gathered by means of these assessment tools. Efforts will be continued to provide outstanding services in all areas of the College. Data collection, measurements, and plans for improvements, along with data from various surveys, will be reviewed and used to guide the planning and budgeting process, with particular emphasis being given to areas where improvements are needed. This process is repeated annually and ensures that the College is constantly evaluating, discussing, and improving its services.

Mission Statement and Strategic Goals

Mission Statement

Pearl River Community College is a public institution committed to providing quality educational and service opportunities for all who seek them.

Strategic Goals

1. To prepare students to transfer and be successful in their studies at baccalaureate institutions and/or to be successful in careers for which they have been prepared.
2. To provide quality student services.
3. To provide access to college courses and programs using various instructional methods, including distance education.
4. To employ qualified faculty and staff, compensate them well, and provide opportunities for their professional development.
5. To provide facilities, technology, and support staff in order to improve student learning, enhance faculty and staff performance, augment community services, and make College services available via the Internet.
6. To improve communication among campus personnel and community members regarding the College goals, objectives, and activities.
7. To recruit and retain students from a diverse population.
8. To provide workforce training programs that meet requirements of business, industry, educational, and public service agencies for basic skills, specific job skills, and technical skills training.

Strategic Planning

STRATEGIC PLANNING

The basis for the strategic planning process at Pearl River Community College (PRCC) involves the formulation of the Mission Statement and of Strategic Goals, which serve as the foundation for all planning and evaluation at the College. In the past, the Mission Statement and Strategic Goals were reviewed annually by the Policy and Procedure Committee, which has representation from all areas of the College. In the spring of 2003, the President appointed a special committee composed of faculty, staff, administrators, student representatives, and community and alumni members to review them once again. Using historical data as a basis, this committee met, researched and reviewed data, and recommended a revised Mission Statement with Strategic Goals. The Proposed Mission Statement and Strategic Goals were presented to all College personnel and the community through email and other appropriate methods, and input was requested. After much discussion and review, several minor changes were made. Approval was received from the Policy and Procedure Committee, the President, and the Administrative Council in May, and final approval was received from the Board of Trustees in June 2003.

The Mission Statement and Strategic Goals are reviewed annually by the Planning and Effectiveness Committee with recommendations for changes being made as needed to the Administrative Council and Board of Trustees and are included in various College publications (College catalog, student handbook, etc.). Internal Performance Indicators, standards to assist in determining if a goal has been met, are written with the assistance of the Chief Planning Officer, the Institutional Research Specialist, and committees in order to assist with the documentation of progress and the development of new objectives and plans of action that should lead to even greater improvements. This provides more specific delineations for development of objectives and assessment methods at the divisional level where operational planning is performed. The composition of the working groups which develop divisional objectives is left to the discretion of the particular division. As shown on the Annual Planning and Evaluation Cycle, operational plans are reviewed by members of the Planning and Effectiveness Committee who determine if the objectives are appropriate in relation to the College's Mission Statement and Strategic Goals and transmitted to the College President and other appropriate administrators for final review and approval.

As indicated in the Annual Planning and Evaluation Cycle, each year, institutional data and measurements are collected and reviewed by College committees, the Administrative Council, the President, and the Board of Trustees in order to determine how well Pearl River Community College is meeting its Strategic Goals. This compilation assists in determining the extent to which the College is fulfilling its mission. When Internal Performance Indicators are reviewed and found to need additional effort before being met, strategies to improve the action plans are discussed, financial support is provided when budgets are considered, and the Strategic Plan and Internal Performance Indicators are updated. Requests for additional funds are identified on the appropriate Needs Assessment form and related to specific Strategic Goals. The President and Board of Trustees have final budget authority.

With this process followed annually, improvements are made based on the use of information from surveys, reports, and data. Progress is reported each year in documents that are available for review and that are used to document improvements.

Internal Performance Indicator 3

One hundred percent (100%) of programs participating in program accreditation will receive full accreditation/reaccreditations in accordance with appropriate time schedules.

- **Assessment Results 2007-2008:** The accreditation of the surgical technology program at the Forrest County Center has been reaffirmed for 10 years. The reaffirmation was awarded by the Commission on Accreditation of Allied Health Education Programs, signifying that the program meets national standards. The notification follows an on-site review by commission officials and an annual report by program director, Debbie Hinton.

In 2007 the College's Medical Radiologic Technology Program accreditation was reaffirmed by The Joint Review Committee on Education in Radiologic Technology. There were no recommendations.

The Physical Therapist Assistant Technology program at Pearl River Community College Forrest County Center is scheduled for an on-site visit in 2008 for reaffirmation of accreditation by the Commission on Accreditation in Physical Therapy Education (CAPE) of the American Physical Therapy Association. The physical therapist assistant education program will submit a self-study prior to the on-site visit.

The combined site visit for Dental Hygiene and Dental Assisting took place in February 2008, and the College will be notified by the Commission on Dental Accreditation of their findings.

Source of Documentation: Offices of the Vice President for Instruction and the Dean of the Forrest County Center

Use of Assessment Results: No improvements needed.

- **Assessment Results 2008-2009:** In 2008 the College's Surgical Technology Program accreditation was reaffirmed by the Accreditation Review Committee on Education in Surgical Technology. There were no recommendations.

In 2008 the College's Dental Hygiene Technology and Dental Assisting Technology Programs accreditations were reaffirmed by the American Dental Association. There were no recommendations.

In 2008 the College's Early Childhood Education Technology Program accreditation was reaffirmed by the National Academy of Early Childhood Programs. There were no recommendations.

Source of Documentation: Offices of the Vice President for Instruction, the Dean of the Forrest County Center, and the Director of Career-Technical for the Poplarville Campus.

Use of Assessment Results: No improvements needed.

- **Assessment Results 2009-2010:** In 2009 the College's Practical Nursing Program was granted probationary accreditation for a period of one year by the Mississippi State Board for Community and Junior Colleges. There were no recommendations for compliance with a required visit scheduled for December 2, 2010.

Source of Documentation: Offices of the Vice President for Instruction, the Dean of the Forrest County Center, and the Director of Career and Technical Education Programs for the Poplarville Campus.

Use of Assessment Results: No improvements needed.

Internal Performance Indicator 4

Six months after graduation, 85% of students who completed career and technical programs will be positively placed according to the State measurement definition. *(This indicator previously read: Six months after graduation, 65% of students who completed career and technical programs will be positively placed according to the State measurement definition.)*

- **Assessment Results 2007-2008:** Ninety-four and five tenths percent (94.5%) of the students who completed career technical programs were positively placed in either (a) jobs, (b) continuing education, or (c) military service.

Source of Documentation: Offices of Career and Technical Education Programs at the Poplarville campus, the Forrest County Center, and the Hancock County Center. Offices of counselors at the Poplarville campus and at the Forrest County Center.

Use of Assessment Results: No plan of improvement is required. This performance exceeded the required standard of the State.

- **Assessment Results 2008-2009:**

Results will be available by October 2009.

- **Assessment Results 2009-2010:**

Eighty-nine percent (89%) of students who completed career and technical programs were positively placed in either: (a) jobs, (b) continuing education, or (c) military service.

Source of Documentation: Offices of Career and Technical Education Programs and counselors at the Poplarville campus and the Forrest County Center.

Use of Assessment Results: Because programs exceeded the State requirement, Plans of Improvement were not required.

Internal Performance Indicator 5

At least eighty percent (80%) of employers attending the Pearl River Community College Career Fair on the Poplarville Campus and responding to a survey will give Pearl River Community College students a satisfactory rating regarding employability. *(This indicator previously read: Employers attending the Pearl River Community College Career Fairs will give Pearl River Community College students a satisfactory rating regarding employability.)*

- **Assessment Results 2007-2008:** Fifty-four of the 74 employers who participated in the Career Fair responded to the survey. Eighty-eight percent rated students as employable, and 12 percent were undecided.

A hundred percent strongly agreed or agreed that students were helpful in set up and registration for the fair.

Ninety percent agreed or strongly agreed that student participation, preparation of resumes, proper attire, and polite conduct were exhibited. Nine percent were undecided, and one percent disagreed.

A hundred percent strongly agreed or agreed that student interest in networking with employers was enthusiastic and genuine.

Source of Documentation: Career Fair records, Dr. Ann Moore and Dr. Joe Wesley.

Use of Assessment Results: Dr. Wesley and Dr. Moore will encourage all participating employers to respond to the survey.

- **Assessment Results 2008-2009:** Fifty-six of the 68 employers who participated in the Career Fair responded to the survey. Eighty-nine percent rated students as employable; nine percent were undecided; two percent did not respond.

One hundred percent strongly agreed or agreed that students were helpful in set up and registration for the fair.

Internal Performance Indicator 9

The number of students receiving an Associate in Arts degree will increase each year.

(This indicator previously stated: The graduation rate for students in AA degree programs will increase each year.)

- **Assessment Results 2007-2008:** The number of students graduating in Associate in Arts graduation programs for the year 2006-2007 was 167, and there were 187 students graduating with an AA for 2007-2008, reflecting an 11% increase.

Source of Documentation: Office of Planning and Research and Office of the Vice President for Instruction

Use of Assessment Results: There has been much discussion about the measurability of this indicator and wording of the indicator will be changed for the 2008-2009 year.

- **Assessment Results 2008-2009:** The number of students graduating in Associate in Arts graduation programs for the year 2007-2008 was 187 students and there were 194 students graduating with an AA for 08-09, indicating an increase of approximately four percent (4%).

Use of Assessment Results: No action needed.

- **Assessment Results 2009-2010:** The number of students graduating in Associate in Arts graduation programs for the year 2008-2009 was 194 students and there were 205 students graduating with an AA for 2009-2010 (July 1, 2009 – June 30, 2010), resulting in an increase of approximately five percent (5%).

Goal 2: To provide quality student services.

Commitment Statement:

Pearl River Community College is committed to serving the needs of our student body by providing specialized services.

Internal Performance Indicator 1

At least 70% of students participating in an annual campus climate survey will indicate that they are satisfied with the campus climate. *(This indicator previously stated: Students participating in an annual campus climate survey will indicate they are satisfied with the campus climate.)*

- **Assessment Results 2007-2008:** The Annual Campus Climate Survey was administered in April 2008. Although survey results concerning student satisfaction indicate that the majority of students are satisfied enough to indicate that they would recommend PRCC to others (78% of students surveyed on Poplarville campus; 87% of students surveyed at the Forrest County Center, and 82.5% percent of students surveyed at the Hancock Center strongly agreed or agreed that they were satisfied with PRCC), results indicate that students are still dissatisfied with channels for expressing student complaints. Fewer than 50% of students surveyed from all three campuses agree or strongly agree that channels for expressing student complaints are readily available (Poplarville – 42%; FCC – 46%; Hancock – 56%). The cumulative percent for all campuses of students who indicated that they were undecided about expressing student complaints was 34%. Fewer than 70% of students surveyed from all three campuses agree or strongly agree that they would feel comfortable requesting a conference to discuss what they perceive as an unfair instructor (Poplarville – 53%; FCC- 66%; Hancock 62.5%).

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Instructors and instructional department heads are to be advised about the students' complaints concerning fairness and feeling uncomfortable about requesting additional help. *Note: The Vice President for Instruction will send a memo to instructors and instructional department heads.* The Office of Student services will distribute flyers and trifold brochures advising students of due process procedures.

- **Assessment Results 2008-2009:**

Based upon recommendation by the Focus Group Committee, the Annual Campus Climate Survey was administered during Fall Semester 2008. Survey results concerning student satisfaction indicate that the majority of students are satisfied enough to indicate that they would recommend PRCC to others (80.68% of students surveyed on Poplarville campus; 74.9% of students surveyed at the Forrest County Center, and 87.7% percent of students surveyed at the Hancock Center strongly agreed or agreed that they were satisfied with PRCC).

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Surveys were administered during Fall 2008. Since results indicated a satisfaction rating of more than 70%, no action is needed at this time.

- **Assessment Results 2009-2010:**

The Campus Climate Survey was administered during fall semester 2009 and survey results indicate an increased satisfaction level at all campuses. Students who indicated that they would recommend PRCC to others increased by four (4) percentage points to 85.1% on the Poplarville campus; the Forrest County Center satisfaction level increased 14.4 percentage points to 89.3%; and the Hancock Center increased 1.4 percentage points to 89.1%.

Use of Assessment Results: Since results indicated a satisfaction rating of more than 70%, no action is needed at this time.

Internal Performance Indicator 2

The Pearl River Community College Libraries will work with instructional leaders to select appropriate materials for the library collection including access to online resources. *(This indicator previously stated: The Pearl River Community College Learning Resource Center will meet 80% of Association of College & Research Libraries (ACRL) guidelines by June 2005.)*

- **Assessment Results 2007-2008:** This information will not be available until Fall 2008.

Use of Assessment Results:

- **Assessment Results 2008-2009:**

The library and learning lab staff members work closely with the instructional leaders at the college to select appropriate materials for student use. Several methods are used to accomplish this goal. The library subscribes to Choice magazine, a publication of the Association of College and Research Libraries, a division of the American Library Association, which provides written reviews of college level library materials in the magazine and on review cards that are provided to department chairs and other instructional leaders. They return to the libraries or labs the review cards of the materials that they want the library to publish. In addition, the library and lab staffs send out regular emails to the faculty asking if they have any requests for materials that they want to have purchased.

Source of Documentation: Office of Director of College Libraries

Use of Assessment Results: Statistics will be available by the end of the physical year on the total number of items purchased upon teacher request. We will evaluate these results and the methods by which we reach the instructors to see if there is a more effective way to encourage teacher participation in the selection of the materials for the labs and libraries.

Because of the expense of AV items, most all of the AV items were purchased upon teacher request. For the print collection, on the Hancock campus, because the collection is small with many needs, approximately 75% of the purchases were made upon teacher request while on the Poplarville and Forrest County campuses with their larger collections, there were not as many requests from instructors. Faculty and students also have access to the statewide MAGNOLIA project that provides online access to thousands of periodical titles in addition to the six databases to which the college subscribes.

In order to keep the collection current, the collection is weeded on a regular basis, especially in the Nursing and Allied Health areas and the academic courses that support them. In 2009-2010, 305 books were discarded from the Johnston nursing collection while 156 books were purchased for that collection. Forrest County Library discarded 534 books from the nursing and allied health collection and added 187 books to that collection.

Internal Performance Indicator 3

At least 70% of students participating in an annual campus climate survey will indicate that they are satisfied with the advising and counseling services. *(This indicator previously stated: Students participating in an annual campus climate survey will indicate that they are satisfied with the advising and counseling services.)*

- **Assessment Results 2007-2008:** The annual Campus Climate Survey was administered in April 2008. According to the results of the survey, over 60% of students surveyed indicated that they would prefer an advisor assigned to them as follows: 65.4% of students surveyed on the Poplarville campus, 66% of FCC students surveyed, and 63.8% of Hancock Center students surveyed.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Improvements will continue to be made in the advisement and counseling area with instructors being trained to provide individual counseling and guidance for students.

- **Assessment Results 2008-2009:**

According to the results of the survey, 66.68% of students surveyed on the Poplarville Campus agreed or strongly agreed that they were satisfied with the services provided by the Counseling, Advisement and Placement Center. The Forrest County Center results reflected a higher satisfaction rating of 72%, with the highest rating of satisfaction at the Hancock Center at 77.2%.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Improvements will continue to be made in the advisement and counseling area with instructors being trained to provide individual counseling and guidance for students.

- **Assessment Results 2009-2010:**

The annual Campus Climate Survey was administered during the 2009 fall semester and students indicated an overall satisfaction level of 77%, as follows: Poplarville campus 76.9%; Forrest County Center 77%; and Hancock Center 77.7%.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Since the satisfaction level is well about 70%, no action is needed at this time.

Internal Performance Indicator 4

At least 70% of students participating in an annual campus climate survey will indicate they are satisfied with the personal attention given by various offices on campus. *(This indicator previously stated: Students participating in an annual campus climate survey will indicate they are satisfied with the personal attention given by various offices on campus.)*

- **Admissions/Registration**

- **Assessment Results 2007-2008:** The annual Campus Climate Survey was administered in April 2008. Results of the survey indicate that 74.7% of students surveyed on the Poplarville campus, 78% of students surveyed at Forrest County Center and 69% of students surveyed at the Hancock Center agreed or strongly agreed that the admission and registration services were satisfactory. This reflects an increase in satisfaction levels of students at Poplarville and the FCC and indicates a decrease in satisfaction at the Hancock Center.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Although the satisfaction level indicates an increase at the Poplarville and FCC campuses, the Office of Student Services continues to use

survey results to improve services. The Office of student Services will implement a training program for all work study students who work in the Office of Admissions and will utilize full-time staff personnel at the front desk at all times.

- **Assessment Results 2008-2009:**

Students participating in the survey at the Poplarville Campus indicated with a percentage of 75% that they are satisfied with services provided by the Admissions Department; 63% of the students at the Forrest County Center indicated satisfaction, and 83% of students at the Hancock Center are satisfied with services provided by Admissions.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Surveys were administered during Fall 2008. Since results indicated a satisfaction rating of more than 70% for the Poplarville Campus and the Hancock Center, no action is needed at this time.

- **Assessment Results 2009-2010:**

The annual Campus Climate Survey was administered during the 2009 fall semester and students indicated that they were satisfied with the services provided by the Office of Admissions. Student satisfaction level was 74.9% at the Poplarville campus; 78.6% at the Forrest County Center; and 82.8% at the Hancock Center.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Since the satisfaction level is above 70%, no action is needed at this time.

- **Bookstore**

- **Assessment Results 2007-2008:** The annual Campus Climate Survey, which was administered in April 2008, indicated that 85% of students surveyed on the Poplarville campus, 88.6% of students surveyed at the Forrest County Center, and 60.6% of students surveyed at the Hancock Center agreed or strongly agreed with the statements regarding the bookstore. Results indicate a slight increase in the level of student satisfaction with services provided by the bookstore at the Poplarville and FCC campus, with a decrease in satisfaction at the Hancock Center.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Bookstore personnel will continue to work diligently to provide competitive prices and friendly service to students and instructors.

- **Assessment Results 2008-2009:**

The annual Campus Climate Survey, which was administered in Fall Semester 2008, indicated that 81.5 % of students surveyed on the Poplarville campus, 83% of students surveyed at the Forrest County Center, and 69.2% of students surveyed at the Hancock Center agreed or strongly agreed with the statements regarding satisfaction with bookstore services. Results indicate a decrease in the level of student satisfaction with services provided by the bookstore at the Poplarville and Forrest County Center campus, with an increase of 9.2 percentage points in satisfaction at the Hancock Center.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Bookstore personnel will continue to work diligently to provide competitive prices and friendly service to students and instructors.

- **Assessment Report 2009-2010:** The annual Campus Climate Survey was administered during the 2009 fall semester and students responded as follows: 87.5% of students at the Poplarville campus agreed or strongly agreed that they were satisfied with services offered by personnel in the Bookstore; 87.2% of students at the Forrest County Center were satisfied; and 76.1% of students at the Hancock Center were satisfied with services offered by the Bookstore.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Since student satisfaction level is above 79%, no action is needed at this time.

- **Counseling Center**

- **Assessment Results 2007-2008:** According to the annual Campus Climate Survey which was administered in April 2008, over 60% of students surveyed indicated that they would prefer an advisor assigned to them as follows: 65.4% of students surveyed on the Poplarville campus, 66% of FCC students surveyed, and 63.8% of Hancock Center students surveyed.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Efforts are being made in the counseling service to improve and expand counseling services.

- **Assessment Results 2008-2009:** According to the results of the survey, 66.68% of students surveyed on the Poplarville Campus agreed or strongly agreed that they were satisfied with the services provided by the Counseling, Advisement and Placement Center. The Forrest County Center results reflected a higher satisfaction rating of 72%, with the highest rating of satisfaction at the Hancock Center at 77.2%.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Efforts are being made in the counseling service to improve and expand counseling services.

- **Assessment Results 2009-2010:** The annual Campus Climate Survey was administered during the 2009 fall semester and students at all campuses indicated that they were satisfied with services provided by the Counseling, Advisement and Placement Center. The satisfaction level at the Poplarville Campus increased by ten (10) percentage points to 76.9%; the satisfaction level at the Forrest County Center increased by five (5) percentage points to 77%; and the Hancock Center student satisfaction level was 77.7%.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Since the satisfaction level is above 70%, no action is needed at this time.

- **Financial Aid Office**

- **Assessment Results 2007-2008:** Students surveyed indicated satisfaction levels with the financial aid services as follows: 68% of Poplarville students were satisfied; 72.7% of FCC students were satisfied; 50% of Hancock students were satisfied.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Although student satisfaction has increased slightly over the past year at two of the campuses, plans continue to be implemented to improve the quality of student services in the financial aid department. A training program for student workers will be implemented and a full-time staffer will be available at the front desk to assist with student questions.

- **Assessment Results 2008-2009:** Survey results reflect that 68.16% of students at the Poplarville Campus are satisfied with services provided by the Financial Aid Office personnel, while 68% of students at the Forrest County Center are satisfied with Financial Aid Office services. The results indicate that 70% of the Hancock Center students are satisfied with services rendered by the Financial Aid office. These percentages reflect a slight improvement in student satisfaction at the Poplarville Campus and a substantial improvement of 12.2 percentage points according to student responses at the Hancock Center. The satisfaction rating with the Financial Aid Office at the Forrest County Center declined to 68%, a drop of 4.7 percentage points.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Although student satisfaction has increased slightly over the past year at two of the campuses, plans continue to be implemented to improve the quality of student services in the Financial Aid Office. - **Assessment Results 2009-2010:** The annual Campus Climate Survey was administered during the 2009 fall semester and students at all campuses indicated satisfaction with the services provided by personnel in the Financial Aid office. Results indicate a 75% percent satisfaction level at the Poplarville campus; 71.3% at the Forrest County Center; and 69.6% at the Hancock Center.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Although the satisfaction level of 70% is maintained, cross-training in the financial aid department has been implemented to improve assistance to students.

- **Learning Resource Center (now Library)**

- **Assessment Results 2007-2008:** The annual Campus Climate Survey, which was administered in April 2008, revealed an increase in student satisfaction from 71% to 73.% of students surveyed on Poplarville campus; the satisfaction level of the FCC remained at 83%

and 48.8% at the Hancock Center agreed or strongly agreed that library services were satisfactory.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Satisfaction, while increasing slightly on the Poplarville Campus and at the Hancock Center, has maintained the same level at the FCC. Library staff will be encouraged to continue improvement of library services. The opening of a library at the Hancock Center should positively impact the students' satisfaction.

- **Assessment Results 2008-2009:**

Student satisfaction with services provided by the library improved from 73% to 80% on the Poplarville Campus; however, the satisfaction level of the FCC reflected a slight decrease in student satisfaction from 83% to 79%. The most significant change is reflected in the Hancock Center student responses, which reflects an increase in student satisfaction levels from 48.8% to 87.9% satisfaction. A fully functioning library was established at the Hancock Center during this past year, which accounts for this increase.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Satisfaction, while improving slightly on the Poplarville Campus, has maintained the same level at the FCC. Library staff will be encouraged to continue improvement of library services. The most significant change is reflected in the Hancock Center student responses, which reflect an increase in student satisfaction levels from 48.8% to 87.9% satisfaction. A fully functioning library was established at the Hancock Center during this past year, which accounts for this increase.

- **Assessment Results 2009-2010:** The annual Campus Climate Survey was administered during the 2009 fall semester and students indicated an increased level of satisfaction with library services at the Poplarville campus and at the Forrest County Center. Satisfaction levels increased 3.5% percentage points at Poplarville to 83.5% and seven percentage points at the Forrest County Center to 86.4%. The responses from Hancock Center students indicated a slight decrease (2.9%) in the level of student satisfaction to 85%.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Since the level of satisfaction is above 70%, no action is needed at this time.

- **Security**

- **Assessment Results 2007-2008:** According to the annual Campus Climate Survey, which was administered in April 2008, 67.9% of the students surveyed on the Poplarville campus, 78.7% of the students surveyed at the Forrest County Center, and 77.6% of the students surveyed at the Hancock Center agreed or strongly agreed that the campus is secure for all students. This reflects a slight decrease from last year's survey at the Poplarville campus and the Forrest County Center. However, the Hancock Center percentage has increased 5.6%.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Results will be used to address issues during the 2008-2009 school year. Crisis Management training has been provided for faculty and staff on all campuses. Plans are to require students, faculty and staff to wear visible identification at all times during the coming year. Trainings to promote public relations will be considered. Increasing the number of patrols around campuses and dormitories will also be considered.

- **Assessment Results 2008-2009:** Approximately 60% of the students surveyed on the Poplarville campus, 79% of the students surveyed at the Forrest County Center, and 91% of the students surveyed at the Hancock Center agreed or strongly agreed that the campus is secure for all students. These percentages reflect a decrease of 8.34 percentage points from last year's survey at the Poplarville campus, while the rating at the Forrest County Center remained about the same. However, the satisfaction level at the Hancock Center regarding security increased from 77.6% to 91%, an increase of 13.4 percentage points.

Regarding the satisfaction level of students with the services provided by the personnel in the Police Office, 63% of students surveyed on the Poplarville campus; 61.8% of students surveyed at the Forrest county Center, and 88.1% of students surveyed at the Hancock Center are satisfied with personnel in the Police Office.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Results will be used to address issues during the 2009-2010 school year.

- **Assessment Results 2009-2010:** The annual Campus Climate Survey was administered during the 2009 fall semester. A majority of students surveyed (81%) responded that they think PRCC campuses are secure for all students as follows: 78% of students surveyed on the Poplarville Campus (an increase of 18 percentage points from last year's 60%); while the level at the Forrest County Center remained the same at 79%; and the response at the Hancock Center was 85.5%, down slightly from last year's 91%.

Regarding the satisfaction level of students with the services provided by the personnel in the Police Office, 71.5% (an increase from 63%) of students surveyed on the Poplarville campus; 74.9 (an increase from 61.8%) of students surveyed at the Forrest County Center, and 84.1 (a slight decrease from 88.1%) of students surveyed at the Hancock Center are satisfied with personnel in the Police Office.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Since the satisfaction level at all campuses is above 70%, no action is needed at this time.

Internal Performance Indicator 5

The College will designate at least six percent (6%) of the Education and General Budget for instructional support expenditures (libraries and learning labs). *(This indicator previously stated: The library budget at Pearl River Community College will increase by at least a tenth of a percentage point each year until the nationally accepted standard of 6% of the education/general budget total has been reached.)*

- **Assessment Results 2007-2008:** The combined Library budget (Poplarville Campus and Forrest County Center) for 2007-2008 was 3.5% of the College's budget. This indicates an increase in the overall library budget as a percentage of the College's budget. Actual

expenditures for the fiscal year 2008 indicate that 3.5% of the Institutional Educational & General (E & G) Budget went to library resources.

- **Source of Documentation:** Offices of: Director of College Libraries and Dean of Business Services

Use of Assessment Results: Additional funds will be requested for library.

- **Assessment Results 2008-2009:** The combined Library budget (Poplarville Campus, Hancock Center, and Forrest County Center) for 2008-2009 was 4.1% of the College's budget. This indicates an increase in the overall library budget as a percentage of the College's budget. Actual expenditures for the fiscal year 2009 indicate that 4.1% of the Institutional Educational & General (E & G) Budget went to library resources.

Source of Documentation: Offices of: Director of College Libraries and Dean of Business Services

Use of Assessment Results: Additional funds will be requested for library.

- **Assessment Results 2009-2010:** The combined Library budget, or Instructional Support budget, for 2009-2010 (FY 2010) was 3.63% of the College's unrestricted general support budget, in comparison to 3.59% for FY 2009. The college's Enlargement & Improvement Budget, (E&I or capital improvements) for FY 2009 allowed \$25,000 for Library Services and Learning Lab needs, while the FY 2010 E&I budget provided a \$100,000 allocation for such capital improvements.

Source of Documentation: Offices of: Director of College Libraries and Dean of Business Services

Use of Assessment Results: Additional funds will be requested for library.

Internal Performance Indicator 6

Each student will be informed of the procedures to follow to seek accommodations for disability.

- **Assessment Results 2007-2008:** The Fine Arts and Communications Department; The Humanities and Social Sciences Department; the Science, Mathematics, and Business Department; the Health, Physical Education and Recreation Department; the Nursing Departments; and the Department of Career and Technical Education are verifying that the disabilities statement is included on each syllabus. Each Career and Technical student was provided an information form that inquired into whether special accommodations were required. Information is also provided on the College web site.

Source of Documentation: Copies of each syllabus are maintained in the offices of the Director of Poplarville Career and Technical Education, the Dean of Forrest County Center, and the directors or chairs of instructional departments.

Use of Assessment Results: Procedures already in place will be continued and monitored.

- **Assessment Results 2008-2009:** The Fine Arts and Communications Department; The Humanities and Social Sciences Department; the Science, Mathematics, and Business Department; the Health, Physical Education and Recreation Department; the Nursing Departments; and the Career and Technical Education Departments verify that the disabilities statement is included on each syllabus. Each Career and Technical student was provided an information form that inquired into whether special accommodations were required. Information is also provided on the College web site.

Source of Documentation: Copies of each syllabus are maintained in the offices of the Director of Poplarville Career and Technical Education, the Dean of Forrest County Center, and the directors or chairs of instructional departments.

Goal 3: To provide access to college courses and programs using various instructional methods, including distance education.

Commitment Statement:

Pearl River Community College is committed to making its programs and services available to all who seek an education. Various instructional methods, including distance education and off-site instruction, will be utilized, and the College will provide reasonable accommodations to the students with developmental disabilities.

Internal Performance Indicator 1

Distance learning courses provided through the Mississippi Virtual Community College will increase by 10% for each one of the next two years (2008-2009, 2009-2010). *(This indicator previously stated: Distance learning courses provided through the Mississippi Virtual Community College will increase by 10% for each year of the next two years.)*

- Assessment Results 2007-2008:**

Distance learning courses provided through the Mississippi Virtual Community College will increase by 10% for each year of the next two years.

Fall 2006	Spring 2007	Total 06+07	Fall 2007	Spring 2008	Total 07+08	Percent Change
49	50	99	74	69	143	+44.4%

In Fall 2006 and Spring 2007 a total of 99 courses were provided through MSVCC. In Fall 2007 and Spring 2008, a total of 143 courses were provided through MSVCC.

Source of Documentation: Office of Extended Education and Instructional Design

Use of Assessment Results: This is an increase of 44.4%. No action is needed because the goal of 10% increase was met. In an effort to continue the growth of the Pearl River Community College distance learning program, the Office of Extended Education and Instructional Design will persist in efforts to recruit and train instructors.

- Assessment Results 2008-2009:**

Fall 2007	Spring 2008	Summer 2008	Total 07+08	Fall 2008	Spring 2009	Summer 2009	Total 08+09	Percent Change
74	69	76	219	79	84	98	261	+19.2%

Source of Documentation: Office of Extended Education and Instructional Design

Use of Assessment Results: The increase 19.2% is due to an increase in adjunct instructors.

- **Assessment Results 2009-2010:**

Fall 2008-Summer 2009	Fall 2009	Spring 2010	Summer 2010	Fall 2009 – Summer 2010	Percent Change
261	85	99	108	292	+11.9%

Source of Documentation: Office of Extended Education and Instructional Design

Use of Assessment Results: According to the stated Indicator, there is no need for improvement in this area. However, it must be noted that while there is a recognized need for additional online instructors in order to increase the number of course offerings, there is also recognition of the lack of personnel to manage additional courses. Since instructors are encouraged to teach on-campus classes rather than online classes, additional online classes will need to be taught by adjunct (typically new) instructors. This increases the number of instructors who must be evaluated thus creating a situation that may possibly become unmanageable.

Internal Performance Indicator 2

All high schools in the Pearl River Community College district will be informed of policies regarding dual enrollment opportunities. *(This indicator replaces one that previously stated: At least eighty percent (80%) of academic and technical courses carrying three or more hours will be taught using a combination of whole group lecture, small group work, and individual work within the class setting.)*

- **Assessment Results 2009-2010:**

In July 2009, a Dual Enrollment meeting was held to which all district high schools were invited. Letters of invitation were sent to known Dual Enrollment contacts and/or high school counselors. Each school was asked to send an administrative representative to the meeting and any Dual Enrollment instructors. Seven schools attended the meeting. Six schools have Dual Enrollment Option 1 on their campuses Fall 2009. (A detailed explanation of Option 1 can be found online at

<http://pr10.pccc.edu/~mlbyrd/extendededucation/dualenrollment/index.html>).

A Dual Enrollment meeting was held in June 2010. All principals, assistant principals, counselors, and district specific Dual Enrollment personnel were invited. (Superintendents are also informed of any Dual Enrollment meetings.) This meeting was to prepare the administration (principals, counselors, etc.) for any Dual Enrollment activity that will occur between the high schools and the College during the 2010/2011 school year. The meeting was attended by eight high schools in the district. The basics of Dual Enrollment and Dual Credit were explained as well as the procedures for enabling students to take advantage of these opportunities.

It is not yet known how many of the schools will be involved in the Dual Enrollment program in the upcoming school year. The deadline for submitting information is in August 2010. Instructors at schools participating in Option 1 Dual Enrollment will be provided an orientation to inform them of their specific duties (syllabus, grades, audit, etc.)

Note: Due to SB 2389, many changes will be occurring in the Dual Enrollment program. It is not yet known to what degree these changes will impact the College. Senate Bill 2389 is effective July 1, 2010.

Source of Documentation: Office of Extended Education and Instructional Design

Use of Assessment Results: The stated Indicator was met; therefore, no improvement is needed at this time. The Office of Extended Education and Instructional Design will continue to monitor the developments surrounding SB 2389.

Internal Performance Indicator 3

Throughout the implementation of the Quality Enhancement Plan, mathematics classrooms will be enhanced through the increased use of instructional technology at a rate of at least two classrooms per year until all mathematics classrooms are enhanced.

- **Assessment Results 2007-2008:** During Summer 2007 Room 103 and Room 131 in the Science Building on the Poplarville Campus were equipped with needed technology, including computer, symposium, Internet access, digital presenter, and data projector. At the Forrest County Center, a lab was created and a classroom equipped with needed technology as mentioned above.

Source of Documentation: Office of Chair of Department of Science, Mathematics, and Business

Use of Assessment Results: Efforts will continue to enhance mathematics classrooms with instructional technology.

- **Assessment Results 2008-2009:** During Fall 2008, Room 103 was equipped with a classroom set of laptop computers which required additional wiring as well as the addition of a distinct WAP. A Mimeo device was located in Room G05 and the Mathematics^{Power} Laboratory as QEP classes have been expanded to these locations.

Source of Documentation: Office of Chair of Department of Science, Mathematics, and Business

Use of Assessment Results: Efforts will continue to enhance mathematics classrooms with instructional technology.

- **Assessment Results 2009-2010:** During Fall 2009, laptop computers were added to Room 103 in the Science Building at the Poplarville Campus to increase student loads for courses taught in this location. During Spring 2010, laptop computers were added to G03 in the Science Building on the Poplarville Campus to increase student loads for courses taught in this location. During Spring 2010, plans are developing to create another QEP classroom in the current Computer Science room of the Forrest County Center to increase student loads for courses taught in this location.

Source of Documentation: Office of Chair of Department of Science, Mathematics, and Business

Use of Assessment Results: Efforts will continue to enhance mathematics classrooms with instructional technology.

Internal Performance Indicator 4

- **During the course of a fiscal year, a total of 15 weekend courses will be offered by Pearl River Community College throughout the six-county district. (This indicator previously stated: At least 10 classes will be offered at off-campus sites each semester.)**

- **Assessment Results 2007-2008:**

At least 10 classes will be offered at off-campus sites each semester.

Location	Fall 2007			Spring 2008		
	Offered	Made	Percent that Made	Offered	Made	Percent that Made
Picayune	10	6	60%	5	3	38%
Columbia	4	3	75%	3	1	25%
Prentiss	9	2	22%	6	0	0%

Source of Documentation: Documentation is maintained in the Office of Extended Education and Instructional Design

Use of Assessment Results: Students continue to request night classes, but the numbers do not indicate that the classes are actually in demand. In an effort to increase enrollment in night class offerings, more publicity is being planned. In addition, the efforts to provide classes in Prentiss were not successful, so more night classes in Columbia will be offered in order to provide a location that is accessible by the Prentiss students who wish to attend a class. Informal feedback has been sought from both night class instructors and night class students.

- **Assessment Results 2008-2009:**

Location	Fall 2008			Spring 2009		
	Offered	Made	Percent that Made	Offered	Made	Percent that Made
Picayune	3	3	100%	2	2	100%
Columbia	5	3	60%	2	1	50%
Stennis	2	2	100%	4	4	100%

Source of Documentation: The Office of Extended Education and Instructional Design

Use of Assessment Results: Because the demand for night classes has dropped (as well as the availability of instructors), the number of weekend classes was increased. In Fall 2008, eight night classes were offered and eight were offered in the spring. In reviewing these courses and the courses that actually made, consideration is being given to the need to closely evaluate the particular courses that are offered in both night and weekend formats. While some full-time instructors have offered to teach certain classes in these formats, it appears that the most basic classes (English, mathematics, etc.) are the most successful as night classes and weekend classes.

- **Assessment Results 2009-2010:**

Summer 2009 – Thirteen (13) weekend classes were offered; four (4) did not make.

Fall 2009 – Nine (9) weekend classes were offered; three (3) did not make.

Spring 2010 – Seven (7) weekend classes are being offered; one (1) did not make.

Source of Documentation:

Office of Extended Education and Instructional Design

Use of Assessment Results: Since a total of twenty-nine weekend classes were offered, this Indicator was met and no improvement is necessary.

Internal Performance Indicator 5

Each student will be informed of the procedures to follow to seek accommodations for disability.

- **Assessment Results 2007-2008:** The Fine Arts and Communications Department; The Humanities and Social Sciences Department; the Science, Mathematics, and Business Department; the Health, Physical Education and Recreation Department; the Department of Nursing Education; and the Department of Career and Technical Education are verifying that the disabilities statement is included on each syllabus. Each Career and Technical student was provided an information form that inquired into whether special accommodations were required. Information is also maintained on the College web site.

Source of Documentation: A copy of each syllabus is maintained in the office of the Dean of the Forrest County Center, and the directors or chairs of instructional departments.

Use of Assessment Results: Adequate notification of procedures is already in place and will be continued to be monitored.

- **Assessment Results 2008-2009:** The Fine Arts and Communications Department; The Humanities and Social Sciences Department; the Science, Mathematics, and Business Department; the Health, Physical Education and Recreation Department; the Nursing Departments; and the Department of Career and Technical Education verify that the disabilities statement is included on each syllabus. Goal 4: To employ qualified faculty and staff, compensate them well, and provide opportunities for their professional development.

Commitment Statement:

Pearl River Community College will employ well-qualified faculty and staff, provide them with a competitive salary and benefit package, and invest in their professional development.

Internal Performance Indicator 1

Faculty salaries will rank among the top one-third of community colleges in Mississippi by 2011. *(This indicator previously stated: Faculty salaries will rank among the top 50% of community colleges in Mississippi by 2006.)*

- **Assessment Results 2007-2008:** This information will be available in Fall 2008, when the State Board for Community and Junior Colleges Report is released.

Source of Documentation: N/A

Use of Assessment Results: N/A

- **Assessment Results 2008-2009:** According to the most recent State Board for Community and Junior Colleges report, faculty salaries currently rank in lower 50% of community colleges.

Source of Documentation: Office of Dean of Business Services.

Use of Assessment Results: We will continue in our endeavors to get salaries increased.

- **Assessment Results 2009-2010:** This information will be available in Fall 2010, when the State Board for Community and Junior Colleges Report is released.

Source of Documentation: Office of Dean of Business Services.

Use of Assessment Results: Results not available at this time.

Internal Performance Indicator 2

A least 80% of Pearl River Community College classes carrying three or more semester hours of credit in the fall and spring will be delivered by full-time instructors.

- **Assessment Results 2007-2008:** For Fall 2007 there were 717 Academic and Technical courses taught with 3 or more credit hours. Of those 455 were Academic and 262 were Technical and no Virtual courses were included. Of the 455 Academic courses, 301 (66%) were taught by full time instructors. Of the 262 Technical courses, 259 (99 %) were taught by full time instructors. The overall percentage of both taught by full time instructors for Fall 2007 is 78%.

Source of Documentation: Documentation, in the form of printed copies of the schedules for these two semesters, is on file in the office of the Vice President for Instruction. This information is also maintained in the Office of Institutional Research

Use of Assessment Results: There has been improvement from 74% in 2006-2007 to 78% for 2007-2008, and we will continue to move toward hiring more full-time instructors.

- **Assessment Results 2008-2009:**

Fall 2008 – 960 academic and technical courses with 3 or more credit hours
This included 565 academic courses and 395 technical courses (no virtual).
Of the 565 academic courses, 424 (75%) were taught by full time instructors. Of the 395 technical courses, 381 (96%) were taught by full time instructors. The overall percentage of both academic and technical courses taught by full time instructors for fall 2008 is 84%.

Breakdowns of above by campus:

Poplarville (Main Campus)– 532 academic and technical courses with 3 or more credit hours including 325 academic courses and 207 technical courses (no virtual)
Of the 325 academic courses, 291 (90%) were taught by full time instructors. Of the 207 technical courses, 196 (95%) were taught by full time instructors. Overall percentage of both academic and technical courses taught by full time instructors for the Poplarville Campus is 92%.

Hattiesburg (Forrest County Center) – 287 academic and technical courses with 3 or more credit hours including 173 academic courses and 114 technical courses (no virtual)
Of the 173 academic courses, 56 (32%) were taught by full time instructors. Of the 114 technical courses, 111 (97%) were taught by full time instructors. Overall percentage of both academic and technical courses taught by full time instructors at the Forrest County Center is 58%.

Waveland (Hancock Center) – 44 academic and technical courses with 3 or more credit hours including 37 academic courses and 7 technical courses (no virtual)
Of the 37 academic courses, 13 (35%) were taught by full time instructors. Of the 7 technical courses, 6 (86%) were taught by full time instructors. Overall percentage of both academic and technical courses taught by full time instructors at the Hancock Center is 43%.

Source of Documentation: Documentation, in the form of printed copies of the schedules for these two semesters, is on file in the office of the Vice President for Instruction.

Use of Assessment Results: Overall percentage of classes taught by full-time instructors has increased six percentage points from 78% to 84%.

- **Assessment Results 2009-2010:** In Fall 2009 there were 983 academic and technical classes with 3 or more credit hours. This included 661 academic classes and 322 technical classes (no virtual). Of the 661 academic classes, 454 (69%) were taught by full time instructors. Of the 322 technical classes, 309 (96%) were taught by full time instructors. The overall percentage of both academic and technical classes taught by full time instructors for Fall 2009 is 78%.

Breakdowns of above by campus:

Poplarville (Main Campus)– There were 609 academic and technical classes with 3 or more credit hours including 405 academic classes and 204 technical classes (no virtual)
Of the 405 academic classes, 365 (90%) were taught by full time instructors. Of the 204 technical classes, 193 (95%) were taught by full time instructors. Overall percentage of both academic and technical classes taught by full time instructors for the Poplarville Campus is 92%.

Of the 42 academic classes, 16 (38%) were taught by full time instructors. Of the 7 technical classes, 6 (86%) were taught by full time instructors. Overall percentage of both academic and technical classes taught by full time instructors at the Hancock Center 38%

Source of Documentation: Documentation, in the form of printed copies of the schedules for these two semesters, is on file in the office of the Vice President for Instruction.

Use of Assessment Results: Overall percentage of classes taught by full-time instructors has decreased six percentage points, from 84% to 78%. This area will be reviewed.

Internal Performance Indicator 3

One hundred percent (100%) of faculty will be qualified according to accreditation guidelines. *(This indicator previously stated: One hundred percent (100%) of faculty will be qualified according to accreditation requirements.)*

- **Assessment Results 2007-2008:** All fall semester faculty members are qualified according to appropriate standards.

Source of Documentation: Offices of Vice President for Instruction, Director of Poplarville Career and Technical Education, and Director of Forrest County Career and Technical Education

Use of Assessment Results: Since all faculty members are qualified according to the appropriate standards, no action is needed.

- **Assessment Results 2008-2009:** All fall semester faculty members are qualified according to appropriate standards.

Source of Documentation: Offices of Vice President for Instruction, Director of Poplarville Career and Technical Education, and Director of Forrest County Career and Technical Education

Use of Assessment Results: No action is needed.

- **Assessment Results 2009-2010:** All faculty members meet appropriate qualification standards.

Source of Documentation: Office of Vice President for Instruction

Use of Assessment Results: No action is needed.

Internal Performance Indicator 4

At least 80% of faculty and professional staff will participate in annual faculty/staff professional development sessions.

- **Assessment Results 2007-2008:** Eighty-nine percent (89%) of PRCC faculty and professional staff attended the Professional Development Sessions on Tuesday, August 14, 2007. This Internal Performance Indicator has been attained, reflecting a slight increase from last year. The format of the program was changed and will be discussed as plans are finalized for the 2008-2009 school year. Personnel will continue to be encouraged to attend these sessions which will be planned in order to provide information and instruction regarding specific identified areas or issues.

Source of Documentation: Office of Planning and Research

Use of Assessment Results: Since requests have been received regarding the addition of sessions concerning campus safety and instructional technology, among others, plans are currently being made to include both of these topics in the 2008 concurrent sessions. These topics will be shared with faculty and staff in advance and may help to promote a higher rate of attendance at the meetings.

- **Assessment Results 2008-2009:** At least ninety percent (90%) of PRCC faculty and professional staff attended the Professional Development Sessions on Monday, August 11, 2008. This Internal Performance Indicator has been attained, reflecting a slight increase from last year.

Source of Documentation: Office of Planning and Research

Use of Assessment Results: The format of the program was reviewed as well as the usefulness of various topics presented. Additional ideas regarding topics for the 2009 school year will be requested and reviewed in order to provide sessions which will be more useful to participants.

- **Assessment Results 2009-2010:** Just as last year, at least ninety percent (90%) of PRCC faculty and professional staff attended the Professional Development Sessions on Wednesday, August 12, 2009.

Source of Documentation: Office of Planning and Research

Use of Assessment Results: The new program format was very well received by those who attended; therefore, the same format will be used for Fall 2010 August professional development sessions.

Internal Performance Indicator 5

At least 80% of faculty and professional staff will participate in professional development activities annually in addition to faculty orientation sessions.

- **Assessment Results 2007-2008:** Documentation indicates that sixty-two percent (62%) of personnel attended professional development sessions in addition to the faculty orientation sessions provided by PRCC in 2006-2007. The summary report form that was developed and distributed to faculty and professional staff has aided in providing updated information. The use of this form will be continued to collect professional development information.

Source of Documentation: Office of Vice President for Instruction and Office of Institutional Research

Use of Assessment Results: Personnel will continue to be encouraged to attend these sessions which will be planned in order to provide information and instruction regarding

specific identified areas or issues. Various avenues are being explored to increase the number and variety of professional development opportunities offered.

- **Assessment Results 2008-2009:** Information is currently unavailable and will be provided after the August 2009 faculty/staff orientation when reports for 2008-2009 will be submitted.

Source of Documentation: Office of Vice President for Instruction and Office of Institutional Research

Use of Assessment Results: N/A

- **Assessment Results 2009-2010:** Professional development records indicate that 80 percent of personnel attended professional development sessions in addition to the faculty orientation sessions provided by PRCC in 2008-2009. The summary report form and database that has been developed has aided in providing updated information.

Source of Documentation: Office of Institutional Research

Use of Assessment Results: No action needed.

Internal Performance Indicator 6

At least 80% of support staff will participate in at least one annual staff development activity.

- **Assessment Results 2007-2008:** A professional development session for support staff was conducted on the Poplarville Campus on October 23, 2007, and a session was conducted at the Forrest County Center on November 15, 2007. Eighty-four (84%) of support staff members attended these sessions.

Source of Documentation: Office of Planning and Research

Use of Assessment Results: Administrators and supervisors will continue to be encouraged to send support staff to the professional development activities. A survey is being planned which will be administered to staff in order to assist with determining topics which will be beneficial to them in their areas of responsibilities.

- **Assessment Results 2008-2009:** On October 27, 2008, an information sharing session was implemented for support staff on the Poplarville Campus. In addition, a guest speaker was present to lead a discussion regarding the benefits of organizing and joining a professional organization. On October 30, a similar session was held at the Forrest County Center for support staff. Eighty percent (80%) of support staff members attended the sessions.

Source of Documentation: Office of Planning and Research

Use of Assessment Results: It was found that there was interest among support staff regarding organizing and joining a professional organization. An initial meeting regarding organizing a professional organization was held on December 4 with interested support staff.

- **Assessment Results 2009-2010:** On April 22, 2010, Ms. Deborah Tierce, a professional motivational speaker, presented a staff development session for all support staff. With 80 percent of the support staff in attendance, evaluations were very high, and the information which was shared was very well received.

Source of Documentation: Office of Planning and Research and Office of Institutional Research

Use of Assessment Results: Informative and motivational meetings for support staff will be continued.

Internal Performance Indicator 7

Faculty and staff salaries will increase a minimum of 3% annually.

- **Assessment Results 2007-2008:** This information will be available in the fall of 2008 when the State Board for Community and Junior Colleges Report is released.

Source of Documentation: Office of Dean of Business Services

Use of Assessment Results: The institution will continue to take an assertive position in its budgeting effort to strive to increase faculty salaries

- **Assessment Results 2008-2009:** Salary increases in excess of 3% were made for FY 08-09. These efforts will continue based upon availability of funding from various sources of revenue.

Source of Documentation: Office of Dean of Business Services

Use of Assessment Results: The institution will continue to take an assertive position in its budgeting effort to strive to increase faculty salaries.

- **Assessment Results 2009-2010:**

Salary increases for FY 2009 were held to 2.00% due to limited funding.

Source of Documentation: Office of Dean of Business Services

Use of Assessment Results: The institution will continue to take an assertive position in its budgeting effort to strive to increase faculty salaries.

Goal 5: To provide facilities, technology, and support staff in order to improve student learning, enhance faculty and staff performance, augment community services, and make college services available via the Internet.

Commitment Statement:

Pearl River Community College is committed to providing the resources necessary for students and others served by the College to have successful educational experiences.

Internal Performance Indicator 1

Key service areas on campus will be enhanced through the use of technology on a steady, incremental basis.

- **Assessment Results 2007-2008:** The Division of Information Technology has deployed Microsoft Office 2007 with a campus licensing agreement which allows installation on any College owned computer. The anti-virus software program, AVAST, has also been deployed in the ongoing battle against the spread of computer viruses. This anti-virus software is available, without cost, to faculty and students for installation on either PRCC owned or home computers.

Source of Documentation: Office of Information Technology

Use of Assessment Results: AVAST anti-virus software has provided the College with increased ability to protect faculty, staff and student PCs from the attack of computer viruses. The reporting tools are providing detailed information that will assist us in preventing widespread outbreaks of these problematic viruses. The top ten viruses for the past year include: VunDrop, Adware-gen, Rootkit-gen, Trojan-gen, Zlob-CGE, Trojano-1165, Spyware-gen, Mywebsearch-G, FakeAV-M, and Agent-ZXU. Having a software license that allows for a copy to be installed on home computers has provided an additional layer of defense from viruses reaching College owned PCs. The standardization of Microsoft Office products has allowed for the ease in document portability among offices. There has been an additional cost savings by purchasing these products under our campus agreement as compared to purchasing the software individually.

- **Assessment Results 2008-2009:** The Division of Information Technology has upgraded wireless Internet Technology. Student computer laboratories have been expanded. Productivity software upgrades have been deployed.

Source of Documentation: Office of Information Technology

Use of Assessment Results: Wireless Internet service was expanded and upgraded. Many access points were upgraded from 802.11g to the faster 802.11n wireless Internet standard. Coverage was expanded to include service to all residence halls on the Poplarville campus. Computer laboratories at the Poplarville Campus, Forrest County Center and Hancock Center locations have been expanded and upgraded to meet the student demands for these resources. Six additional PCs were added to the QEP lab on the Poplarville campus, while a new lab of 33 PCs was established at the Forrest County Center. A 17 workstation learning lab was established to serve the computer needs of students attending the Hancock Center. The Technology Center added a lab with eleven PCs to serve the students enrolled in specific technical courses. Seventeen Extreme

Networks wireless Internet access points were installed in the Nursing Building. These access points are providing the latest 801.11n wireless service. SycronEyes remote monitoring software was installed at both the FCC and Poplarville Campus QEP labs. Microsoft Office 2007 upgrades are not available for both faculty and laboratory computers. Bomgar remote management tools have been installed in the Office of Information Technology. These tools will provide enhanced support and diagnostic capabilities for both faculty and student computers. The security of student information was enhanced with the implementation of a policy to prevent the transmission of social security numbers via email.

Assessment Results 2009-2010: Implementation of the College portal (Luminis) has begun. Contracts have been signed and server has been delivered. Server virtualization has started. VM Ware and servers have been configured. Data Domain backup for server virtualization has been completed. A survey of instructional technology needs was solicited and compiled in August and September 2009.

Source of Documentation: Office of Information Technology

Use of Assessment Results: Implementation of the College portal continues to progress toward a December 2010 "go live" date. Policies and procedures for the use and governance of the portal features are being finalized and will be submitted for approval very soon. Content channels are still being implemented for those items included in the first phase of deployment. We are on schedule to deploy the portal to our student pilot group and employees at the start of the fall semester. Once fully deployed the portal will provide single sign on to all college web services including email, WildcatWeb, Blackboard, library systems and other electronic systems. The portal will also provide a single URL for access to all electronic information for employees and currently enrolled students.

All standalone windows servers have been migrated and virtualized to the VM Ware environment. This has provided efficiency and economies of scale. Cost reductions have been realized in electrical power consumption and in server hardware costs. Additional benefits have been gained in the area of disaster recovery. Virtualization in combination with the implementation of a Data Domain deduplication device have greatly enhanced our disaster recovery capabilities. To achieve disaster preparedness, we still need to ensure that the mission critical data is safely housed at a remote site, intact, with data integrity. While a deduplication appliance for offsite replication has not been purchased, replicating the data to the datacenter has provided added benefits in data recovery for the local site.

Instructional Technology needs assessment surveys were compiled in the fall of 2009. The majority of the allocated funds were used to procure the College portal. The remaining funds were used to purchase approximately fifty personal computers for use in instructional computer laboratories and by instructors for the development of instructional materials.

Staging and configuration of the IP telephony project continues to progress and will conclude with the July deployment. Additional wireless Internet access points have been installed to provide expanded outdoor coverage areas. Indoor access points were upgraded to allow 802.11n devices to utilize the faster connection speeds of newer devices.

Internal Performance Indicator 2

At least 80% of monies collected each year through technology fees (distance learning fees, etc.) will be used by Information Technology and Distance Education. (This indicator

previously stated: By the year 2008, at least 80% of monies collected through technology fees (distance learning fees, etc.) will be used by Information Technology and Distance Education. The indicator was changed to read as follows: By the year 2008, at least 80% of monies collected through technology fees (distance learning fees, etc.) will be used by Information Technology and Distance Education. (Previously, this indicator stated: By the year 2008, at least 80% of monies collected through technology fees (distance learning fees, etc.) will be earmarked for use by Information Technology and Distance Education.)

- **Assessment Results 2007-2008:** Budget reductions applied throughout the institution in transition from FY 2008 to FY 2009 resulted in reductions within the Information Technology Department budget as well.

A new E&I budget line was created within the FY 2009 budget entitled, "Instructional Technology Improvements" in the amount of \$350,000.00 to provide additional funds for the improvement in classroom technology throughout the institution.

Information Technology Department E&I funds for FY 2008 totaled \$79,021.00, with a slight increase in FY 2009 to \$80,000.00. The Information Technology Department's FY 2008 general support budget totaled \$983,721.00, while being reduced in FY 2009 to \$959,090.00.

Quality Enhancement Plan (QEP) funds provided for classroom technology in FY 2008 totaled \$98,000.00, while being reduced to \$50,000.00 in FY 2009, per the multi-year QEP budget established in accordance with SACS approved QEP plan for the institution.

Use of Assessment Results: The College is providing support to the IT Department through avenues mentioned and this indicator will be revisited.

- **Assessment Results 2008-2009:** Any changes to the institutional budget for FY 2009 are also reflected in the Information Technology budget. E & I funds for the Information Technology budget were reduced to \$959,000 from the previous year's total of \$983,721.00.

QEP funds provided for classroom technology for FY 2009 were reduced to \$50,000 as outlined in the SACS approved institutional QEP plan.

Source of Documentation: Office of Dean of Business Services

Use of Assessment Results: The College is providing support to the IT Department through avenues mentioned.

- **Assessment Results 2009-2010:** The Information Technology general support budget for FY 2010 was increased from \$958,890 (FY 2009) to \$969,954. The Information Technology E&I budget was maintained at \$80,000 from FY 2009 to FY 2010. The institution's E&I budget for FY 2010 also included \$250,000 for instructional technology improvements. The QEP general support budget for FY 2010 was set at \$282,256 in comparison to the FY 2009 budget of \$289,893. The QEP E&I allotment for FY 2010 was set at \$30,000 in comparison to \$50,000 for FY 2009.

Internal Performance Indicator 3

Students participating in an annual campus climate survey will indicate that they are satisfied with the assistance given to them by support staff.

- **Assessment Results 2007-2008:** The annual Campus Climate Survey was administered in April 2008. The survey results indicated that 79% of students surveyed on the Poplarville Campus, 82% of students surveyed at the Forrest County Center, and 61.8% of the students surveyed at the Hancock Center agreed or strongly agreed that support staff services were satisfactory.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: The Hancock Center results indicate a decrease in student satisfaction. Results will be used to address issues during the 2008-2009 school year.

- **Assessment Results 2008-2009:** The annual Campus Climate Survey was administered during October and November 2008. Following analysis of the data collected, 73.6% of students surveyed on the Poplarville campus indicated that they were satisfied with the services of office personnel, 71.6 of the students at the Forrest County Center indicated satisfaction, and 78.6% of the students surveyed at the Hancock Center agreed or strongly agreed that they were satisfied with the services provided by office personnel.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: The average results of student satisfaction are slightly down at the Poplarville campus and at the Forrest County Center. A customer relations workshop is being considered for Spring 2010 semester.

- **Assessment Results 2009-2010:** After the annual Campus Climate Survey was administered during October and November 2008, collected data was analyzed. Results indicated that 79.14 percent of students surveyed on the Poplarville campus indicated that they were satisfied with the services of office personnel, an increase of six (6) percentage points. The level of satisfaction at the Forrest County Center increased to 77.02%, and the level of satisfaction at the Hancock Center was maintained at 78.6% concerning services provided by office personnel.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: No action needed at this time. Although the customer relations workshop was not conducted due to budget constraints, plans are being developed to offer a session during the 2010-2011 year.

Internal Performance Indicator 4

The Master Facilities Plan will be reviewed annually by the Buildings & Grounds Committee of the Board of Trustees and will be implemented based on priorities established by the committee and as financial resources become available. (This indicator previously stated: The Master Facilities Plan will be implemented.)

- **Assessment Results 2007-2008:** A report on renovation progress and completion of projects is as follows:

- A new Transportation Shop and Shipping/Receiving Warehouse has been completed.
- The demolition of Bilbo Hall was completed.
- Renovation of Holden Stadium was begun.
- The Courtyard Project adjacent to Crosby Hall has been completed.
- The renovation of Hurricane Katrina damages to Huff Hall has been completed.
- Construction of a facility to house the Equipment Operator and Truck Driving Programs has begun.
- A restroom and storage facility for the Tennis Courts has been completed.
- Construction on a new Career Education Building on the Poplarville Campus is underway.
- A landscaping project in the median on Highway 11 in front of the Poplarville campus has been completed.
- The expansion of the Hancock Center Library facility has been completed.
- A Road & Parking Improvement Project on the Poplarville campus has been developed and is awaiting bidding by the Bureau of Buildings & Grounds.

Source of Documentation: Buildings & Grounds Committee Documentation Reports

Use of Assessment Results: The continuous improvement of college facilities is essential to the improvement of the teaching and learning environment. A quality learning environment will enhance the positive growth of the college.

• **Assessment Results 2008-2009:**

- Completion of a study of the Physical Plant Operations that made recommendations for more effective use of personnel in this area.
- Completed road improvement project to widen boulevard through the center of the Poplarville campus.
- Plans developed to create a new parking lot adjacent to the visitor's side of Holden Stadium.
- Plans developed to create a football field house from the vacated Physical Plant Building.
- The renovation of Holden Stadium was completed.
- Career Education Building on the Poplarville Campus was completed.
- The Transportation Shop/Warehouse on the Poplarville campus was completed.
- The concrete bleachers in the old football stadium were removed.
- Architectural plans for the following buildings have been developed: Ethel Holden-Brownstone Center for the Performing Arts, Moody Hall addition, and Marvin White Coliseum. Funding for construction of these building is dependent on settlement of the Hurricane Katrina insurance claim.
- The Huey Stockstill, Sr. Transportation and Construction Training Center was completed.

Source of Documentation: Buildings & Grounds Committee Reports

Use of Assessment Results: The constant improvement of the learning environment and overall aesthetics of the campuses will promote the positive growth of the college.

• **Assessment Results 2009-2010:**

- Lamar Hall, severely damaged during Hurricane Katrina, was demolished in preparation for a new men's dormitory.

- Jefferson Davis Hall was renovated. The exterior brick was removed and replaced, new exterior stairs were installed, new flooring installed on the interior and the building was painted.
- The renovation of an existing building for use as a band hall was completed.
- A new parking lot was installed and an existing parking lot was renovated at the Forrest County Center.
- The renovation of an existing building for use as an athletic fieldhouse was completed.
- The following buildings were dedicated: (1) The Huey Stockstill, Sr. Transportation and Construction Training Center, (2) The Kathryn Bass Moody Women's Student Housing Facility and, (3) The Earlora Chapman Holden Women's Student Housing Facility.
- Plans were completed and bids accepted for a new men's housing facility to replace Lamar Hall.
- Plans were completed and bids accepted for the replacement of the Moody Hall Addition destroyed by Hurricane Katrina.
- Plans approved for the installation of an elevator for Crosby Hall.
- A courtyard project was completed adjacent to the new band hall.
- New carpet was installed and painting of the entire building was completed in Earlora Holden Women's Dormitory.

Use of Assessment Results: The continued improvement of the learning environment and the general aesthetics of the campuses will promote the positive growth of the college.

Internal Performance Indicator 5

Improvements will be made in telecommunications, Internet services, and website services. *(This indicator previously stated: Improvements will be made in telecommunications and Internet services.)*

- **Assessment Results 2007-2008:** Technology updates continue to assist students and faculty in expanding their access to information and network services. The Metro-Ethernet data circuit project has been completed which increases available bandwidth from 6 Mbps to 50 Mbps. Anyone connected to campus network should notice a significant improvement in the time needed to download files or retrieve information across the network.

The wireless Internet service has been upgraded in the men's and women's suites, which greatly increases the number of simultaneous connections that can be made to the Internet. Wireless services are currently available on the Poplarville Campus in the following locations: Johnston Library, Crosby Hall, Science Building, Fine Arts Complex, men's suites and women's suites. The Forrest County Center has wireless access in the library. The Woodall Center and the Hancock Center also have wireless Internet services available for student and faculty use

Source of Documentation: Office of Information Technology

Use of Assessment Results: The addition of the Metro-Ethernet circuit for the Poplarville campus has been completed. This upgrade is providing additional bandwidth needed to accommodate the growing demand for online resources in distance education, classroom facilities and for student computer labs. Bandwidth utilization is currently averaging 35Mbps of the 50Mbps capacity. IT will continue to monitor utilization in an effort ensure that the demand is being met.

Wireless Internet services are being used extensively in the Men's and Women's Suites, Science Building, Library and Crosby Hall. Because of the heavy utilization and popularity of these services additional residence halls will be equipped with 802.11 wireless services beginning in the fall 2008 semester. Wireless services will continue to be expanded to areas not currently served as resources become available.

- **Assessment Results 2008-2009:** The Division of Information Technology has upgraded wireless Internet Technology. Network infrastructure has been upgraded and expanded.

Source of Documentation: Office of Information Technology

Use of Assessment Results: Wireless Internet service was expanded and upgraded. Many access points were upgraded from 802.11g to the faster 802.11n wireless Internet standard. Coverage was expanded to include service to all residence halls on the Poplarville campus. Additional access points were installed to provide new and expanded coverage in Seal Hall and Crosby Hall. Network infrastructure was enhanced with the installation of an Extreme Networks 8810 Blackdiamond core switch. Approximately thirty aging 3COM switches were replaced with Extreme Networks Summit X150 switches. Switch to switch bandwidth speeds were also upgraded from 100MBs to 1GBs to better handle the increased volume of data traffic flowing across the College network.

- **Assessment Results 2009-2010:**

Implementation of the College portal (Luminis) has begun. Contracts have been signed and server has been delivered. Server virtualization has started. VM Ware and servers have been configured. Internal Performance Indicator 6

Budget support for the expansion of the Quality Enhancement Plan (QEP) will continue each fiscal year at a minimum of 90 percent of the initial Quality Enhancement Plan budget amount.

- **Assessment Results 2007-2008:** Funding was allocated at the described level. Funding for the Poplarville campus, including salaries for the FY 2008-2009 Budget is \$206,703, and funding for the Hattiesburg campus is \$79,488. Included in the Quality Enhancement Plan budget are E and I Funds which amount to \$50,000.

Source of Documentation: FY 2008-2009 Budget

Use of Assessment Results: Funding will be used in the continued expansion of the Quality Enhancement Plan. The minimum of 90 percent of the initial Quality Enhancement Plan budget amount has been met. Future requests will remain at this level.

The Development Foundation will maintain or increase its annual fund contributions each year.

- **Assessment Results 2007-2008:** Total funds raised were \$1,097,810, an increase of 43%. In addition, \$499,975 was given in stock to establish a new scholarship.

Source of Documentation: The annual audit and Minutes of the Development Foundation Board meetings supports the assessment results.

Use of Assessment Results: The endowment fund increased by 22% to \$3,533,657, which exceeds the excellence minimum of 2.5%. Scholarships were funded for 349 students with a value of \$269,369.

- **Assessment Results 2008-2009:** From July 1, 2008 through June 30, 2009, total funds raised through the foundation were \$992,118.00.

Source of Documentation: The annual audit and Minutes of the Development Foundation Board meetings supports the assessment results.

Use of Assessment Results: The Endowment Fund increased to \$3,605,355.00. This is a 1.64% increase over last year which has been a great achievement in today's economy. Scholarships were funded for 320 students with a value of \$328,732.00. This is an \$111,423.00 increase over last year in scholarship funding made available through the foundation or a 51.3% increase in scholarship funding.

- **Assessment Results 2009-2010:** From July 1, 2009 through June 30, 2010, total funds raised through the foundation were \$702,106.00

Source of Documentation: The Annual Audit and the Minutes of the Development Foundation Board meetings.

Use of Assessment Results: The Endowment fund increased to \$3,717,010.00. This represents an **increase of \$111,655.00** in endowment status or a **3.096% increase** as compared to fiscal year 2008-2009. Scholarships were funded for 341 students through the foundation during this fiscal year in the amount of \$252,958.00. This is an increase in 21 students receiving scholarships this year as compared to last year however the funding is off about \$75,000 in scholarship support. This is primarily due to a much lower income interest on CD investments for scholarship support. Donor giving continues to grow for scholarships however the interest income designated to the scholarships is at a very low point. The foundation is conducting a new scholarship campaign initiative to increase scholarship funding. This will kickoff in August of 2010.

A comprehensive technology strategic plan will be operational (written, approved, implemented, and funded) by Fall 2010.

Assessment Results 2009-2010: A comprehensive technology strategic plan will be operational by Fall 2010.

Source of Documentation: Office of Information Technology

Use of Assessment Results: The plan continues to be developed and will be submitted for approval by Fall 2010.

Goal 6: To improve communication among campus personnel and community members regarding the College goals, objectives, and activities.

Commitment Statement:

Pearl River Community College is committed to specific activities with the goal of improving communication.

Internal Performance Indicator 1

The campus community will be informed of activities through a weekly report and a computerized calendar.

- **Assessment Results 2007-2008:**

1. The Friday Report: Distributed by the Office of Student Services. Copies are made available to all faculty, staff, and students on the Poplarville and Forrest County Center campuses, as well as the Hancock Center operations in Waveland and the Lowery A. Woodall Advanced Technology Center in Hattiesburg.

2. Items on the Friday Report are also put on the PRCC website www.prcc.edu under the subhead Items. Weekly and monthly events are also listed on the front page of the website in the scroll.

3. Dixie Drawl school newspaper. The school newspaper is published a minimum of three times each semester. It contains upcoming calendar of events, weekly and monthly. It is distributed to all faculty, staff and students, and also made available to the general public in racks and carts in some business establishments throughout the PRCC district.

Source of Documentation: Copies of the Friday report are on file in the office of the Dean of Student Services. Copies of the Dixie Drawl newspaper are available in the PRCC library on the Poplarville campus, the library at the Forrest County center, and the Public Relations Department in Hancock Hall. Copies of the Dixie Drawl can also be found on the PRCC website under News Calendar.

Use of Assessment Results: Plans are made to continue expanded distribution of the master calendar for the year to all on campus students. A 12-month calendar of all campus events (athletics, banquets, school breaks, final exam schedules, etc.) is passed out to all students, along with the Cat Country Guide, which is a printed student handbook and is distributed to all students at the first of the school year in August. Space in the calendar is allotted for each day of the month so students can make additions of school activities and events, as well as personal events. The marquee in front of the Poplarville campus provides information on scheduled activities. Encouragement needs to be given to all faculty members and students to utilize campus email accounts to check for announcements.

- **Assessment Results 2008-2009:** The Office of Student Services continues to distribute the Friday Report to all faculty, staff, and students through email and the PRCC website www.prcc.edu under the subhead Items.

The Drawl, school newspaper, has been published three times during the 2008 fall semester, and has been published four (4) times during the 2008 spring semester.

Source of Documentation: The Friday Report is on file in the Office of the Dean of Student Services, and copies of the school newspaper are kept in the Public Relations Department in Hancock Hall and in the library on each campus.

Use of Assessment Results: No action needed at this time.

- **Assessment Results 2009-2010:** Campus activities are announced through the Friday Report, which is distributed via email to all faculty, staff, and students. PRCC's school newspaper, The Drawl, was published and distributed three times during Fall 2009 semester. It was also published and distributed three times during Spring 2010 semester.

Internal Performance Indicator 3

A general faculty meeting will be held at least once during each year.

- **Assessment Results 2007-2008:** Faculty from all locations met on the Poplarville campus on August 14, 2007. The main focus of this meeting concerned campus safety issues. Other topics covered at this meeting included QEP updates, professional development activities, faculty handbook topics, etc. The Poplarville and Forrest County Center Career and Technical Departments met on August 15, 2007, to discuss several issues such as CPAS scores, student achievement, professional development opportunities, etc.

Source of Documentation: The information is on file in the offices of the Vice President for Instruction, Director of Poplarville Career and Technical Education Programs and Dean of the Forrest County Center.

Use of Assessment Results: Faculty meetings are held to disseminate information regarding policies, procedures, QEP plans, etc. that are necessary for the effective functioning of the College.

- **Assessment Results 2008-2009:** Faculty from all locations met on the Poplarville campus on August 11, 2008. The main focus of this meeting concerned instruction of the Millennial Generation student. Other topics covered at this meeting included QEP updates, instructional technology, campus safety issues (Wildcat Connection), and effective student assessment. The Poplarville and Forrest County Center Career and Technical Departments met on August 12, 2008, to discuss several issues such as instructional concerns, CPAS scores, student achievement, and professional development opportunities.

Internal Performance Indicator 5

At least one support staff meeting will be held each year.

- **Assessment Results 2007-2008:** A professional development session for support staff was held on October 23, 2007, on the Poplarville Campus and on November 15, 2007, at the Forrest County Center. The topic for the sessions focused on campus safety issues.

Source of Documentation: Office of Planning and Research

Use of Assessment Results: A survey is currently being planned in order to ask for input regarding professional development topic ideas for 2008-2009.

- **Assessment Results 2008-2009:** On October 27, 2008, an information sharing session was implemented for support staff on the Poplarville Campus. In addition, a guest speaker was present to lead a discussion regarding the benefits of organizing and joining a professional organization. On October 30, a similar session was held at the Forrest County Center for support staff.

Source of Documentation: Office of Planning and Research

Use of Assessment Results: It was found that there was interest among support staff regarding organizing and joining a professional organization. An initial meeting regarding organizing a professional organization was held on December 4 with interested support staff.

- **Assessment Results 2009-2010:** On April 22, 2010, Ms. Deborah Tierce, a professional motivational speaker, presented a staff development session for all support staff. With 80 percent of the support staff in attendance, evaluations were very high, and the information which was shared was very well received.

Source of Documentation: Office of Planning and Research and Office of Institutional Research

Use of Assessment Results: Informative and motivational meetings for support staff will be continued.

Internal Performance Indicator 6

The Alumni Association will hold annual meetings in each county in the Pearl River Community College district.

- **Assessment Results 2007-2008:** Each Alumni Chapter of the PRCC Alumni Association is now conducting regular meetings.

Source of Documentation: Results are documented in the minutes of the Foundation Board, the Board of Trustees, Alumni Association minutes, and the editions of the "Riverside".

Use of Assessment Results: Results are documented in the minutes of the Foundation Board, the Board of Trustees, Alumni Association minutes, and the editions of the "Riverside".

The Forrest/Lamar Chapter provided \$5,450 in funding for student scholarship for the year and added an additional \$9,500 to their endowment.

The Hancock County Alumni Chapter provided \$1,238 in scholarship support.

The Pearl River county Alumni Chapter provided \$2,272 in scholarship support.

The Marion/Jeff Davis Alumni chapter provided \$1,390 in scholarship support and added \$3,000 to their endowment.

- **Assessment Results 2008-09.** All Alumni Chapters have held meetings throughout the year but are on an as needed basis. Forrest/Lamar Counties Chapter holds regular scheduled meetings every other month.

Source of Documentation: Results are documented in the minutes of the Foundation Board, the Board of Trustees, Alumni Association minutes, and the editions of the "Riverside".

Use of Assessment Results: The results were that the alumni were continually involved in the programs and activities of the college. Alumni fish fry's, golf tournaments, and steak dinners were held to generate funding for the Development Foundation Endowment and for scholarships for students.

July 1, 2008-June 30, 2009

The Forrest/Lamar Alumni Chapter provided \$6,720 for student scholarships for the year and added \$3,986.20 to the endowment fund. This is almost a 53% increase in scholarship support and a 33% increase in endowment support over last year.

The Hancock County Alumni Chapter provided \$1,700 for student scholarships for the year which is a 70% increase in support over last year.

The Pearl River County Alumni Chapter provided \$2,550.00 for student scholarships for the year which is a 100% increase in support over last year.

The Marion/Jeff Davis Alumni Chapter provided \$2,550 for student scholarships for the year and added \$1,500 to the endowment fund. This is 200% increase in scholarship support over last year.

- **Assessment Results 2009-2010:** July 1, 2009 – December 15, 2009: The Forrest/Lamar Alumni Chapter raised over \$6,000 for scholarship funding and support of the endowment that the chapter has set up with the foundation. The chapter has now exceeded \$25,000 in

their endowment support and will be using the interest from that endowment to establish a fifth scholarship for a student from Forrest or Lamar Counties. The Hancock County Alumni Chapter conducted their first annual scholarship golf tournament in November and with the addition of some financial gifts raised over \$18,000 in support of scholarship and a chapter endowment fund. The Pearl River County Alumni Chapter held their annual scholarship golf tournament and continues to fund scholarship for three Pearl River County Students. The Marion/Jeff Davis Alumni Chapter raised over \$6,000 through their annual steak dinner in Foxworth. The money provides for student scholarships and additional money on the chapters endowment fund for the foundation.

Goal 7: To recruit and retain students from a diverse population.

Commitment Statement:

Pearl River Community College is committed to increasing the number and diversity of the student population and to helping students complete academic and career/technical programs through strong recruitment, retention, and transition programs.

Internal Performance Indicator 1

All high schools in the Pearl River Community College district will be represented in the student body.

- **Assessment Results 2007-2008:** Data indicates that all six counties in the district are represented with 22 out of 26 high schools in the district being represented. (Sacred Heart added a senior class which now brings the number of high schools in the district to 26.)

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Dissemination of information regarding Pearl River Community College is an on-going endeavor and additional methods of attracting a diverse population of students are being explored. The Recruiter and the Director of Recruitment and Orientation will deliver new recruitment packets to high schools in the district, as well as continue to inform the community as to the many diverse educational opportunities available at Pearl River Community College.

- **Assessment Results 2008-2009:** Data indicates that all six counties in the district are represented. Data also indicates that all public school systems are represented and four private schools are represented.

Source of Documentation: Office of the Dean of Student Services and Office of Institutional Research

Use of Assessment Results: Organizational changes are being considered for the Office of Recruitment and Orientation in order to provide additional services.

Internal Performance Indicator 5

Recruitment strategies will demonstrate an effort to recruit students from a diverse population.

- **Assessment Results 2007-2008:** Recruitment materials, application packets and a variety of campus information were distributed to all schools within the six-county district as well as various off-campus sites. A representative attended high school graduation ceremonies in order to present a certificate to scholarship recipients. All GED programs within the district were visited with the exception of Prentiss. An information fair for home school students was attended as well. The following programs were held on campus: Fill the Stadium,

Counselor's Day Luncheon, Scholar's Night, and Spring Fest. Early April registration is provided for students who score 18 or higher on the ACT. Campus visits were made to all of the area high schools. In December, the first area-wide recruitment night was held for the Hancock Center. Numerous private campus tours were given to potential students, and there were also several group Career-Technical tours that were conducted throughout the year.

Source of Documentation: Office of the Director of Recruitment and Orientation

Use of Assessment Results: Dissemination of information regarding Pearl River Community College is an on-going endeavor. The above-mentioned recruitment activities are being continued while other methods of attracting a diverse population of students are being explored. The Recruiter and the Director of Recruitment and Orientation will deliver new recruitment packets to high schools in the district, as well as continue to inform the community as to the many diverse educational opportunities available at Pearl River Community College. Both College and Career fairs will be attended by college representatives. Other community activities will be attended by college representatives so as to make information available to the largest and most diverse group of potential students. All GED classes in the six county district will be visited with materials. Materials will also be disseminated through the cart at TurtleCreek Mall, Walmart stores and local churches in order to attract more non-traditional students.

- **Assessment Results 2008-2009:** Recruitment materials, application packets and a variety of campus information have been distributed to all schools within the six-county district as well as various off-campus sites. Internal Performance Indicator 6

Eighty percent (80%) of Career and Technical Education students who are eligible for graduation will successfully complete their respective programs according to the State measurement definition.

- **Assessment Results 2007-2008:** A hundred percent of students who were eligible to graduate completed the programs

Source of Documentation: Offices of Career and Technical Education Programs on the Poplarville Campus, at the Forrest County Center, and the Hancock County Center.

Use of Assessment Results: No plan of improvement was required. The graduation rate exceeds the requirement of the State.

- **Assessment Results 2008-2009:** Of those who met eligibility requirements for graduation, all graduated for a 100% completion rate.

Source of Documentation: Dr. Ann Moore and Dr. Joe Wesley, Counselors, and Instructors

Use of Assessment Results: The graduation rate of 100 percent (100%) meets the state requirement. No plan of improvement is required.

- **Assessment Results 2009-2010:** One hundred percent (100%) of students who met graduation eligibility requirements graduated.

Source of Documentation: Dr. Ann Moore and Dr. Joe Wesley, Counselors; and Instructors.

Use of Assessment Results: The graduation rate exceeds the state requirement. No plan of improvement is required.

Internal Performance Indicator 7

Career and technical education programs will demonstrate a retention rate of 86% according to the State measurement definition.

- **Assessment Results 2007-2008:** Eighty seven percent (87%) of the students enrolled in career technical programs (unduplicated enrollment) passed a level of instruction according to the State measurement definition of retention.

Source of Documentation: Offices of the career and technical counselors and instructors at the Poplarville campus, Forrest County Center, and the Hancock County Center.

Use of Assessment Results: The retention rate of 87% exceeds the requirement of the State. No plan of improvement was necessary.

- **Assessment Results 2008-2009:** Approximately eighty-eight percent (87.8%) of the students enrolled in career technical programs (unduplicated enrollment) passed a level of instruction according to the State measurement definition of retention.

Source of Documentation: Offices of the career and technical counselors and instructors at the Poplarville campus, Forrest County Center, and the Hancock County Center.

Use of Assessment Results: The retention rate of 87.8% exceeds the baseline requirement (73.1%) of the State. No plan of improvement was necessary. However, a recommendation will be made to change the indicator to reflect the updated state baseline.

- **Assessment Results 2009-2010:** Approximately ninety-two percent (92%) of career and technical students who were defined by the Mississippi Department of Education as concentrators met the required retention rate.

Source of Documentation: Offices of the career and technical counselors and instructors at the Poplarville campus and the Forrest County Center.

Use of Assessment Results: Because programs exceeded the Mississippi Department of Education requirement, plans of improvement were not required.

Internal Performance Indicator 8

At least 80% of those students who have earned less than sixteen semester hours of credit and are enrolled in at least twelve hours of academic course work after six weeks of any fall semester will be enrolled at the end of registration for the next fall semester.

- **Assessment Results 2007-2008:** The Planning and Effectiveness Committee has recommended the modification of this indicator in order to accurately reflect data and is currently in the process of revising the indicator.

Source of Documentation: The Office of Institutional Research

Use of Assessment Results: This indicator will be revised

- **Assessment Results 2008-2009:** The Planning and Effectiveness Committee has made its recommendation concerning the modification of this indicator to be implemented for the 2009-2010 report.

Source of Documentation: The Office of Institutional Research

Use of Assessment Results: No action needed.

- **Assessment Results 2009-2010:** From Fall 2008 to Fall 2009, 55.8% of the students enrolled met the Indicator 8 guidelines above.

Source of Documentation: The Office of Institutional Research

Use of Assessment Results: This indicator was modified by the Planning and Effectiveness Committee in 2009-2010, and the new indicator will be implemented for 2010-2011 reporting.

Goal 8: To provide workforce training programs that meet requirements of business, industry, educational, and public service agencies for basic skills, specific job skills, and technical skills training.

Commitment Statement:

The Pearl River Community College Workforce Development Center is committed to enabling businesses, industries, educational and public service organizations, and individuals in need of employability skills improvement to achieve their personal and organizational job performance goals.

Internal Performance Indicator 1

At least 60 training projects will be developed and delivered to businesses, industries, educational and public service entities.

- **Assessment Results 2007-2008:** PRCC conducted 62 training and education projects as part of the State Board for Community and Junior Colleges system in this fiscal year. The department also executed one MDES Grant, two SMPDD Grants, one NASA grant, and has been tentatively awarded a NSF grant to support the Electrical Utility Technology Program

ADMINISTRATIVE COUNCIL 2009-2010 OBJECTIVES

The purpose of the Administrative Council is to facilitate the day-to-day operations through an exchange of information, to resolve operational issues and, to serve in an advisory role to the President. The Council has scheduled monthly meetings that are held at 8:30 a.m. on Wednesday following the Board of Trustees meeting that is normally held on the second Tuesday of each month.

The Administrative Council meetings allow college administrators an opportunity to review programs and activities in their respective areas for other members of the Council. The Council meetings also provide a forum for the discussion of college-wide issues and the resolution of significant issues that impact the operation of the institution.

Listed below are the OBJECTIVES for the Administrative Council for 2009-2010:

- Continued refinement of the admissions, registration and orientation process.
- Plan for student housing adjustments with the construction of new dormitories and the possible transition of some current facilities being used as dormitories to classrooms and faculty offices.
- Plan for continually improving relationships with all school districts in our service area.
- Receive input regarding the improvement of the College's buildings and grounds.
- Ensure the continuity of effort in providing services in recovering from the aftermath of Hurricane Katrina.
- Communicate the College's efforts to provide workforce education projects throughout the district.
- Plan for the explosive demand for instructional programs, student services and facilities at all College locations.
- Evaluate any changes needed in the formatting of the instructional schedule.
- Provide for the continued development and growth of the Hancock Center.
- Help plan for the marketing of the College to the service area.
- Plan for the expanded use of technology as an instructional and management tool.
- Plan for the continuous improvement of the instructional program and for course redesign in appropriate program/content areas.

**ADMINISTRATIVE COUNCIL
ACCOMPLISHMENTS
2009-2010**

The Administrative Council provides a venue for the discussion of issues important to the successful operation of the College. During the 2009-1010 school year, the Council successfully provided a forum for the discussion of these issues and the development of strategies for college-wide improvement.

Among the major issues addressed by the Council were the following:

1. The on-going recovery from the damages caused by Hurricane Katrina.
2. The diminishing resources from state appropriations and the need for funding from other external sources, i.e. grants.
3. Discussed the implementation of the Emergency Notification System to provide emergency messages for students and employees.
4. Discussed the implementation of the Adult Services Program.
5. The development of the Title III Program and the focus on student retention and advisement.
6. The issue of transfer of credits and the statewide articulation agreement was discussed.
7. The Office of Business Services cost-saving initiatives to assist in the budget challenges for the next fiscal year.
8. The use of electronic transcripts and the services provided by this technology.
9. Reviewed the college Mission Statement and Strategic Goals.
10. Discussed the personnel evaluation system and reviewed the process and procedures for conducting these evaluations.
11. Discussed the Quality Enhancement Plan and the consideration and planning for a course redesign for mathematics instruction.
12. Reported on the various construction and renovation/repair projects that are on-going .
13. New Policies were presented for recommendation to the Board of Trustees as were policy & procedure revisions.
14. Discussed the new on-line orientation process.
15. Discussed the college's role in supporting the BP oil spill cleanup and recovery.
16. Heard reports on the new telephone system and its impact on future college operations.

STUDENT SERVICES COMMITTEE

2009-2010 Objectives

This committee is chaired by the Dean of Student Services. Its members are the Manager of Student Activities, Director of Intramurals, Director of Financial Aid, Director of Admissions, Director of Recruitment and Orientation, one faculty member from the academic division, one faculty member from Career and Technical Education, and others as appointed by the President. Members also include the President, Vice-President, and Secretary of the Student Government Association.

The purpose of the Student Activities Committee is to provide assistance in planning and evaluating activities to enrich and improve student life.

Objectives for the 2008-2009 year are as follows:

- To provide support and suggestions during the implementation of the new college housing project.
- To continue to place a strong emphasis on academic achievement related to eligibility for financial aid, student housing, as well as admission to specific programs at PRCC.
- To improve student services as it relates to students with disabilities. (Review ADA guidelines and make necessary changes.)
- To continue to provide a strong campus police department that will enhance the safety of our campus as well as proper student conduct and provide security with the necessary facilities to promote a professional approach to safety.
- To recruit and retain students from a diverse population.
- To deal with diversity issues on campus as well as the adaption of total quality management in all areas of Student Services.
- To improve physical facilities such as on-campus lighting, parking, streets, etc. Also, work toward the zoning of student parking on campus.
- To expand student services and student activities wherever possible to enhance student life at PRCC.
- To continue to expand and improve the delivery of Student Services at the Hattiesburg Campus and Hancock Center.
- To maintain and keep the updated goals and assessment of these goals in Student Services. Also to make improvements and changes in Student Services as deemed necessary by documented data.
- To improve on campus living through more student activities and a strong intramural program.

STUDENT SERVICES COMMITTEE
2009 – 2010 Accomplishments

1. The division of Student Services underwent a major reorganization of staff in an effort to better service all PRCC students.
2. A new online orientation module was developed that helped to streamline the new student orientation process and also allowed students to earn one credit hour upon completion of the module.
3. Career – Technical scholarships, which were previously only available to in-district students, were made available to all Mississippi residents who meet the minimum criteria.
4. A new program, Wildcat Fest, was implemented, which gives high school students the opportunity to visit the PRCC Poplarville campus and speak with program advisors and department representatives regarding the admissions process, housing, scholarships, and both academic and career-technical majors. The event was met with great success and plans have been made for it to become an annual activity.
5. A new division of student services was created known as Adult Learning Services. This department was created in an effort to better meet the needs of our adult and non-traditional students and to provide additional services to help ensure their success.
6. The Athletics Department had a very successful year, bringing home three state championships in the areas of women's soccer, men's basketball, and women's softball.
7. The Office of Admissions implemented a new service which allows for the electronic submission of transcripts. This new feature is encrypted and contains an electronic seal, which makes it very secure. Additionally, it has expedited the transcript submission process, which has provided better service to our students.

WORKFORCE EDUCATION COMMITTEE

This committee is chaired by the Workforce Education Center Director. Its membership consists of the Workforce Education staff. The purpose of the Workforce Education Committee is to plan and deliver workforce training to businesses, industries, educational and public service entities in the PRCC six-county district.

Workforce Training

Objective 1: Plan and deliver workforce training

Action Plan:

- Program Managers develop and execute plans for offering workforce training to area businesses, industry and agencies.
- Committee will identify emerging technologies and businesses requiring new training programs.

Objective 2: Provide effective and efficient Program Managers

Action Plan:

- Program Managers will participate in development of programs and activities which keep them on the cutting edge of workforce training.

Objective 3: Assist businesses and industry with identifying their training needs

Action Plan:

- Assist customers with the development of long range training plans.
- Provide leadership training.

Objective 4: Keep business, industry and agencies within the PRCC district aware of the benefits of Workforce Education

Action Plan:

- Create and maintain a cutting edge web presence on the internet.
- Engage organizations, agencies and societies to create a dialog of training needs and resources.

Objective 5: Make the Advanced Technology Center the premier training center in Mississippi

Action Plan:

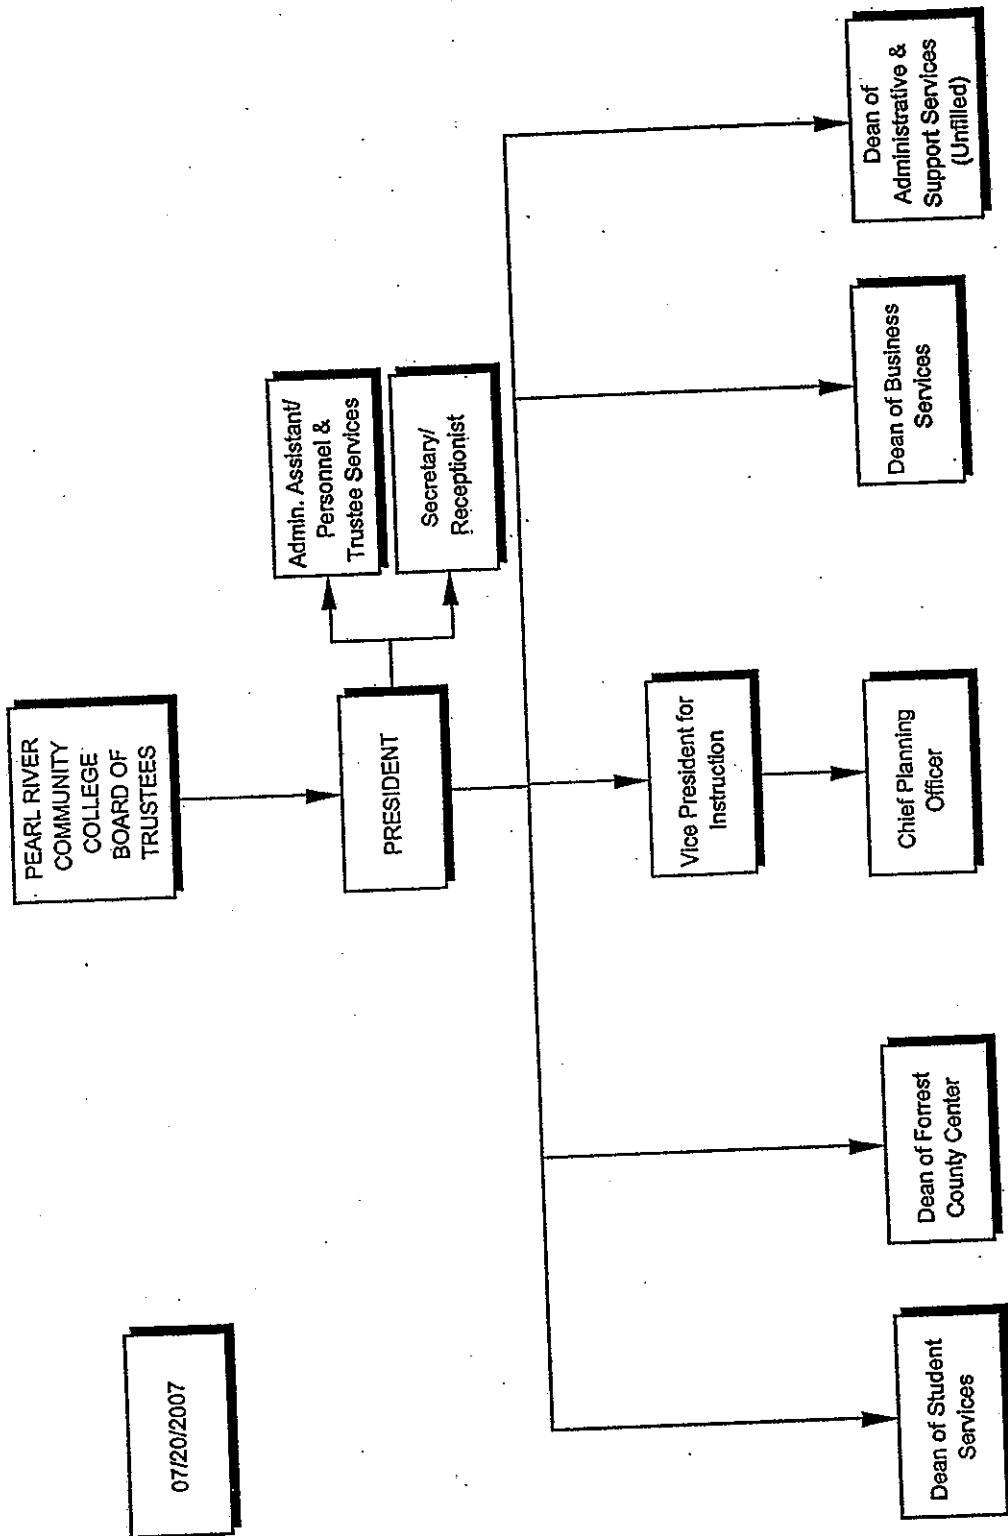

- Solicit and integrate state and national resources into increasing the ATC curriculum development capability, increase the development of alternative training techniques and to expand its physical training capability.
- Increase the outreach to business and industry to expand the use of the ATC as their training venue

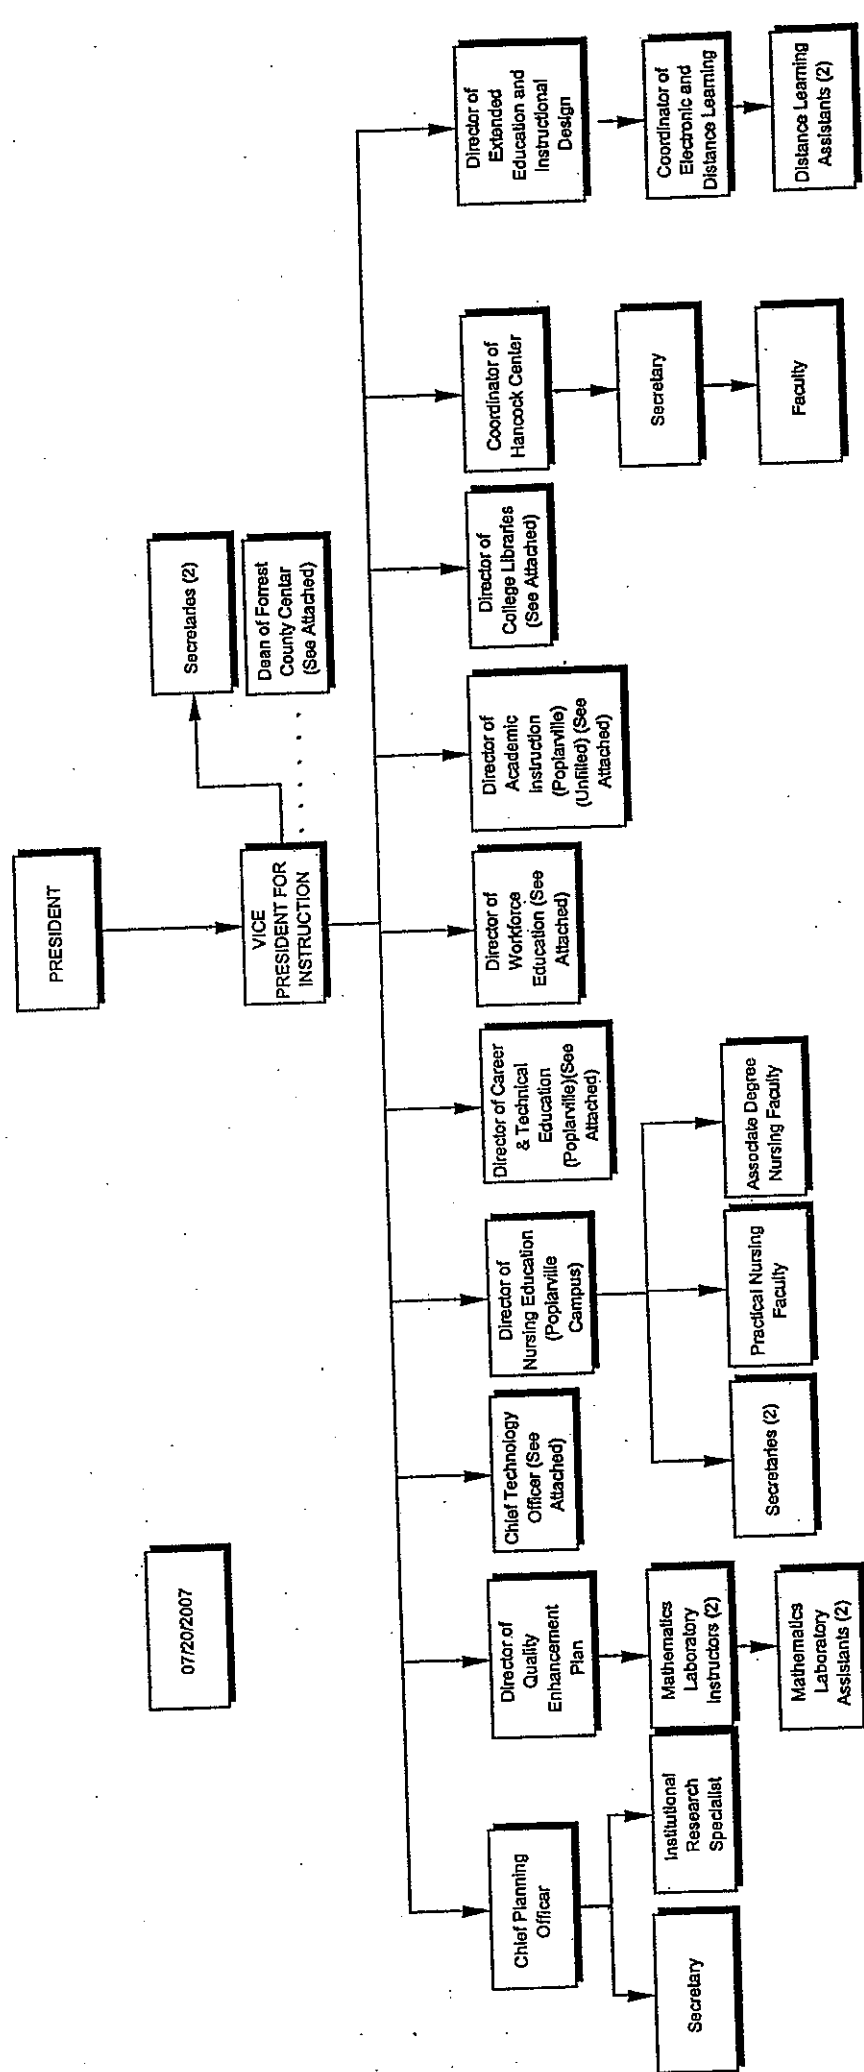

Workforce Education Committee

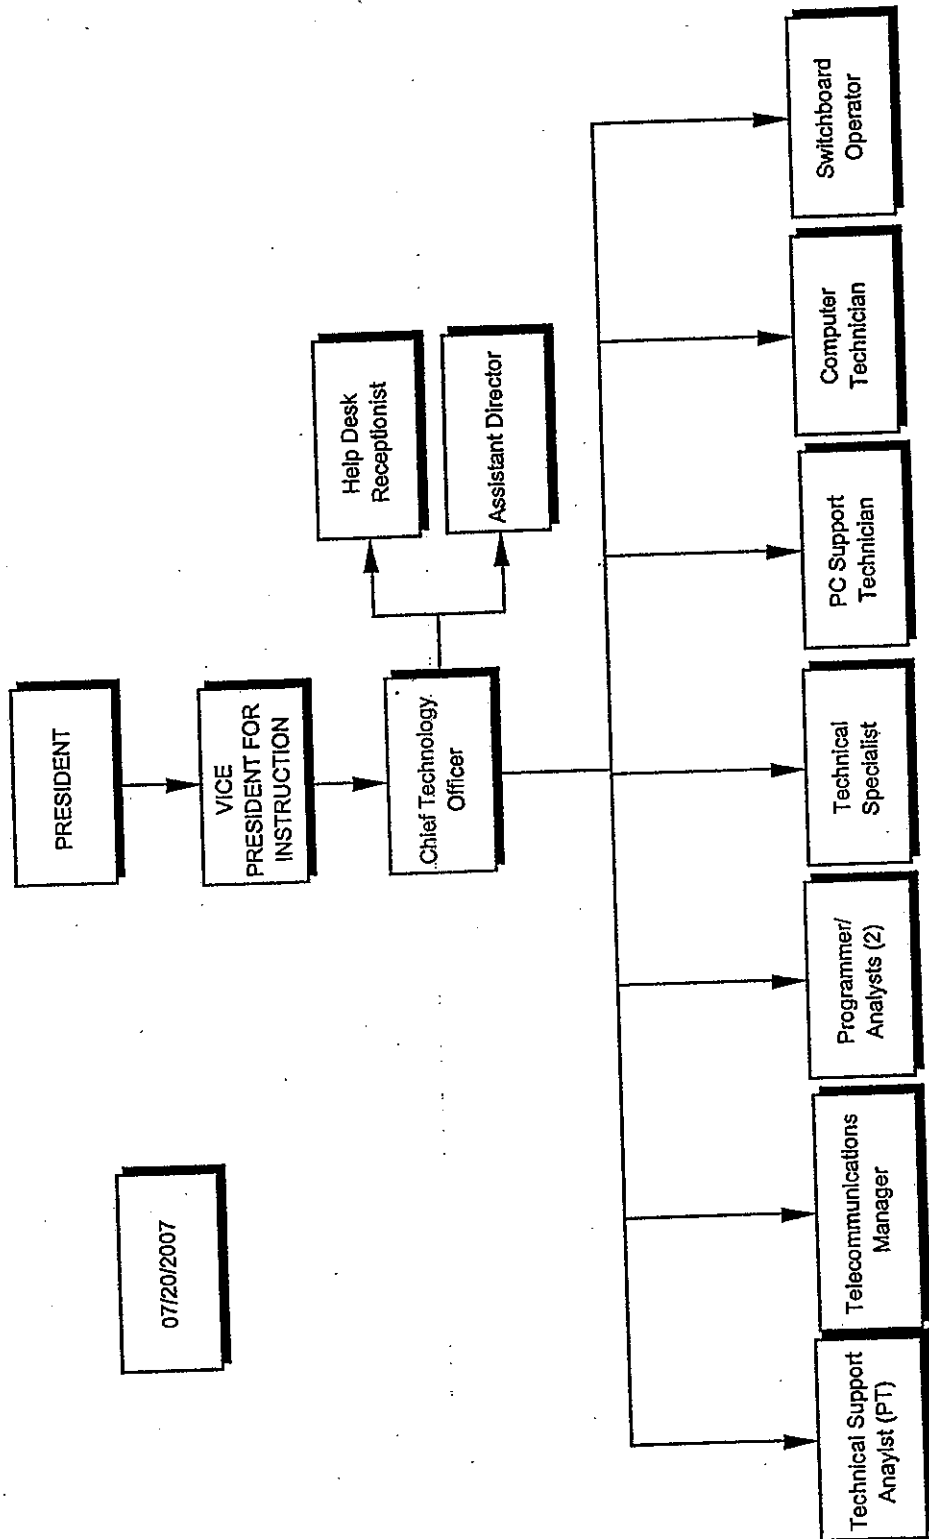

2009-2010 Accomplishments

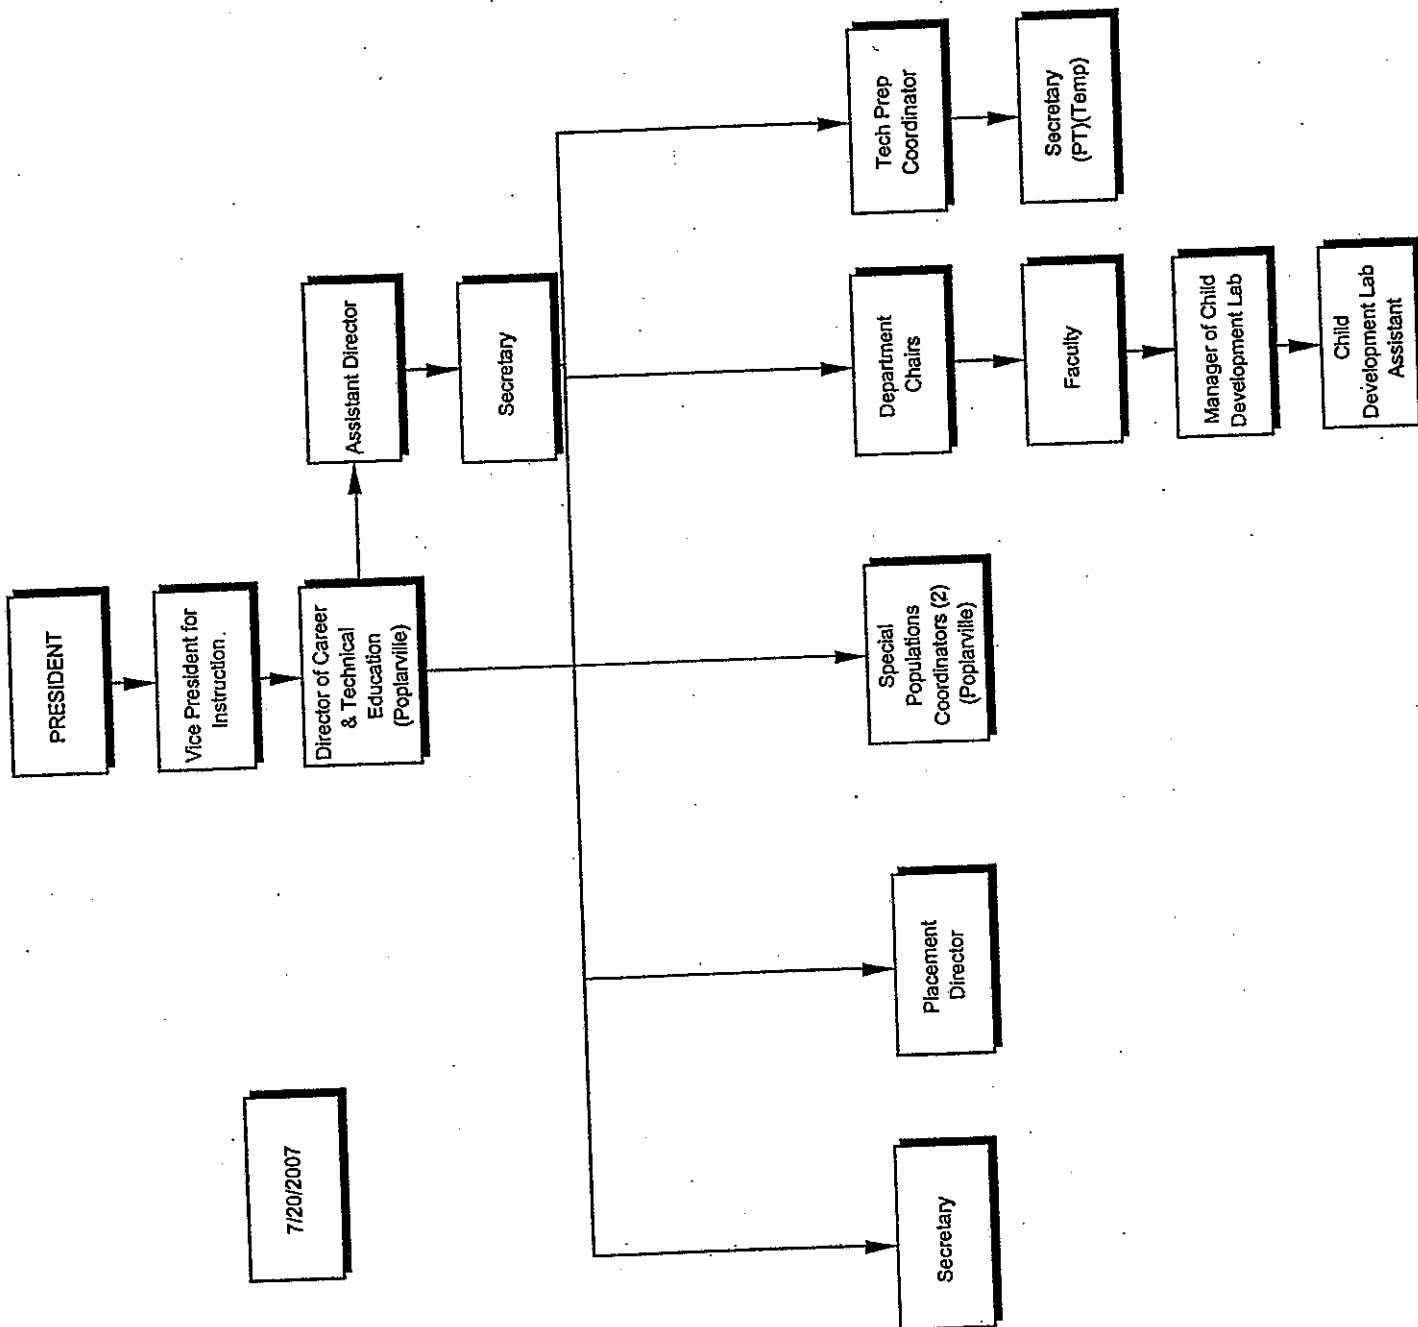

1. For 2009-2010, 1218 individuals obtained services from the ABE program with 309 earning GED's. 253 new students enrolled in college at PRCC. 683 students enrolled in PRCC in 09-10 with a GED.
2. PRCC's Dislocated Worker program served 975 workers through Rapid Response and Profiling sessions.
3. Awarded **848** certificates for computer training completed at the Hattiesburg WIN Job Center. The training primarily targeted unemployed and underemployed individuals that needed additional computer skills to obtain or advance in employment.
4. Managed 36 individual training projects funded by a total of \$729,901 through the MS Workforce Enhancement Training Fund to assist both companies and individuals with workforce development initiatives. In these projects, 6,355 non duplicated individuals were trained with a duplicated count of 10,350.
5. The Mississippi Department of Employment Security awarded PRCC a \$500k National Emergency Grant to provide short term training to individuals suffering the effects of the economy amid the aftermath of Hurricane Katrina. With this effort, 190 were trained in construction equipment operations, commercial truck driving, culinary arts, and metal working.
6. PRCC completed the Department of Labor WIRED initiative, with this PRCC expended a total of approximately \$1.3M to develop a center of excellence in educating the metallurgical workforce. In this partnership with MGCC and JCJC, PRCC enhanced existing Welding Technology and Machining Technology Programs. These enhancement included curricula revisions and updates, equipment upgrades and faculty development. Also, a total of 475 individuals were trained in welding and machining technology.

PRESIDENT'S REPORT AND ADMINISTRATIVE GOALS

Dr. William Lewis, President – Fall 2009

The changing dynamics of the current state of the economy continues to have dramatic effects on the operation of higher education institutions throughout America. Colleges and universities are challenged by shrinking budgets, diminishing revenues and rising unemployment at a crucial time when our citizens need more higher education opportunities than ever before. Administrators and faculty are now required to react to a changing financial environment by "doing more with less".

Despite today's economic challenges, Pearl River Community College continues to move forward in developing quality programs and opportunities for the citizens of south Mississippi. Enhancing the learning environment with technology improvements remains a focus of our efforts to improve the teaching-learning process and as a management tool for our institution. A prime example of our institution's enhanced use of technology is The Quality Enhancement Plan (QEP) that was initiated in response to the requirements of the Southern Association of Colleges and Schools (SACS). The QEP crafted by Pearl River Community College uses technology for the enhancement of student learning in mathematics and has proven to be an effective tool that is changing the way this subject matter is taught at our College.

Pearl River participates in the Mississippi Virtual Community College which provides course offerings from all fifteen of the state's two year institutions of higher learning, and enrollment in the College's on-line courses continues to expand at a rapid pace. The College continues to provide a growing list of course offerings for students needing and wanting this method of instruction. The College is making great efforts to ensure the quality of instruction and the integrity of the coursework being offered, while offering this form of instruction which provides a great service to certain students that may be prohibited from enrolling in traditional classes.

The Strengthening Institutions Program, established in Title III of the Higher Education Act, was awarded to Pearl River, and was implemented on October 1, 2009. This grant will enable Pearl River to develop new and promising practices in advisement and academic support, and will include the establishment of Success Centers at the Poplarville Campus and the Forrest County Center. Faculty and staff will also be trained in proactive advising, especially for special populations, as well as peer monitoring.

The new Title III program is complemented by the Early Alert System (EAS) established by the Dean of Student Services Office. This program focuses on identifying students who are experiencing classroom and social difficulties and provides intervention intended to provide guidance and encouragement for these students to remain in school and become successful course/program completers.

Our goal, even in these difficult and challenging economic times, is to offer our students high quality, low-cost higher education programs and services.

8. To provide workforce training programs that meet requirements of business, industry, educational, and public service agencies for basic skills, specific job skills, and technical skills training.				
PURPOSE OF UNIT: To obtain additional funding to support various College programs and initiatives and to provide the College with information, practices, and procedures to meet requirements of the Commission on Colleges of the Southern Association of Colleges and Schools and other accrediting agencies which will lead to improvements in all areas of the institution.				
RELATIONSHIP OF UNIT TO PRCC MISSION: To provide support that will assist in the improvement of instructional programs, teaching, learning, and services of the College.				
OBJECTIVES - Broad description of intended impact on students (Program goals)	ASSESSMENT CRITERIA – Criterion for Evaluation (Variables related to success of intended outcome)	ASSESSMENT RESULTS – Outcomes Assessment (States how well intended results were achieved)	USE OF RESULTS – Actionable Knowledge (How knowledge gained will be used to improve program performance)	
1 To assist areas of the College in meeting their resource needs by providing assistance in obtaining funding that is not normally provided through general appropriations by the Mississippi State legislature and/or that requires a request for funding (from an agency or from the private sector) proposal.	Meetings regarding proposal development. Proposals for grants to provide needed resources prepared and submitted to the appropriate agencies.	During the 2009 – 2010 school year, the Institutional Review Board (IRB) met twice and reviewed grant proposals, awards, survey petitions, etc. In addition, numerous small group sessions were held in order to discuss prospective grant proposals. Grant proposals were submitted to numerous foundations/agencies.	The IRB implemented its guidelines for the development and approval of grant and survey activities, and the Board continued to meet the needs of the College and the community by reviewing grant proposals, awards, survey petitions, etc. The IRB guidelines will continue to be followed next year. More than \$4,200,000 in grant funds were received during the 2009 – 2010 school year and will be used for improvements in both the instructional and student support areas. Sources of funding included the United States Department of Education, the Mississippi Arts Commission, the Mississippi Department of Archives and History, the State Board for Community and Junior Colleges, and the National Science Foundation.	
2 To serve as the SACS accreditation liaison.	Attendance at meetings related to SACS accreditation requirements and compilation of appropriate documents.	The annual SACS meeting was in Atlanta and was attended by several PRCC personnel.	Approval of the Hancock Center's Substantive Review was received, and information regarding the Fifth-Year Report, which includes the QEP review, was provided to those in attendance	

PEARL RIVER COMMUNITY COLLEGE ASSESSMENT

			All SACS reports were completed and submitted as required. Several meetings regarding the SACS Fifth-Year Report were held in order to begin plans to complete and submit this report during 2011.	and should be helpful as the College enters into the writing phase of these reports.
3	To provide direction as needed for the review and improvement of the planning and evaluation processes of the institution.	Assistance as needed provided to the Institutional Research Specialist regarding meetings and discussions pertaining to planning, evaluation, and implementation of recommendations.	The Planning and Effectiveness Committee met numerous times throughout the year in order to review various aspects regarding the College's institutional effectiveness program.	As in the past, the Internal Performance Indicators were reviewed with new Indicators being recommended and approved for implementation during the 2010 – 2011 school year.
4	To assist with the coordination of annual professional development sessions for faculty, staff, and administrators.	Attendance of professional staff and faculty at the August professional development program, of administrators and supervisors at professional development meetings, and of support staff at their professional development meeting. Written evaluations by faculty, professional staff, and support staff.	Participation in the annual Faculty and Professional Staff Sessions was at the 90% level, and participation in the annual Support Staff Professional Development Sessions was at the 80% level. According to evaluations, the sessions continue to be both informative and interesting, and the new format, which gave faculty and staff more time in their offices on their first day back at work, was very well received.	The new format will be followed again during the Fall 2010 professional development sessions which will be in August.
5	To coordinate the personnel evaluation process in order to assess achievement of educational goals.	Preparation, distribution, collating, and processing of student evaluations of faculty forms and faculty/staff/administrator evaluation forms.	Personnel were evaluated according to the approved evaluation schedule.	Since the technology (Survey Monkey) which was used last year was found to be very effective and easy to use, it was used in the evaluation of almost all employees who were evaluated this year. This included the Forrest County Center and the Hancock Center employees as well as the employees on the Poplarville Campus.
6	To coordinate publication of College policies and procedures.	Publication and distribution of the annual Policy and Procedure Manual.	The Policy and Procedure Manual was prepared and distributed, and the website Manual was updated.	This activity will be continued.
7	To coordinate/assist with other special events, workshops, etc., as needed.	Participation in special activities.	The fourth Women's Health Symposium was implemented with approximately 300 people attending.	With excellent evaluations received regarding the 2010 Symposium, the fifth Women's Health Symposium is currently being planned and will follow the same basic format.

RELATIONSHIP OF UNIT TO PRCC MISSION: To serve as a vital component in carrying out our mission of student services.			
OBJECTIVES - Broad description of intended impact on students (Program goals)		ASSESSMENT CRITERIA – Criterion for Evaluation (Variables related to success of intended outcome)	ASSESSMENT RESULTS – Outcomes Assessment (States how well intended results were achieved)
1	To provide academic advisement services.	Academic advisement services include transcript evaluations, assisting placing students in appropriate classes according to their functional level, career and educational planning, skills in transferring to a four-year college or university. Advising is based on entrance examination scores, student interest, and student educational and career goals. Advisement on an individual basis provided is ongoing. Group guidance is by arrangement. Group guidance is a collaborative effort in cooperation with career and technical counselors. Assist in conducting college fair. Plan and conduct transfer week. Assist in registration and advisement at Poplarville campus and at Hancock Center.	Academic advisement services were provided to students on the Poplarville campus and to those attending the Hancock Center. Services at both Centers were rated highly by the students in the Climate Survey. However, students indicated that they needed plans of study that are not listed in the catalog. These are available in the counseling center, but students do not all come for advisement.
			Those students who stated that advisement services were not needed are probably most likely to do a poor job of advising themselves; that is why students were assigned a faculty advisor or counselor to assist. A system should be formed whereby students must seek approval from an advisor before being allowed to register themselves for a schedule of classes. The articulation agreement has been posted on our website.
2	To assist in providing advisement training for faculty advisors.	Assist in conducting training sessions for faculty in use of Banner (Information Technology System). Advisor's Guide developed in the Counseling,	Training sessions were quite successful. Sessions were held for faculty members that wanted to participate. However participation was not

3	To provide career exploration/development services and testing services.	Career development services are provided through information provided by the student and through exploration in Choices and instruments such as Myers Briggs Personality Inventory.	Newer computers were donated to the Counseling, Advisement, & Placement Center for student use in accessing the Internet.	Student use is expected to increase as a result of newer equipment and the installment of Sigi.
4	To provide personal counseling services.	Provide personal and social counseling to students who are faculty and/or self-referred for assistance with personal issues. Referrals are made to local mental health facilities for issues where a student may be a danger to self or others.	Personal counseling often accompanies advisement and class scheduling. It is an on going process where counselors at PRCC advise over 3000 students on the Poplarville campus, over 2000 at the Forrest County Center, and approximately 250 for the Hancock Center.	Personal, career, academic, and social counseling services are expected to increase with the increase of enrollment.

1	To organize and implement a guidance activities for Career and Technical Counselors.	Develop a yearly plan (Program of Work). Include a calendar of activities beginning July 1, 2009 to June 30, 2010.	Career and Technical counselors collaborate in organizing activities according to the calendars of the College and State.
2	To provide individual and group guidance services to students to assist them in the development and use of cognitive and affective skills for understanding of self and others in the world of work.	Conduct individual advisement and scheduling sessions on an as needed basis. Conduct small and large group sessions for career decision making, orientation, class scheduling, employability skills development, and job placement skills.	Individual advisement is a continuous process. Employability skills taught in placement workshops is an example of large group sessions. Class visits with smaller groups where at risk students are asked to complete the Myers Briggs helped students with educational and career planning. Advisement and registration for freshman students was conducted on an individual basis during summer 2010.
3	To coordinate student assessment,	Conduct an organized testing program.	An organized testing program
			Individual and group guidance and advisement will continue. The evaluation of the career fairs and placement workshops indicated that prospective employers stated the majority of PRCC students displayed employability skills. The majority of students responded in an evaluation of the placement workshop that the program was a valuable service. Individual advisement and registration session were conducted with 2,598 students during summer 2010 on the Poplarville campus. These sessions were conducted in place of the three day mass registration normally held in the second week of July. Advising improved as a result of the quieter atmosphere of the Counseling, Advisement, & Placement Center where counselors had adequate resources for assisting students in educational and career decision making.

employability skills training, retention, placement, and follow-up activities in cooperation with instructors.	Administer Occupational Specific examinations to fall, spring, and summer graduates. Utilize ACT and TABE scores in class placement. Administer regularly scheduled GED testing sessions for the people of the district. Conduct Job/Career Fairs on Poplarville and Hattiesburg campuses. Develop assessment charts on enrollment, retention, program completion, graduation, placement, occupational skills assessment, and academic gain. Maintain appropriate records.	is conducted that includes ACT, TABE, MS-CPAS, GED, C-PAT. Assessment also involves personality inventories and career planning instruments such as Choices and SIGI. Over 400 students passed the GED in 2009 and entered PRCC. Job/career fairs are conducted annually with approximately 400 students participating in the Forrest County Center fair, and 950 participating in the Poplarville campus fair. Also 15 colleges participated in the college fairs and transfer week are conducted annually to assist students in transferring. Tracking career technical students in settings includes job placement, additional education, or military service produced positive results. Counselors maintain records on placement, retention, and program completion.	made by the State for the 2009-2010 year. Counselors continue to meet with instructors and administrators to provide statistical data on program evaluations.
4 To assist in integration of academic and career-technical skills.	Blend academic and technical courses while developing class schedules for students	Counselors advise and plan class schedules for students that will blend academic and technical courses.	Counselors will continue to advise students that academic as well as career or technical courses must be completed to meet graduation requirements. Increasing graduation rates in a common goal of all community colleges throughout the United States.
5 To assist in student recruitment including special population students.	Serve on Recruitment Committee. Conduct recruitment visits to schools, technical centers, and assist with their visits to our campus.	Counselors assist in recruitment at district schools and assist with tours on the PRCC campus. Counselors also encourage special population students to participate in Student Support Services and to ask for accommodations through the assistance of ADA Coordinators. Additionally, PRCC received a \$2,000,000 Title III grant to assist at risk	PRCC has a non-discrimination policy that is published on all documents presented to the public. Counselors, special population coordinators, and ADA will continue to assist and serve all who seek their services especially special populations students

			students with college success. Student Support Services were also awarded another 5 year grant to provide services for at risk students.	
6	To assist special needs learners in obtaining skills for success in career-technical programs.	Schedule learners with special needs in related studies and developmental courses which lead to success. Accommodations for special needs students are sought and often approved in the GED testing program.	Special needs learners are tested for appropriate placement in classes which include developmental, related studies, and workforce.	Placing students in appropriate level of instruction assists in retention and persistence. An early alert program is conducted by the Director of Adult Learning who collaborates with counselors on a regular basis. Additionally the grants awarded to PRCC have been helpful special needs learners. Title III provides supplemental instruction in general education courses, and Student Support Services provides tutorial services.
7	To provide occupational, educational, personal, and social information for decision-making and problem solving.	Supply and upgrade occupational, educational, personal, and social information in the counselors' offices and career center library as budget permits. Title III has provided funding for increasing materials, equipment, and software for occupational, educational, personal, and social information that assists students in problem solving and decision making. A student success course has been established that assists in educational, career, and financial planning. Counselors remind students to take the required online orientation course early in their first semester.	ACT COMPASS and SIGI have been added to the career center library to assist students in making educated decisions. Counselors provide information to assist in problem solving. Memory was added to the computers that were donated to the career center library. Additionally, a student success center with study rooms, 25 new computers, and software has been established. Counselors work with Title III personnel in helping students use the facilities for career and educational decision making.	The volume of usage of the success center and the counseling centers are recorded. It is hoped that the information will help students to make educated decisions regarding their goals. Student success, learning outcomes, retention, and graduation rates are indicators of how well PRCC faculty members are accomplishing the mission of the college.
8	To participate in professional growth opportunities.	Participate as a member in state and district professional organizations	All counselors and counseling center staff are members of district, state, and national organizations. Professional development conferences such as Pine Belt Counselors, MCA, MS Advisors Assoc, NACADA are some of the professional organizations in which counselors serve. Counselors also conduct and attend in-house workshops	Faculty advisor training will continue based on the continuous need to improve advising. Professional training in workshops (in district, at state level, at national levels) will continue to try to keep up with ever changing advances in technology.

9	To conduct annual program performance evaluations for improvement.	State performance evaluations Student/staff evaluations.	<p>State performance, staff evaluations, Climate Surveys indicate the need for improvements in advising. The Poplarville campus provided more faculty training but received the lowest rating of PRCC's locations by students on the Climate Survey. Special programs provided by counselors such as the job/career fairs, college fairs, transfer week, and placement workshops received very high ratings.</p> <p>Title III funding is being used to train faculty advisors. The grant begins training with 20 faculty advisors, and counselors are working with Title III personnel to help make the advances system wide. Fifty percent of the student who responded to the survey stated that advisors were needed. The other 50% stated that advisors were not needed.</p>

4	To increase periodical collection.	ACRL standards.	Found that the Library needed to add 200 print periodical titles if it wanted to meet ACRL print standards. However, PRCC students have access to thousands of online journals and magazines through the MAGNOLIA project and other online databases to which the college subscribes.	Requested additional funding for online full-text periodicals for 2010-2011 school year since online products have the capability of serving more students than print in-house periodicals can serve.

5	To increase the Libraries budget to 6% of the school budget.	ACRL standards.	Found that the Library needed to add 2.39% to the existing budget.	Requested additional funding for 2010-2011 school year.
6	To increase the electronic database collection.	ACRL standards.	A subscription was acquired to two new book databases: 1. NetLibrary's Shared Collection XIX containing approximately 3,000 eBooks and NetLibrary's eAudiobook collection of over 600 books. A subscription was also acquired World Book Online.	Requested additional funding in the 2010-2011 budget for additional online databases.

STRATEGIC GOALS:					
1. To prepare students to transfer and be successful in their studies at baccalaureate institutions and/or to be successful in careers for which they have been prepared.					
2. To provide quality student services.					
3. To provide access to college courses and programs using various instructional methods, including distance education.					
4. To employ qualified faculty and staff, compensate them well, and provide opportunities for their professional development.					
5. To provide facilities, technology, and support staff in order to improve student learning, enhance faculty and staff performance, augment community services, And make College services available via the Internet.					
6. To improve communication among campus personnel and community members regarding the College goals, objectives, and activities.					
7. To recruit and retain students from a diverse population.					
8. To provide workforce training programs that meet requirements of business, industry, educational, and public service agencies for basic skills, specific job skills, and technical skills training.					
PURPOSE OF UNIT: To provide individual and group services to prepare students for careers which meet the needs of business and industry.					
RELATIONSHIP OF UNIT TO PRCC MISSION: To provide counseling services which assist in enhancing the educational experience and career development of our students.					
OBJECTIVES - Broad description of intended impact on students (Program goals)		ASSESSMENT CRITERIA – Criterion for Evaluation (Variables related to success of intended outcome)	ASSESSMENT RESULTS – Outcomes Assessment (States how well intended results were achieved)	USE OF RESULTS – Actionable Knowledge (How knowledge gained will be used to improve program performance)	
1	To organize and supervise the guidance program.	Propose revisions to existing program for improvement by establishing an advisory council, planning activities each year, developing and publishing guidance activity calendar, expanding the advisement services being provided at the Hancock Center by including additional part time personnel, and continuing the part time counseling services at that center.	The CAP Advisory Council has been established and meets with department chairs twice annually. Discussions regarding restructuring summer registration occurred. Summer registration was conducted in the CAP Center with the additional help from two faculty advisors, and 2598 students were advised and registered into classes for summer and fall terms. Advisors/counselors are sent to the Hancock center on preplanned occasions.	Students seemed well pleased with the new process. They were better advised, and there were no long lines and loud noises to serve as obstacles. The process worked so well that plans are to continue during summer 2011.	
2	To provide individual and group guidance services to assist students in the development and use of cognitive and affective skills.	Conduct individual advisement and scheduling sessions on an as needed basis. Conduct small and large group sessions for career decision making, orientation, class scheduling, employability skills development, and	Small group sessions and large group sessions are conducted. 3	To coordinate student assessment, employability skills training, retention, placement, and follow-up activities in cooperation with instructors.	Conduct assessment including ACT, GED, TABE, and C-PAT testing services. To propose purchasing ACT COMPASS.	ACT COMPASS internet version was purchased, and training was conducted June 15, 2010. MS-CPAS was conducted on the Internet fall and spring terms. The Related Studies Lab allowed 25 students to be tested at once. Follow up, placement in classes and on jobs is continuous. An additional ACT conference was attended by the academic and career technical counselors July 26.
4	To provide opportunities for personnel to improve guidance services.	Encourage participation in staff development and communication with industry, businesses, and other colleges. Extensive time was spent on program analysis in preparation for writing a Title III Grant Proposal which was funded October 1, 2009 Funding has assisted in providing separate personnel under the direction of Dr. Amy Townsend.	PRCC received a Title III Grant of approximately two million dollars to improve retention and advisement, and to supplement instruction. The CAP Center Staff of professionals are engaged in best practice training sessions in advisement. All serve on committees to advance the goals of the Title III Project. Guidance professions have benefited and are expected to improve greatly through training in best practices provided through Title III.
5	To encourage personnel to participate on College committees in support of the mission statement of the College.	Participation on the Instructional Council, Calendar Committee, Recruitment Committee (appropriate College committees), and advisory boards of community schools and businesses.	All counselors and advisors serve on committees that advance the mission of the college.
6	To encourage personnel to participate in professional development to improve guidance services.	Encourage participation in state and national organizations for improvement in guidance services such as counseling, advisement, placement, orientation, etc.	All counselors are members of NACADA (National), MCA, MCCCCA, Pinebelt Counselors Association. We also have attended conferences on advising, ACT, Acuplacer, & Technology in Education, In
			<p>Counselors and advisors agreed that the training on June 15 was inadequate. Therefore, additional training is requested. Retention and placement reporting is a continuous process. Results for career and technical programs are received from the State annually. Inadequate performances must be resolved with plans of improvement. PRCC had no plans of improvement because all required core requirements were met or exceeded.</p> <p>Collaboration with the Title III personnel and opportunities provided through the grant have already improved services, and this is just the beginning.</p> <p>Collaboration and cooperation among committee members improve communication and help to improve advising, retention, and help to improve student success.</p> <p>All professional staff in the CAP center has benefited from information and Ideas learned at conferences and through professional development.</p>

8. To provide workforce training programs that meet requirements of business, industry, educational, and public service agencies for basic skills, specific job skills, and technical skills training.					
PURPOSE OF UNIT: To enhance learning opportunities both within and beyond the traditional classroom in order to guide students, faculty, and staff toward quality educational and service opportunities.					
RELATIONSHIP OF UNIT TO PRCC MISSION: To provide broader access to the educational opportunities offered by PRCC. Through Distance Education, Instructional Design, Dual Enrollment, Weekend and Night Classes, and Continuing Education, the Office of Extended Education & Instructional Design provides avenues of learning suited to a variety of learning-styles and lifestyles.					
OBJECTIVES - Broad description of intended impact on students (Program goals)		ASSESSMENT CRITERIA - Criterion for Evaluation (Variables related to success of intended outcome)	ASSESSMENT RESULTS - Outcomes Assessment (States how well intended results were achieved)	USE OF RESULTS - Actionable Knowledge (How knowledge gained will be used to improve program performance)	
1	Average retention in PRCC online classes will be 70% or better each semester.	MSVCC ET "Overall Success Rate Report"	Fall 2009 = 73% Spring 2010 = 72% Summer 2010 = 78%	Many factors influence retention. A primary factor in online classes is the instructor's ability to create a sense of community. During the online instructor orientation for Fall 2010, the concept of "sense of community" will be discussed with faculty. Thereafter, individual online instructors will be approached to provide examples of the activities being used to create a sense of community in the online environment.	
2	An evaluation of distance education courses will indicate that at least 70% of the courses will include a course specific orientation.	Documented evaluations and course reviews	Evaluation of the online courses revealed that very few of them actually had a course specific orientation (so few that a percentage is not included here).	An emphasis will be placed on the importance of a course-specific orientation in online courses. New instructors will be required to include this in their courses. Established instructors will be directed to include this orientation in phases.	
3	To ensure that 100% of off campus night and weekend classes are taught in a facility that provides current supplemental technological tools that are requested by the instructors.	Instructor feedback and evaluation of location of night classes	This objective was not met. Poplarville – This is not an issue because all Poplarville classrooms are equipped with computers and projectors. Picayune – for the most part, this objective is not a factor in instruction. The two	Organizing off-campus classes is very challenging because there is little the College can do to control what the high schools offer for use. Each location presents its own challenges. <ul style="list-style-type: none">Word has been received that a middle school in the Pearl River Central district may be open to a night class. However, occasionally, an instructor will request specific items that are not readily available in the Picayune setting.</p> <p>Columbia – Columbia night classes were moved from the Columbia High School to the Carl Loflin Career and Technology Center which is part of the Marion County School District. While the overall conditions were more conducive to learning, instructors did not have access to computers or projectors. Most instructors were willing to bring their own laptops if projectors had been available.</p> <p>Sumrall – Projectors and Smartboards were available for instructors who were able to bring their own laptops.</p>	<ul style="list-style-type: none"> class instructors require technical tools. The possibility of conducting night classes at the proposed Family Y in Bellview will be explored for the future. Other options in the Marion County/Columbia area are being explored. Requests will be made for laptops and projectors which night class instructors may be allowed to check-out on a semesterly basis.
4	At least two training opportunities (Blackboard and other instructional tools provided by the State) will be provided to PRCC personnel each semester.	Documented evaluations; training calendar	<p>This objective was easily exceeding and is documented in the Office Extended Education & Instructional Design. The dates are too numerous to list here.</p> <p>While this objective was met, it is still a worthy objective. Many PRCC faculty (and other personnel) have not received training in the use of Blackboard. This is due to choices each of these faculty members have made, but because technology continues to grow, the training sessions need to continue in the hopes that everyone will eventually select to attend training and subsequently use the technology.</p>
5	At least 20 students will be advised online using Wimba Pronto.	Advisement records	<p>This objective was not met.</p> <p>The use of Wimba is constantly being explored by both instructors and Office personnel. However, the fact that current personnel are dealing with an increasing enrollment each semester with no extra personnel to assist, the reality is that this objective is still relevant but must be paced accordingly.</p>
6	Of the high schools in the PRCC district who participate in dual enrollment, at least 50% will be visited by PRCC personnel.	Documented calendar dates	<p>This objective was not met. Only three of the high schools received a personal visit from the Office of Extended Education.</p> <p>A presentation was provided to students at Hattiesburg High School and Sumrall High School. The presentation included items relevant to students who will be considering</p> <p>Dual Enrollment is an area that continues to expand. OBJECTIVES - Broad description of intended impact on students (Program goals)		ASSESSMENT CRITERIA – Criterion for Evaluation (Variables related to success of intended outcome)	ASSESSMENT RESULTS – Outcomes Assessment (States how well intended results were achieved)	USE OF RESULTS – Actionable Knowledge (How knowledge gained will be used to improve program performance)	
1	To enhance the image or public perception of the college by sending out news releases to all media: print, TV, and radio on all college activities.	The print media are sent 20-25 news items per month for publication. TV media sent minimum of four coverage advisories per month.	More than 250 news, photos and sports items were sent to media outlets. Some 95 percent were used in some form, including Internet use on media websites.	Stories are now being sent to media outlets with website use now on the agenda. That includes stories and photos of people from their areas that would attract local interest..	
2	To enhance the school's website by updating and adding additional information about programs so that students and perspective students, as well as parents and the general public, can learn information about the school.	Increase the number of hits on the school's official website.	From July 1, 2009 to July 1, 2010, the college's website had 910,680 hits, including 162,143 first-time visitors. They averaged 2.73 page views and spent 1:45 time on the website.	The college's website has been revamped for this year, making it more user friendly, and making things easier to find for students, such as the application process. A virtual tour has also been added: http://www.prcc.edu/vtour	
3	To enhance the image and student perception of the college through the use of recruitment video that features faculty, students and many activities that go on.	Increase interest in the college through requests for information about academic and career/technical programs, financial aid and housing.	Increased visibility to potential students, as well as enhanced the public image of the college in south Mississippi. The end result: Increased enrollment at all campuses.	Newly-revised website now includes links to recent PRCC commercials, showing professional people who attended PRCC. We have also enhanced the campus virtual tour.	
4	To enhance the image and student perception of the college through the use of informative brochures, news letters and magazines.	Update, print and distribute literature to increase interest in the college.	Printed information distributed via local shopping cart, racks in local retail outlets, plus we are now putting brochures and printed materials on our website.	Evaluated effectiveness of distributing printed information and have determined that it is viable that we continue to increase use of the website for these materials about the college.	
5	To improve and expand advertising efforts to	Balance advertising efforts on TV, in	Increased interest with potential	Evaluated effectiveness of TV

PURPOSE OF UNIT: To help disadvantaged students find success in college by offering the following services: tutoring, financial aid advising, educational, career, and personal advising, and transfer assistance.					
RELATIONSHIP OF UNIT TO PRCC MISSION: To provide academic support for disadvantaged students in the areas of remedial education and student services.					
OBJECTIVES - Broad description of intended impact on students (Program goals)		ASSESSMENT CRITERIA – Criterion for Evaluation (Variables related to success of intended outcome)	ASSESSMENT RESULTS – Outcomes Assessment (States how well intended results were achieved)	USE OF RESULTS – Actionable Knowledge (How knowledge gained will be used to improve program performance)	
1	To assure that 60% of each cohort of entering students, beginning (2005-2006 through 2009-2010), shall be retained (or will have graduated or transferred) to the third semester (or second year). Continuing persistence is projected as follows: to the fifth semester (or third year), 5% to the seventh semester (or fourth year), 2%.	Retention rates of those students who persisted in their education.	66 out of 94 (70%) of new participants for the 2009-2010 academic year (Cohort "09") were retained or returned the Fall 2010 semester.	The results indicated that we exceeded our retention goal, for new participants, by 10%. Our goal was 60% and 70% of the 2009-2010 new participants returned in Fall 2010 semester.	
2	Of all SSS participants for each project year beginning the 2005-2006 project year through the 2009-2010 project year, 85% will maintain a cumulative grade point average of 2.0 or above, the college's standard for satisfactory and/or "good academic standing".	Mid-term and final grade reports from instructors at PRCC.	Approximately 142 out of 167 (85%) of our students maintained a 2.0 GPA, or above, for the 2009-1020 academic year.	Our ambitious goal of 85% was achieved!

3	Of each year's designated cohort group of new SSS participants beginning 2005-2006 through 2009-2010, 25% will graduate within the completion of their third year with a two-year Associate of Arts (AA) degree, and/or Associate of Science (AAS) degree.	Tracking the number of students who enter the program and graduate, from data maintained by PRCC Information Technology Department and the SSS Student Access software program.	Cohort Group "06" (students who entered the SSS Program in Fall 2006 and/or the Spring/Summer 2007). 42% of this Cohort Group has graduated within the third year, academic year of 2009-2010 (41 out of 97). 31% of this Cohort Group were incoming freshman (30 out of 97).	The results were used to determine progress on our third year graduation goals of 25% for the Cohort Group "06" (includes incoming freshman and sophomores. We exceeded our goal of 25% for the Cohort Group "06" and are making significant progress in achieving or exceeding our goal for Cohorts "07" and "08".
4	Of each designated cohort group of new participants beginning 2005-2006 through 2009-2010, 30% will transfer to a four-year college or university within the completion of their third year.	Needs assessment and survey of SSS students intending to transfer to a four-year college.	This information is unavailable until the Fall semester (October) from the National Student Clearinghouse. We will report on this as soon as the data is available.	We will have these results in mid-October from National Student Clearinghouse.
5	The PRCC SSS project will meet 100% of the administrative requirements including record keeping, reporting and financial accountability.	Documentation of SSS records and an annual self evaluation of records requested by federal regulations, sent to the Department of Education.	The Annual Performance Report (APR) was submitted in November 2009. All other required reports were submitted as required.	The results were used to conclude that all records were maintained accurately and submitted to the U.D. Department of Education.
6	During the 2005-2006 project year and succeeding years of the project cycle through 2009, the SSS program will identify and serve a sufficient number of low-income, first generation, and students with disabilities to achieve the project enrollment of 160 <u>eligible participants per year</u> within the first 90 days of each project year. <u>66% or two-thirds (2/3) of the participants (107) will be individuals with disabilities and/or low income individuals who are first generation college students;</u> the remaining 1/3 of the participants (53) will be individuals who qualify as low-income, first generation and/or disabled. At least 1/3 of the individuals with disabilities will be low-income. All the participants will have	SSS enrollment figures and number of active students served.	Our goal of 66% was achieved. 127 out of 167 or 76% was both first generation and low income students.

7	One hundred percent (100%) of SSS project participants in consultation with their assigned SSS project counselor/advisor will develop an individualized education plan (college success plan). This will summarize short and long-term goals and SSS services by addressing academic, personal and social concerns which may inhibit the student's success in college. Plans will be completed or revised by the end of their first full semester of participation in the project and reviewed annually.	The Director will sign-off on each plan to ensure each student has a plan. Student records will be entered each semester by staff to ensure a plan is current and in each "active" student file record.	All students served in SSS completed an individualized education plan (college success plan).	The results were used to conclude that all students received individualized educational planning and to ensure systematic educational advisement on their plan.	
8	At least 50% (including the Director) of the SSS project staff/team will serve on at least one PRCC Committee related to academic and/or administrative functions (Disability Advisory, Information Management, Retention, Financial Aid, etc.) and one committee outside the college to foster an institutional climate supportive of the students eligible for the SSS Program	Documentation of staff's participation in PRCC's committees and/or community committees (outside of the college).	50% of the staff (Director and Educational Counselor) serves on PRCC and/or community committees/boards outside of the college.	Our objective was achieved ensuring PRCC SSS provides professional input representing disadvantaged PRCC college students off and on campus.

PEARL RIVER COMMUNITY COLLEGE ASSESSMENT

2009 – 2010

Position: Vice President for Instruction				Supports PRCC Strategic Goal(s): 1, 2, 3, 4, 5, 6	
MISSION STATEMENT: Pearl River Community College is a public institution committed to providing quality educational and service opportunities for all who seek them.					
STRATEGIC GOALS:					
1. To prepare students to transfer and be successful in their studies at baccalaureate institutions and/or to be successful in careers for which they have been prepared.					
2. To provide quality student services.					
3. To provide access to college courses and programs using various instructional methods, including distance education.					
4. To employ qualified faculty and staff, compensate them well, and provide opportunities for their professional development.					
5. To provide facilities, technology, and support staff in order to improve student learning, enhance faculty and staff performance, augment community services, And make College services available via the Internet.					
6. To improve communication among campus personnel and community members regarding the College goals, objectives, and activities.					
7. To recruit and retain students from a diverse population.					
8. To provide workforce training programs that meet requirements of business, industry, educational, and public service agencies for basic skills, specific job skills, and technical skills training.					
PURPOSE OF UNIT: To administer the Instructional Programs of the College and to oversee College Libraries, the Office of Planning and Research, and the Office of Information Technology.					
RELATIONSHIP OF UNIT TO PRCC MISSION: The Office of the Vice President for Instruction directly supports the College's Mission of providing education and service opportunities.					
OBJECTIVES - Broad description of intended impact on students (Program goals)		ASSESSMENT CRITERIA – Criterion for Evaluation (Variables related to success of intended outcome)	ASSESSMENT RESULTS – Outcomes Assessment (States how well intended results were achieved)	USE OF RESULTS – Actionable Knowledge (How knowledge gained will be used to improve program performance)	
1	To administer the programs offered by the instructional departments of the College, including certificate and degree programs, adult basic education, extended education, and workforce education.	Assessment criteria as described in each department's assessment chart.	The mathematics faculty were dissatisfied with the success of students in Fundamental of Mathematics, Beginning Algebra, and Intermediate Algebra.	Extensive instructional redesign of Fundamentals of Mathematics, Beginning Algebra, and Intermediate Algebra has been partially implemented on the Poplarville Campus. This will continue with expansion to the Forrest County and Hancock Centers.	
2	To oversee College Libraries and the Offices of Planning and Research and Information Technology.	Student and staff survey forms and direct observation by department directors of staff performances and use of the departmental facilities.	The Hancock Center Library was realized to be too small. Printing costs were recognized as being excessive. Better access was needed to information about College services.	The Library at the Hancock Center has been relocated to a larger room. A limit has been placed on the number of free copies a student may make. A new portal has been added to the College's website.	
3	To oversee the evaluation of student applications for graduation and to authorize the granting by the College of Associate in Arts Degrees, Associate in Applied Science Degrees, and Certificates.	Student applications for graduation and requirements for graduation as published in the College Catalog.	Some problems were observed in the process of evaluating applications for AAS degrees and Certificates of Proficiency.	Procedures have been adjusted to assure more accurate review of student records and better communication with faculty and the College Records Office.

2009 – 2010

4	To publish, with assistance of the Catalog Committee, a revised edition of the College Catalog every other year.	Comments and suggestions from students, faculty, administration, and staff concerning the Catalog and documented changes in College Policy and Procedures.	Suggestions for improving the College Catalog were received.	The 2010-2012 College Catalog has been received from the publisher with changes as indicated. The Online Catalog will be kept as current as possible.

STUDENT SERVICES REPORT – FALL 2009

Dr. Adam J. Breerwood, Dean of Student Services

The Office of Student Services is committed to meeting the various needs of Pearl River Community College (PRCC) students on a daily basis, and strives to meet well defined goals and objectives in this regard. The Office of Student Services also works to develop and maintain meaningful relationships with the faculty, staff and students and to use innovative approaches in order to perform the functions of this office and meet the needs of the PRCC family.

The Office of Student Services includes, but is not limited to, the following: admissions (including registration and student records), financial aid (federal, state, institutional, and private programs), campus police, student housing, health services, recruitment and orientation, student support services, student conduct (rules and regulations related to student behavior) and athletics.

In accordance with its mission statement and purpose, the Office of Student Services embraces the concept of student development (the intellectual, cultural, social, moral, and physical development of its students) and employs it as a guiding principle in its delivery of services and programs to students. In doing so, it recognizes the need to understand and know the extent and levels of effectiveness and efficiency.

The Office of Student Services seeks to continually improve its services. The Office of Retention and Adult Learning Services was established during the summer 2009 to enhance the learning experiences of adult students. The Early Alert System which focuses on students with class attendance problems continues to be a valuable tool in retaining our current students and ensuring their success. Connect Ed, the emergency mass notification system, which was implemented last year, also continues to provide a valuable service for communicating severe weather threats, class cancellations, and other important messages. A variety of student activities and intramural activities are also offered to enhance student life.

As enrollment continues to grow, we will face many challenges. We will continue to strive to improve and expand student services at all campuses in order to recruit and retain a diverse student population, and will continue to provide a strong student activity and intramural program in order to enhance the quality of student life at PRCC.

The Office of Student Services plays a vital role on our campus in providing quality educational opportunities for all PRCC students. As enrollment continues to increase, the demands on the Office of Student Services will certainly increase. We will not lose sight that students are our top priority and their education is our primary concern.

7. To recruit and retain students from a diverse population.					
8. To provide workforce training programs that meet requirements of business, industry, educational, and public service agencies for basic skills, specific job skills, and technical skills training.					
PURPOSE OF UNIT: To provide those student services in the Division of Student Services that will promote and enhance the Acomprehensive student development concept.@					
RELATIONSHIP OF UNIT TO PRCC MISSION: To provide a comprehensive law enforcement program and services which meets the needs of students and all PRCC personnel.					
OBJECTIVES - Broad description of intended impact on students (Program goals)		ASSESSMENT CRITERIA -- Criterion for Evaluation (Variables related to success of intended outcome)	ASSESSMENT RESULTS -- Outcomes Assessment (States how well intended results were achieved)	USE OF RESULTS -- Actionable Knowledge (How knowledge gained will be used to improve program performance)	
1	To provide a well-qualified law enforcement staff and policies to enhance the safety, proper supervision of students, and protection of life and property at PRCC.	In-service training for security, as well as Law Enforcement Training for non-qualified officers. * Evaluate and continue to refine police job description.	1. Requiring 16 hours of law enforcement related training per month by every officer. 2. Having every non-certified eligible officer state certified.	1. Every officer has completed courses through the emergency management institute, in-service training by guest instructors, and attended training seminars. 2. 1 of 2 eligible officers attended the state police academy and graduated with 92.7%.	
2	To provide for safe campus environment and crisis management system.	To publish a safety plan and crisis procedure manual to be current and disbursed on campus. Also, regular review of all above procedures related to campus safety and crisis management.	The attendance to federal and state mandated training ensures that we have the newest safety procedures available which are put into the revised CCG and GTRL. Constant contact with state agencies such as DHS affords the opportunity to constantly adapt to new procedures and policies.	The Cat Country Guide and the Guide to River Livin was updated with the newest procedures for safety planning and procedures. This document was and is made available to all faculty, students, and visitors.	
3	To maintain a current crime report / security report.	Report statistical data on campus crime as required by law.	The use of a new updated record and statistic database makes the compiling of statistics for the Clery Act as prescribed by law more precise.	Crime statistics were compiled and reported to the federal government via the secure web link as prescribed by the Jeanne Clery Act. These stats are also published in the Cat Country Guide and made available on the PRCC website.

OBJECTIVES - Broad description of intended impact on students (Program goals)		ASSESSMENT CRITERIA – Criterion for Evaluation (Variables related to success of intended outcome)	
1	To award financial aid to the student population at PRCC based on federally, state, and institutionally determined eligibility and program fund availability to assist them in meeting the costs of their education.	Determine student eligibility for the type of aid requested and award aid based on the availability of the funds.	No change needed.
2	To maintain a critical review of all institutional, state, and federal guidelines with regard to preserving compliance with the financial aid programs in these respective areas.	Keep abreast of federal, state and institutional updates on policy and procedural changes related to programs through mail, electronic, and e-mail postings.	No change needed.
3	To revise the job descriptions of employees in the Office of Financial Aid.	Review current responsibilities of each employee based on daily duties and update job description accordingly.	Due to an employee transfer and the increase in student enrollment along with the addition of two new federal programs called for a reorganization of job

4	To utilize the U.S. Department of Education's Central Processing System's Return of Title IV functionality to implement the processing of all required R2T4 calculations beginning for the 2008-2009 award year.	Develop a comprehensive point of contact/communication plan between the Office of Financial Aid, Business Services, and the Admissions Office with regard to Withdrawal Notifications for the purpose of determining Return of Title IV calculations.	The Office of Financial Aid developed its own query with regard to processing R2T4 withdrawal calculations which allows us the opportunity to pull our own weekly reports. Information regarding student accounts required for calculations is still secured from Business Services.	One workshop held as part of faculty orientation session for Spring 2010. No further actions taken at this time.
5	To reformulate an up-to-date written policies and procedures manual to comply with U.S. Department of Education requirements for the administration of federal assistance programs. It is also suggested that the manual be created as a Web-based resource, allowing for easier, more regular updates to the manual.	Recommended following consultation with USA Fund University Consultant with regard to possible Federal compliance implications. In addition, a comprehensive policies and procedures manual will serve as an effective training tool for future staff members in the Office of Financial Aid.

INSTRUCTIONAL PROGRAMS REPORT
Dr. John Grant, Vice President for Instruction – Fall 2009

Enrollment continues to increase in all instructional programs, which include degree, certificate, workforce, and adult education, and necessitates hiring more instructors to accommodate the increased student load. Instructional highlights include, but are not limited to, continued expansion of the Quality Enhancement Plan at both the Poplarville Campus and the Forrest County Center in Hattiesburg to include more sections of algebra, expanded teaching of workforce welding and cutting classes throughout the district, more flexible class schedules, and increased course offerings at both the Forrest County Center and the Hancock Center in Waveland.

The completion of the new Center for Career Education, which houses several career and technical programs, on the Poplarville Campus, and the Stockstill Construction and Training Center provided significant additions to facilities and equipment available for student and instructor use. The Department of Information Technology and the Office of Extended Education and Instructional Design assisted with major advancements in the availability of instructional technology in classrooms and laboratories. Expansion and renovation of library facilities at the Hancock Center provide an enhanced learning facility for students.

The Strengthening Institutions Program will provide resources needed by staff in the Student Success Center to improve advisement and support to students. A first-year Success Course designed to provide supplemental instruction, establish web-accessible advising tools, and to track student progress and outcomes is also being developed.

Restoration of teaching facilities for the Department of Fine Arts and Communication continues. Additional renovation of Moody Hall and a new Band Hall in one wing of a building formerly occupied by Career-Technical Education are in various stages of completion. It is expected that work will begin soon on the Ethel Holden Brownstone Center for the Performing Arts which will enable that department to offer a much greater diversity of programs for students and the community.

1	To provide specialized occupational instruction in all phases of marketing and management. The program strives to prepare students for careers in dynamic marketing professions.	Students will be prepared to continue their education at a higher institution should they choose to do so by following the specialized curriculum.	Data following students after completion of the program proves that successful graduates are employed in their field of study.	100% of the 15 students who have completed the marketing curriculum are continuing their education or working in the field	The program continues to have high student enrollment and completion. High numbers of students continue to transfer into Bachelor degree programs. Students are able to find employment in the field.
2	To provide the necessary opportunities for the student to develop basic marketing and management knowledge and abilities along with the required competencies and social skills necessary for employment or advancement in the marketing arena.	The students will acquire specialized training in all types of businesses having direct contact with people, such as retail and wholesale organizations.	MS-CPAS tests are administered that determine the student's specific occupational information as compared to the other community colleges in the state that offer this program.	93% or 14 of the 15 students taking MS-CPAS reached skill attainment	Instructors being provided MS-CPAS training should help with student deficiencies and provide a more in-depth instruction for completing students.
3	To provide knowledge and place emphasis on instructors obtaining current and ongoing training and/or education.	The students will demonstrate knowledge of marketing and management terminology and strategies to be implemented in business and industry.	Students and administrators are allowed to evaluate the instructor to enhance the educational experience and to ensure effective instruction is being provided.	Instructor received high ratings from students and evaluation by administrator	Continual training of instructors in emerging technologies is used to enhance student learning.

5. To provide facilities, technology, and support staff in order to improve student learning, enhance faculty and staff performance, augment community services, And make College services available via the Internet.				
6. To improve communication among campus personnel and community members regarding the College goals, objectives, and activities.				
7. To recruit and retain students from a diverse population.				
8. To provide workforce training programs that meet requirements of business, industry, educational, and public service agencies for basic skills, specific job skills, and technical skills training.				
PURPOSE OF UNIT: To offer a variety of courses, performance opportunities, and cultural activities in the Arts and Oral Communication to meet the needs of our students and community.				
RELATIONSHIP OF UNIT TO PRCC MISSION: To fulfill the mission of the College by offering quality academic coursework, and cultural activities which encompass the realm of Fine Arts and Oral Communication.				
OBJECTIVES - Broad description of intended impact on students (Program goals)	LEARNING OUTCOMES – Measurable indicators (More specific description of impact on student)	ASSESSMENT CRITERIA – Criterion for Evaluation (Variables related to success of intended outcome)	ASSESSMENT RESULTS – Outcomes Assessment (States how well intended results were achieved)	USE OF RESULTS – Actionable Knowledge (How knowledge gained will be used to improve program performance)
1 To provide quality instruction in courses which will satisfy the Fine Arts requirement of the core curriculum for both academic and technical programs of study.	Students will demonstrate their knowledge of the basic principles, history, and style periods of music.	A minimum of 60% of all students enrolled in Music Appreciation will receive a final grade of AC or better.	Grade distribution for all sections of MUS 1113 Music Appreciation: 34.7%-A, 20%-B, 12.4%-C, 6.2%-D, 18.5%-F, .4%-I, 8%-W.	Instructor use of classroom technology has increased significantly. Record enrollment has resulted in the need for additional sections of on-line, traditional, and night class offerings of MUS 1113. Additional faculty is needed as soon as funding is available to alleviate consistent overloads and class size increases.
2 To provide quality instruction in courses which parallel the first two years of a Bachelors degree for majors in Music and Music Education.	Students will demonstrate mastery of subject matter in courses for music majors. PRCC music majors transferring to state universities will attain a GPA at or above that of other transfer students and of the native university students at the same level.	At least 70% of all students enrolled in courses for Music Majors will receive a final grade of AC or Student transfer data from state universities	Grade distributions for all courses for music majors: 57.6%-A, 16.5%-B, 4%-C, 4%-D, 9.6%-F, 1.3%-I, 6%-W Specific transfer data for music students not available. However, PRCC music majors transferring to Sr. institutions passed junior level placement exams in music courses.	We anticipate the establishment of a much – needed music technology lab for student use when the Moody Hall addition/rebuilding project is completed. All music faculty will be encouraged to maintain contact with universities to keep curriculum and course content current.

3	To provide quality instruction in courses in Music for Elementary Education majors.	Students will demonstrate their ability to incorporate music activities and lessons into their instruction of elementary education.	Student performance on examinations, projects, and activities. At least 70% of students enrolled in Music for Elementary Ed. Majors will receive a final grade of AC@ or better.	Grade distributions unavailable at this time	Music for Elem. Ed. Majors is now offered as an on-line class through the MVCC. We will reconsider offering this course on campus if we have the time, space and demand.
4	To provide quality instruction in applied music courses through private and/or group study.	Students will demonstrate proficient progress in instrumental, vocal, and/or piano performance.	Student performances at juries, recitals, and concerts. University and college music scholarships awarded to PRCC transfer students.	All student concerts, recitals, and juries were well-prepared. The level and quality of the repertoire was appropriate for each performance. All transferring PRCC music majors received scholarship awards at their respective Sr. institutions.	Progress has been made to establish performance proficiencies for each semester of applied study and a more uniform grading format.
5	To provide cultural activities in the arts for PRCC students and community through performances by student ensembles, guest recitals/concerts, student art exhibits, and drama productions	Students and community will have the opportunity to attend live musical and theater performances and art exhibits that are easily accessible in both proximity and cost.	Attendance figures for all Fine Arts activities will be evaluated annually. Audience responses will be taken into account when scheduling future activities. A 5-10% increase in attendance will be sought annually.	Attendance at Fine Arts activities is still a bit difficult to assess due to the relocation of these events caused by the loss of Moody Auditorium.	No changes needed. Plans for the Brownstone Center for the Performing Arts have almost been finalized and construction should begin by the end of 2010. Once completed, this facility will most certainly impact our ability to offer an expanded series of arts events throughout the year.
6	To serve as ambassadors for the college through performances by students and faculty in local, regional, state and national events.	Increased awareness of PRCC, fostering of good will with community, enhances public relations, recognition of quality in performing groups.	Continued demand for performances and student interest in performing groups	PRCC student music ensembles performed at many school, local, state and national venues.	All of the PRCC Student performing ensembles have maintained a high standard of performance and steady enrollment. Performances on the local, state and national level were made by these outstanding groups. A new rehearsal facility for the band is in use and renovation of choral and dance facilities is underway.

1 To provide quality instruction in courses which will satisfy the Fine Arts requirement of the core curriculum for both academic and technical programs of study	Students will demonstrate their knowledge of the basic principles, history and important facts relating to theater and the dramatic arts.	A minimum of 60% of students enrolled in Theater Appreciation will receive a final grade of A-C or better.	1. Grade distribution for all sections of Theater Appreciation: 15.5%-A, 11%-B, 17%-C, 6%-D, 23%-F, 0%-I, 27%-W.	Grade distributions indicate a need for change in the delivery of this course. Student response indicates that a more interactive approach to the teaching of the course would increase both student learning and interest. An attempt to implement this strategy will be made this year.
2 To provide quality instruction in courses which will satisfy the speech/public speaking requirement of the core curriculum for academic and technical programs of study.	Students will demonstrate basic communication skills through oral competency of the English language.	At least 60% of the students enrolled in Public Speaking will receive a final grade of A-C or better.	Grade distributions for all sections of Public Speaking: 22.5%-A, 25.5%-B, 16.7%-C, 5.5%-D, 16%-F, .8%-I, 12.8%-W.	Record enrollment has increased demand for additional sections and larger class sizes for Public Speaking. Extreme care must be taken when increasing class size due to the time required for speech presentation. AV systems in the classrooms have been utilized by faculty and students.

1 To offer courses that meet the needs of students who are Majoring in Criminal Justice and who plan to transfer to a senior college or university.	Transfer and non-major students will demonstrate a basic understanding of the key elements of the Criminal Justice courses offered and will receive a grade of "C" or better in such courses.	At least 75 percent of students majoring in Criminal Justice will receive a grade of "C" or better. Assessment of such skills will be based upon: ones performance during required oral presentations before the class; competency exhibited on field tests; and the results of quizzes/exams throughout the course.	The results of students receiving a grade of "C" or better in Fall 2009 majoring in criminal justice was 87%. The results for Spring 2010 receiving a grade of "C" or better was 84%. Fall 2009 enrollment in criminal justice was 199 students. The spring 2010 enrollment was 183.	The results show that students entering the criminal justice field at PRCC are receiving successful and quality educational and technical criminal justice courses and programs provided by the criminal justice instructors. The instructors have the knowledge of what is required at a 4 year university such as USM which helps them in preparing the courses that the students at PRCC need to be successful in both their knowledge of criminal justice and preparation for a future in criminal justice. Both CJ instructors agree that the percentages could increase as the number of qualified students become interested in the criminal justice field.
2 Majoring in other academic subject areas and must satisfy basic college requirements for any of these subject areas.	Students will demonstrate the following: the ability to use effective communication skills while under stress; to think critically and use observation skills necessary to be proficient in the performance	At least 75 percent of non-majors transfer students will receive a grade of "C" or better in Criminal Justice courses. 2	As per the MS Dept. of Ed. there will be 86 % retention of students in the PTA program.	Retention:86% of students will complete and pass all levels of instruction Total students passed in program/Total students enrolled in program	This criterion was met as evidenced by beginning the academic year with 39 students and ending the year with 38 students, equaling 97% retention.	Assessment of this data reinforces efforts to attract more qualified application and the selection process, as well as instruction and remediation of students is adequate to meet this criterion.	
3	As per the MS Dept. of Ed. 85% of PTA students will complete the program.	Completion: 85% of students will complete the program Completer level total passed/Completer level total enrolled	This criterion was met as evidenced by 18 students beginning the year and 18 students graduating, equaling a 100% completion rate.	This data is used to evaluate the effectiveness of instruction/remediation and learning to enable the student to progress toward graduation and clinical practice.	
4	As per the MS Dept. of Ed. 75% of PTA students will receive and AAS degree.	Graduation 75% of students will receive an AAS degree Number to receive degree/Number receiving degree	This criterion was met as evidenced by 100% of students to receive an AAS actually receiving the AAS degree.	The continue assessment of the number of students earning the AAS degree is to ensure the program is providing the regional area with qualified PTAs.	
5	As per the MS Dept. of Ed. 65 % of PTA program graduates will have job placement.	Placement 65% of graduates will have job placement	This criterion has been met as evidenced by 16 of 16 students who have taken the licensure exam have passed the exam, have a regular license and are employed as PTAs.	To continue to evaluate the number of jobs available in the regional area for PTAs and the consumer need for the continued number of students to be graduated.	
6	As per the MS Dept. of Ed. 85% of PTA students will demonstrate occupational skill proficiency by passing the licensure exam.	Occupational Skills 85% of graduates will demonstrate occupational skill gain via passage of the licensure exam	As of this date (September 14, 2010) 16 of the 18 2010 graduates that have taken the licensure exam have passed the exam on the first attempt.	To continue to evaluate curriculum effectiveness in preparing the graduates for successful passage of the licensure exam.

1 To provide adequate technology to support the implementation of the Quality Enhancement Plan.		Budget support of the Quality Enhancement Plan will continue for the duration of the program.		At least 90% of the initial Quality Enhancement Plan funds will be budgeted for each fiscal year of the program.		Funding at this level has been provided for the 2009-2010 fiscal year.		Funding at this level will be continually requested.	
2 To provide adequate training support for instructors of the courses included in the Quality Enhancement Plan.		Training will be offered to instructors currently involved in Quality Enhancement Plan courses and will be involved in the future.		The Quality Enhancement Plan will be expanded as instructors become trained and share best-practices with other colleagues.		Training has been provided throughout the year under the coordination of the Training Work Group.		Future training has been crafted and scheduled according to evaluations received after current training has been completed and information collected on faculty surveys.	
3 To provide current technology for courses included in the Quality Enhancement Plan.		Adequate technology will be added throughout the College to support the Quality Enhancement Plan.		Assessment of resources will provide information of instructional technology needs.		Current technology hardware and software has been provided in the classroom and Mathematics Laboratory. Maximum capacity of the Mathematics Laboratory on the Poplarville campus has been met; as a result plans		Need a separate testing center in order to relieve the Mathematics Laboratory of increased traffic while providing the students with a more appropriate testing environment.

ASSESSMENT CRITERIA --Criterion for Evaluation (Variables related to success of intended outcome) HOW will attainment of the outcome be measured?	ASSESSMENT RESULTS -- Outcomes Assessment (States how well intended results were achieved) WHAT was level of attainment of outcome?	USE OF RESULTS -- Actionable Knowledge (How knowledge gained will be used to improve program performance). Make a CHANGE or IMPROVE or state that no improvement is needed.
1 At the end of the semester, students will demonstrate at least one grade level increase in reading in the areas of literal and critical comprehension.	Pre TABE Reading Test Post TABE Reading Test Skills Bank IV Reading	The results of a reading TABE posttest indicated an average increase of 2.8 grade levels in comprehension reading skills from the beginning of the semester to the end.	No improvement is needed.
2 At the end of the semester, students will demonstrate at least one grade level increase in mathematics in the computation of whole numbers, fractions, decimals, percents, and equations.	Pre TABE Math Test Post TABE Math Test Skills Bank IV Mathematics	The results of a TABE posttest in basic mathematics indicated an average increase of 1.4 grade levels from the beginning of the semester to the end of the semester.	I plan to monitor individual lesson grades more closely to remediate failed objectives more often.

1 To provide the biological, mathematical and physical science foundation as well as the technological education and clinical practice enabling graduates to perform effectively as advanced-level respiratory care practitioners as defined in standards established by CoARC (Committee on Accreditation for Respiratory Care).	Students will demonstrate ability to comprehend, apply and evaluate didactic and clinical information relevant to their role as a Respiratory Care Practitioner. No longer will the RRT Exam be used as an outcomes measurement for accreditation. With this in place, we excel in all areas being measured. Our selection process has allowed us to accept outstanding students into the program. By doing this, our retention rates continue to be high. Due to the reputation of this program, our students are recruited by hospitals throughout the south. This includes UAB in Birmingham, North Oakes in Hammond, UMC in Jackson as well as the local hospitals.

PEARL RIVER COMMUNITY COLLEGE

PROGRAM REVIEW

MISSION STATEMENT

Pearl River Community College is a public institution committed to providing quality educational and service opportunities for all who seek them.

STRATEGIC GOALS

1. To prepare students to transfer and be successful in their studies at baccalaureate institutions and/or to be successful in careers for which they have been prepared.
2. To provide quality student services.
3. To provide access to college courses and programs using various instructional methods, including distance education.
4. To employ qualified faculty and staff, compensate them well, and provide opportunities for their professional development.
5. To provide facilities, technology, and support staff in order to improve student learning, enhance faculty and staff performance, augment community services, and make college services available via the Internet.
6. To improve communication among campus personnel and community members regarding the College goals, objectives, and activities.
7. To recruit and retain students from a diverse population.

To provide workforce training programs that meet requirements of business, industry, educational, and public service agencies for basic skills, specific job skills, and technical skills training.

To fulfill the mission, the College has developed a variety of quality educational programs and services. It is vital that quality be maintained through the regular evaluation of programs. Program review is a formal process designed to assist in that evaluation. The importance of program review is not the production of a report but rather the self insight for program improvement and growth.

While college educational programs and services must satisfy our own criteria for program excellence, they must also satisfy the requirements of the Commission on Colleges of the Southern Association of Colleges and Schools and licensing and certifying organizations for some programs. The process of program review allows the College to evaluate how well its programs satisfy the criteria and requirements associated with all of these sources.

The primary goal of program review is the improvement of instruction and learning. To achieve this goal, the process must be comprehensive. The College's review process will include some assessment of the program's achievement of its stated purpose, quality of instruction, curriculum design, student outcomes, and contribution to overall mission of the College. When completed, a program review will identify and communicate program needs and potential for improvement.

A second important goal of program review is to provide information for planning and decision-making. To be meaningful, program review and planning should be interdependent processes. Planning should be based on a review process that evaluates past performances and identifies possible future activities which will lead to improvement and growth. Program review relies on data developed in support of planning and generates suggestions and recommendations for improvement which are reflected in planning goals.

In addition to general program improvement and planning, program review is intended to achieve the following:

- Acknowledge achievements/attainments.
- Identify strengths and weaknesses and develop recommendations/suggestions for change.
- Provide a systematic evaluation and improvement process for instructional programs.
- Develop a sense of cohesiveness, shared responsibility, and growth among faculty and staff.
- Assess compliance with accreditation criteria.
- Assist in resource development.
- Provide data to assist with resource allocation and other management decisions.
- Suggest new opportunities for program development.

Throughout the program review process a variety of perspectives must be considered and reflected. Perspectives of program faculty and administrators are critical to ensuring a comprehensive and complete program review. The program review should also anticipate and address the expectations of the Board of Trustees, advisory committee members when applicable, and Commission on Colleges representatives.

Program review is a self review process through which a program area is examined. It entails analyzing data, drawing conclusions, arriving at and implementing recommendations, and assessing the outcomes following implementation. Included in this document will be the program review for the General Education Program and for the College Libraries.

PEARL RIVER COMMUNITY COLLEGE

COLLEGE LIBRARIES DEPARTMENT

2006-2009 PROGRAM REVIEW

PEARL RIVER COMMUNITY COLLEGE
COLLEGE LIBRARIES DEPARTMENT

A. Description/Purpose/History

PURPOSE

The purpose of the Pearl River Community College Libraries, composed of the Libraries, Learning Labs, and Media Services, is to support the College in its educational and cultural endeavors by providing primary and secondary materials, both print, non-print, and online to meet the needs of the curriculum, students, and faculty. Every effort is made to make these materials available and easily accessible in an atmosphere that is conducive to good work and study habits.

GOALS

1. To select, acquire, and organize print, non-print, and online materials that will meet the needs of faculty, staff, and students in an atmosphere that encourages learning.
2. To provide comprehensive, current collections of diverse materials and formats purchased in compliance with sound selection guidelines.
3. To provide appropriate technology in order to enhance learning, instruction, and information retrieval.
4. To adequately staff College Libraries facilities on all three campuses with qualified individuals and to serve users in a professional manner.
5. To maintain and develop College Libraries services that meet the educational needs and interests of the college community.
6. To provide resources to the distance education learner as well as the traditional learner.
7. To serve as an extension of the classroom by providing an orientation program that teaches effective use of the College Libraries' resources and encourages the use of all materials.
8. To provide media services to faculty and staff in order to support them in their teaching and presentations.
9. To cooperate with other institutions, libraries, and agencies in the sharing of resources throughout the state.

HISTORY

Pearl River County Agricultural High School opened its doors to students in 1909 with a very limited budget for books and supplies. For the next twelve years the books for reading were obtained as gifts from friends of education. There was no definite assigned place to house them so they were kept in the various classrooms.

Through the efforts of some influential citizens of the county, the Board of Trustees, and Superintendent J.A. Huff, the school applied for junior college status and received it in 1922. The first order of books was approved by the board in April, 1922. Since the school had received junior college status administrators strived for higher goals for the college and hired the first librarian. On December 7, 1926, the Board of Trustees authorized Superintendent S.L. Stringer to take all steps necessary to meet requirements to secure full membership in the All-Southern Association of Junior Colleges. At this time the library was given a permanent location which was a small room upstairs in the High School Administration Building. At the board meeting in April, 1927, the Trustees authorized the superintendent to buy more books and the necessary equipment to establish an accredited library.

During the spring of 1945 the Board of Trustees authorized the school authorities to remove the seats from the high school auditorium and replace them with tables and chairs, incident to converting the auditorium into the library. After World War II Pearl River received books from Camp McCain and Camp Shelby libraries when they were distributed among the schools of the state. In 1949 in order to extend library services to the students, the Board asked that the library be kept open two hours each night during the week.

Since the Southern Association of Junior Colleges in their evaluation had recommended new library facilities for the college, the administration began to look for ways to receive help in this area. In 1965 Pearl River Junior College was able to receive library grants as well as NDEA matching funds to increase the book holdings, instructional materials, and equipment needed for the library. During the 1966-1967 school session an architect was hired to draw plans for a library building. The new library was occupied in 1968. Disaster struck the area when Hurricane Camille came in 1969. Much of the glass in both the front and back of the library was blown out. The library lost all current magazines, but luckily no books; half of the ceiling was blown out; the air conditioning unit was damaged, and most of the furnishings were damaged by water. Despite all of this, school opened only one week late, making the best of the inconveniences until all repairs could be made.

In 1973, a 5,000 square foot media center was added to the library where students could view filmstrips, listen to records and audiocassettes, or read periodicals and newspapers using microfilm readers and a reader/printer. A media librarian was hired for the center, and in 1974, a third librarian was added to the staff. Subsequently, videocassettes and players were added to the center's collection. Library assistants were added as needed to support the growing needs of the Library.

A 5,000 square foot learning assistance laboratory was added to the library in 1990-1991. The lab began with twenty-five networked computers and the audiovisual hardware and software

from the previous media center. By November 1994, the lab was staffed with a coordinator, two instructors, and a lab assistant. A second lab assistant was added in January, 2003, to facilitate online testing. The college's first media specialist was hired, in September 1994. In the fall of 1995 the first librarian was hired for the Forrest County Center, and a clerical staff member was added in August 2003. The library on the Poplarville campus was named for former president Dr. Garvin H. Johnston in the fall of 2003.

Disaster struck in the area again when Hurricane Katrina hit on August 29, 2005. The Garvin H. Johnston Library took in water at perimeter walls but luckily lost no books or other materials and only six pieces of equipment. The Forrest County Center Library sustained no damage. The Hancock Center, where the library was located in the Center's conference room, was damaged beyond repair, and the students were moved to the Stennis International Airport to continue classes. All staff returned to work two weeks later, and the college opened for students three weeks after the storm.

At the Forrest County Center a new Library and Learning Lab were completed during the summer of 2006. Three new staff members were hired: a lab coordinator/instructor, a lab instructor, and a lab clerical staff member.

The Hancock Center Library/Lab moved from the center's conference room to their own location in the summer of 2008, and a part-time staff member was hired. This new facility was occupied in the Fall of 2008.

The Pearl River Community College Libraries have been able to sufficiently meet the needs of the college's students. With the expanded growth of the college from year to year, the College Libraries will grow in each type of media to enrich the knowledge of the students.

B. Curriculum/Instruction

The staff of the College Libraries strives for the Libraries/Labs to be a true extension of the classroom. Orientations in the libraries and the learning labs are provided to classes and faculty and point of use instruction to individuals as they complete assignments and research projects. Library orientations are held each semester for ENG 1113, ENG 1123, SPT 1113, HIS 1163, EDU 1423, and PHI 1133. Library orientations are provided for other classes upon faculty request. Learning Lab orientations are held for all developmental English and Reading classes in addition to other classes upon faculty request. Classroom orientations are provided by the lab staff for specific courses across the curriculum.

Developmental Mathematics (MAT 1103) is actually taught in the GHJ Lab each semester, and all developmental English and Reading classes meet in the GHJ Lab at least once a week during class time. Instructors across the curriculum regularly make library and lab assignments to be completed after regular class time. Online chapter quizzes are administered for PSY 1513 General Psychology, EPY 2513 Child Psychology, HIS 1163 World Civilization I, HIS 1173 World Civilization II, SOC 2113 Introduction to Sociology, SOC 2133 Social Problems, and CRJ 1383 Criminology using lab software. Instructors also allow students to work on extra credit assignments in the lab in American (ENG 2223 and 2233), World (ENG 2423 and 2433),

and British Literature (ENG 2323 and 2333), Computer Science (CSC 1113), and English Composition I and II (ENG 1113 and 1123).

Despite the fact that students can access the library catalog, eBooks, eAudiobooks, and many magazines and journals from outside the library, student usage of the College Libraries facilities continue to steadily increase. At some point in the future this trend may reverse due to increased access through the Internet. The following chart indicates the number of various orientation sessions presented, and the door counts and computer usage for each entity within the College Libraries. Besides working with students on course content, the library and lab staff members are continuously helping students to upgrade their computer skills.

CREDENTIALS

The college requires that each librarian has a Master's degree in Library and Information Science, preferably an ALA accredited degree. A Lab professional staff member is required to have a bachelor's degree in one of the areas taught at the college with a master's degree preferred. All four librarians have graduate level degrees in library science and all professional lab staff members have at least a master's degree in their fields. The librarians and professional lab staff members have many years of experience in their areas. The Media Specialist with a bachelor's degree completes the professional staff. The support staff members work with the professional staff in providing a variety of services. All support staff members are well qualified for their positions that they hold. Together this staff works to meet the college libraries' goals.

D. Resources (Physical and Financial)

PHYSICAL

The Johnston Library houses the Library, the Learning Lab, and Media Services. The Library, although not meeting national standards in size, is adequate for present student usage considering that more services are provided through the internet each year. The Learning Lab is at capacity with computers. Instructors want to bring classes to the lab and often there is not space for them. The Community College Network (CCN) room could be used in a dual capacity – as the CCN room and with the addition of a lap top computer network it could serve as an internet classroom. Media Services is housed in cramped facilities and needs additional space if an addition is made to the Johnston Library.

Print and non-print resources are listed in the following charts.

FINANCIAL

The Association of College and Research Libraries (ACRL) recommends that each college budget six percent of the total college budget for learning resources. While Pearl River does not meet this recommendation, the college strives to support the College Libraries department with as much funding as possible. New equipment and furniture for the Forrest County Center Library and Learning Lab were purchased through the college's Enlargement and Improvement fund. The Hancock Center Library budget was originally allocated from this fund. In addition, the Hancock Center's Library and Lab furniture and equipment were purchased through funding from a HERA grant. All campus libraries have benefited from funding through the College's Enlargement and Improvement funds. Below is a chart of the budgets for all of the campuses for the last three years.

STAFFING EFFICIENCY

Staffing has generally been adequate to meet the needs of faculty and students. Additional clerical staffing will be needed at the Forrest County Center Library if enrollment continues to grow at the same pace that it has for the last several years. A full-time staff person will also be needed at the Hancock Center.

EQUIPMENT

To keep computer hardware current for staff and students in the College Libraries is a constant task since computers and servers become obsolete within a few years of installation. In addition, audiovisual and Media Services equipment must be updated regularly. New equipment is needed especially for Media Services.

SUPPLIES

Needs for supplies have been well met. Supplies for computers make up an increasingly large portion of the supply budget.

TRAVEL

There has been adequate funding for most travel or professional development.

FACILITIES

GHJ Media Services occupies very cramped facilities. Faculty members from various academic departments have requested a technology classroom within the College Libraries where they can instruct their students using the Internet in their program of study, as well as facilities for a Writing lab. When funding is available an addition on the Johnston Library would solve both of these problems. A Hancock Center Library was added in 2005-2006 in the conference room. A new Forrest County Center Library was occupied in the summer of 2006, and the new FCC Learning Lab opened in August 2006. New furniture and equipment was purchased for the new location of the Hancock Center Library in the late spring of 2008. A part-time staff member was added there in the fall of 2008.

F. Program Summary and Recommendations

Strengths:

1. A well qualified and dedicated staff
2. A low rate of staff turnover
3. A variety of services and instruction offered to students and faculty
4. Relatively well equipped Learning Labs
5. Attractive facilities
6. A new FCC Library and Learning Lab
7. New furniture and equipment and a part-time staff member at the Hancock Center

Weaknesses:

1. Limited space for growth especially in Media Services at GHJ
2. Lack of adequate Media Services equipment
3. Lack of a technology classroom at GHJ
4. Limited space in the new FCC Library and Lab
5. Limited space at Hancock Center Library
6. Continued need for more computer technical support
7. Too many old computers in use
8. Additional shelving needed

Recommendations:

1. Increase the College Libraries budget to the ACRL guidelines for budget and resources
2. Purchase a thirty station wireless network of laptop computers in the CCN room so that the room can perform a dual purpose
3. Provide adequate space and equipment for Media Services
4. Continue to upgrade equipment in all areas
5. Enhance computer technical support for the department
6. Enlarge the FCC Library and Learning Lab
7. Enlarge the Hancock Library

General Education Review

Pearl River Community College

2009 – 2010

PEARL RIVER COMMUNITY COLLEGE

PROGRAM REVIEW

MISSION STATEMENT

Pearl River Community College is a public institution committed to providing quality educational and service opportunities for all who seek them.

STRATEGIC GOALS

1. To prepare students to transfer and be successful in their studies at baccalaureate institutions and/or be successful in careers for which they have been prepared.
2. To provide quality student services.
3. To provide access to college courses and programs using various instructional methods, including distance education.
4. To employ qualified faculty and staff, compensate them well, and provide opportunities for their professional development.
5. To provide facilities, technology, and support staff in order to improve student learning, enhance faculty and staff performance, augment community services, and make college services available via the Internet.
6. To improve communication among campus personnel and community members regarding the College goals, objectives, and activities.
7. To recruit and retain students from a diverse population.
8. To provide workforce training programs that meet requirements of business, industry, educational, and public service agencies for basic skills, specific job skills, and technical skills training.

To fulfill this mission, the College has developed a variety of quality educational programs and services. It is vital that quality be maintained through the regular evaluation of programs. Program review is a formal process designed to assist in that evaluation. The importance of program review is not the production of a report but rather the self insight for program improvement and growth.

While college educational programs and services must satisfy our own criteria for program excellence, they must also satisfy the requirements of the Commission on Colleges of the Southern Association of Colleges and Schools and licensing and certifying organizations for

some programs. The process of program review allows the College to evaluate how well its programs satisfy the criteria and requirements associated with all of these sources.

The primary goal of program review is the improvement of instruction and learning. To achieve this goal, the process must be comprehensive. The College's review process will include some assessment of the program's achievement of its stated purpose, quality of instruction, curriculum design, student outcomes, and contribution to overall mission of the College. When completed, a program review will identify and communicate program needs and potential for improvement.

A second important goal of program review is to provide information for planning and decision-making. To be meaningful, program review and planning should be interdependent processes. Planning should be based on a review process that evaluates past performances and identifies possible future activities which will lead to improvement and growth. Program review relies on data developed in support of planning and generates suggestions and recommendations for improvement which are reflected in planning goals.

In addition to general program improvement and planning, program review is intended to achieve the following:

- Acknowledge achievements/attainments.
- Identify strengths and weaknesses and develop recommendations and/or suggestions for change.
- Provide a systematic evaluation and improvement process for instructional programs.
- Develop a sense of cohesiveness, shared responsibility, and growth among faculty and staff.
- Assess compliance with accreditation criteria.
- Assist in resource development.
- Provide data to assist with resource allocation and other management decisions.
- Suggest new opportunities for program development.

Throughout the program review process a variety of perspectives must be considered and reflected. Perspectives of the program faculty, department chairpersons, Vice President and President are critical to ensuring a comprehensive and complete program review. The program review should also anticipate and address the expectations of the Board of Trustees, advisory committee members when applicable, and Commission on Colleges representatives.

Program review is self review process through which a program area is examined. It entails analyzing data, drawing conclusions, arriving at and implementing recommendations, and assessing the outcomes following implementation.

Included in this document are the General Education Program Review and the Learning Program Review. Faculty and staff members in these departments are to be commended for the job they did in preparing these program reviews. Their efforts and resulting reports can only strengthen already fine departments. The College thanks each of them for their exemplary performance.

Documentation supporting this program review is on file in the office of the chairperson for each department represented in this report. On file are course syllabi, faculty evaluations, course descriptions, etc.

Pearl River Community College General Education Review

The purpose of Pearl River Community College's General Education program is to provide all students the opportunity to develop the critical and intellectual skills required to meet the challenges of a complex and diversified society and to impart general knowledge while developing intellectual capacities within the individual student. The program challenges students to develop into global thinkers, provides opportunities to apply concepts learned in the classroom, and encourages participants to engage in the community as informed citizens in matters on local, national, and global levels. It is the intent of the faculty and administration that students of Pearl River Community College be able to creatively solve problems, critically question the world around them, ethically construct decisions, and effectively communicate thoughts in order to continue the process of lifelong learning.

The General Education curriculum introduces students to an academic course of study designed to enable them to compete in a twenty-first century global market. The College's mission statement embodies the promotion of general education by stating, "Pearl River Community College is a public institution committed to providing quality educational and service opportunities for all who seek them." General Education is also supported through strategic goals such as "To prepare students to transfer and be successful in their studies at baccalaureate institutions and/or be successful in careers for which they have been prepared."

The requirements of the General Education program expose Pearl River Community College graduates to a range of knowledge through courses pertaining to mathematics, natural sciences, humanities, fine arts, social sciences, computer literacy, and human wellness. The integrity of the General Education curriculum is acknowledged by universities and colleges in Mississippi to which Pearl River Community College graduates transfer regardless of the continuing education program selected by the graduate. Due to the considerable variations of curriculum requirements for baccalaureate degrees and the articulation agreement that exists between the State's universities and community colleges, each Pearl River Community College student is advised according to the catalog of the college or university to which he or she plans to transfer. However, a guideline, the Academic Basic Core, has been established which can be followed when students are undecided regarding a major and/or transfer institution. Courses which support and fulfill the General Education program requirements are specified, but in some cases advanced courses in the same discipline can be substituted for these requirements.

Using established College goals each discipline in the Academic Basic Core developed objectives, assessments, and anticipated use of assessment results in relation to the future of each program. This allowed for individual program accountability and ownership of the objectives and assessment information by faculty and administration. Established outcomes state the anticipated knowledge, skills, and attitudes students are expected to possess after experiencing each Academic Basic Core course. Assessment tools are the instruments employed to measure achievement of outcomes. Assessment results describe data generated by assessment. These results are significant to measuring student learning, and for the continued evaluation and improvement of each program.

The information on the following pages outlines the overall Academic Basic Core course listing and objectives followed by individual course outcomes, assessment tools, assessment results, and proposed use of assessment results for each of the courses.

Academic Basic Core Program Objectives

Oral Communication – The oral communication courses emphasize the form and content of speeches. Students gain an understanding of an individual's background, identity, or perceptions which influence communication. Knowledge will be acquired regarding the social significance of communication and the impact the act has upon a variety of situations. The courses emphasize interpretation, advocacy, organization, accuracy, and critical evaluation. Students will also develop the skills necessary to become effective listeners. Active participation is required.

Computer Literacy – Computer literacy incorporates an understanding of computer software, computer hardware, applications, interfaces, and issues concerning privacy, viruses, and computer security. These courses promote confidence in using information and computer technology in a consistent manner.

Fine Arts – The study of the fine arts provides students the opportunity to understand and appreciate the creation of literary and artistic expression while studying the impact of political, social, and cultural periods of history in regard to the fine arts: art appreciation, music appreciation, and theatre appreciation.

Humanities - Humanities requirements address major intellectual, cultural, and aesthetic achievements. Students are offered the opportunity to contemplate questions of ultimate significance and study human activities, values, and artifacts in the context of the ages in which they were produced.

Mathematics – Students engaged in the study of mathematics acquire skills in critical reasoning, problem solving, and inductive and deductive reasoning while developing manipulation of basic algebraic operations. In addition, students also apply knowledge concerning the topics of algebraic operations, linear and quadratic equations, systems of equations, complex numbers, polynomials, rational expressions, logarithms, exponents, and determinants.

Natural Sciences – Natural science courses introduce participants to the basic concepts of science and the scientific method and enhance awareness of scientific developments and their impact on society and the environment. General Education requirements will offer students an explanation of scientific terms, concepts and theories, and the ability to create testable hypotheses, emerging from the study of both physical processes and living entities.

Social Sciences – In the social sciences, students investigate human behavior in its social context. The characteristics and structure of individuals, families, groups, and institutions are analyzed by students in order to cultivate an understanding of the human species. Scientific methods are utilized by students in examining the procedures and means by which members in society craft personal and group decisions.

Written Communication – Composition courses endow students with the necessary skills to successfully complete the reading and writing requirements of their discipline. Instruction is provided in principles of standard written English, methods of writing, reading and comprehension skills, and prose adaptable to readers in a variety of situations. Composition courses require intensive writing and extensive practice for which each writer accepts instructor's comments to support in the revision process.

Wellness – The courses related to wellness present the attitudes, skills, and values which promote physical and emotional well-being. The courses are predominantly designed for students of all ages to improve and maintain their physical health through pre-assessment and continued assessment procedures. Opportunities are presented to learn current information on health related topics.

CSC 1113 Introduction to Computing with Business Applications

General Education Competency: To be able to demonstrate computer literacy (i.e., basic knowledge, of computers and computer applications).

Course or Program Objectives:

1. To become familiar with desktop computers, mouse, keyboard, and operating system
2. To demonstrate basic knowledge of input, processing, output, storage, and communication devices and software used in a modern computer system
3. To become familiar with word processors, spreadsheets, presentation, database, web browsers (search the Internet and on-line library), and email software

Outcomes:

1. Students will demonstrate their knowledge of basic principles of computer concepts.
2. Students will demonstrate effective use of external hardware: mouse, keyboard, and monitor.
3. Students will demonstrate hands-on skills with word processing, electronic spreadsheet, Internet, web browser, email, presentation, and database management software.

Assessment Tools:

1. Weekly chapter-level examinations and a comprehensive final examination on principles of computer concepts
2. Lab projects in application software and the Internet
3. Lab practicals for word processing software and electronic spreadsheet software
4. Textbook assignments
5. Review course materials annually

Assessment Results:

1. Grade lab assignments, weekly tests, practicals, and the final examination
2. Compare the results with previous and current students

Proposed use of Assessment Results:

1. Maintain adequate number of lab assignments
2. Monitor enrollment trends/withdrawal rates
3. Maintain up-to-date course materials

BAD 2533

Introduction to Computing with Business Applications

General Education Competency: To be able to demonstrate computer literacy (i.e., basic knowledge of computers and computer applications).

Course or Program Objectives:

1. To become familiar with desktop computers, mouse, keyboard, and operating system
2. To demonstrate basic knowledge of input, processing, output, storage, and communication devices and software used in a modern computer system
3. To become familiar with word processors, spreadsheets, presentation, database, web browsers (search the Internet and on-line library), and email software

Outcomes:

1. Students will demonstrate their knowledge of basic principles of computer concepts.
2. Students will demonstrate effective use of external hardware: mouse, keyboard, and monitor.
3. Students will demonstrate hands-on skills with word processing, electronic spreadsheet, Internet, web browser, email, presentation, and database management software.

Assessment Tools:

1. Weekly chapter-level examinations and a comprehensive final examination on principles of computer concepts
2. Lab projects in application software and the Internet
3. Lab practicals for word processing software and electronic spreadsheet software
4. Textbook assignments
5. Review course materials annually

Assessment Results:

1. Grade lab assignments, weekly tests, practicals, and the final examination
2. Compare the results with previous and current students

Proposed use of Assessment Results:

1. Maintain adequate number of lab assignments
2. Monitor enrollment trends/withdrawal rates
3. Maintain up-to-date course materials

ART 1113 Art Appreciation

General Education Competency: To develop an appreciation and understanding of the Visual Arts as an art form

Course or Program Objectives:

1. Objectively identify the elements and principles of art
2. Objectively identify significant names and terms of art
3. Express an opinion of visual images in written form

Outcomes:

1. Assess visual images successfully
2. Demonstrate an ability to analyze art based on the elements and principles
3. Apply understanding to the development of personal taste and involvement in the visual arts

Assessment Tools:

1. Visual projects
2. Evaluation through tests
3. Evaluation through written responses to art museum attendance

Assessment Results:

1. Grade distribution of visual assignments
2. Document student growth and development

Proposed use of Assessment Results:

1. Determine successful teaching tools and methods
2. Determine ways to improve teaching and learning
3. Monitor enrollment trends and withdrawal rates of ART 1113

MUS 1113 Music Appreciation

General Education Competency: Students will develop critical listening skills which emphasizes critical thinking skills.

Course or Program Objectives:

1. Students will actively listen to significant works of music
2. Students will read about many styles of music
3. Students will examine political, social and cultural influences on music
4. Students will attend live performances of art music

Outcomes:

1. Ability to listen perceptively to music
2. Ability to analyze music heard
3. Ability to place music in its historical, cultural, or stylistic context
4. Ability to speak and write about music effectively

Assessment Tools:

1. Listening evaluations
2. Written evaluations
3. Class discussion and activities
4. Performance critiques
5. Informal observation/evaluation of student responses to music

Assessment Results:

1. Grade distribution data
2. Document student growth and development

Proposed use of Assessment Results:

1. Determine successful teaching tools and methods
2. Determine ways to improve teaching and learning
3. Compare results with other sections of Music Appreciation
4. Compile data on grade trends

SPT 2233 Theatre Appreciation

General Education Competency: To develop an appreciation and understanding of theatre as an art form

Course or Program Objectives:

1. Express an opinion of a theatrical event in written form
2. Objectively identify significant names, terms, events and production elements of theatre
3. Express the elements of dramatic structure (i.e. plot, characters, theme, diction, music, spectacle, convention) in written form

Outcomes:

1. Assess a theatrical event and successfully communicate that assessment to others
2. Express the significant names, terms, events and production elements studied
3. Identify and discuss the dramatic structural elements of plays studied

Assessment Tools:

1. The students will obtain a score of sixty percent or above on assigned criteria
2. To present written critiques of plays observed and read
3. To evaluate through tests
4. To present a written analysis of a play according to the structural elements of theatre

Assessment Results:

1. Grade distribution of written assignments
2. View conceptual knowledge based on test grade distributions
3. View student perception through analysis of written analysis

Proposed use of Assessment Results:

1. Incorporate pre and post testing of objective testing
2. Monitor enrollment trends/withdrawal rates of SPT 2233

MFL 1213 Elementary Spanish I

General Education Competency: To be able to read, write, speak and comprehend Spanish effectively

Course or Program Objectives:

1. To read and write dialogues and paragraphs in Spanish
2. To orally produce Spanish in a communicative manner
3. To understand aural input effectively

Outcomes:

1. Effective comprehension and production of brief written materials
2. Oral communication comprehensible by native speakers of Spanish
3. Effective comprehension of spoken Spanish

Assessment Tools:

1. Written examinations
2. In-class peer discussions
3. Oral examinations

Assessment Results:

1. Grade distribution data
2. Comparison of grade distribution with other sections of MFL 1213
3. Comparison of transfer data when available

Proposed use of Assessment Results:

1. Monitor grade distribution trends
2. Monitor transfer data

HIS 1163 World Civilization I

General Education Competency: To have a knowledge and understanding of world history including the various religious, social, economic, political, aesthetic, legal, and technological elements

Course or Program Objectives:

1. To identify the various key persons and events which took place from the earliest civilizations to the mid-seventeenth century.
2. To develop skills in analyzing critically what they read in historical literature
3. To identify and explain key concepts discussed throughout the course
4. To display a knowledge and understanding of the various civilizations and societies studied in this course and the characteristics of each which makes them distinct
5. To recognize how political, social, cultural, economic, and geographic factors shaped the various civilizations

Outcomes:

1. Effective research and organizational skills
2. Knowledge of different civilizations into the seventeenth century
3. Understanding of how the past molds the attitudes, belief, perceptions, and actions of the present and future

Assessment Tools:

1. Reading quizzes
2. Outside assignments
3. In-class discussion
4. Major exams

Assessment Results:

1. Grade distribution data
2. Comparison of grade distribution data of other sections of HIS 1163

Proposed use of Assessment Results:

1. Evaluate whether or not the student has mastered the objectives
2. Assign three hours credit to those students who have met the minimum requirements
3. Monitor enrollment trends and success and failure rates

HIS 1173 World Civilization II

General Education Competency: To have a knowledge and understanding of world history including the various religious, social, economic, political, aesthetic, legal, and technological elements.

Course or Program Objectives:

1. To identify the various key persons and events which took place from the mid-Seventeenth century up to the present
2. To develop skills in analyzing critically what they read in historical literature
3. To identify and explain key concepts discussed throughout the course
4. To display a knowledge and understanding of the various civilizations and societies studied in this course and the characteristics of each which makes them distinct
5. To recognize how political, social, cultural, economic, and geographic factors shaped the various civilizations

Outcomes:

1. Effective research and organizational skills
2. Knowledge of different civilizations beginning with seventeenth century up to our present time period
3. Understanding of how the past molds the attitudes, beliefs, perceptions, and actions of the present and future

Assessment Tools:

1. Reading quizzes
2. Outside assignments
3. In-class discussions
4. Major exams

Assessment Results:

1. Grade distribution data
2. Comparison of grade distribution data of other sections of HIS 1173

Proposed use of Assessment Results:

1. Evaluate whether or not the student has mastered the objectives
2. Assign three hours credit to students who have met minimum requirements
3. Monitor enrollment trends and success and failure rate

HIS 2213 American (United States) History I

General Education Competency: To have an understanding of the origins of the political, economic, social, religious, and cultural institutions and traditions of the United States

Course or Program Objectives:

1. To have the ability to identify salient persons and events in the history of the United States from prehistory to 1876
2. To develop historical skills in analyzing and critically evaluating historical works
3. To "think historically" in placing key events and persons in their appropriate contexts
4. To develop critical skills in understanding how social, political, religious, and cultural dynamics shaped the lives of Americans in both the past and present

Outcomes:

1. Effective note-taking, organizational, and research skills
2. A critical and deep knowledge of the key events and persons that have shaped the American past
3. Historical thinking that links current events, trends, and dynamics with the past

Assessment Tools:

1. Quizzes on reading and lecture material
2. Outside book review of a significant work of history dealing with the appropriate time period
3. Class participation in a question and answer format
4. Major exams

Assessment Results:

1. Grade distribution data
2. Comparison of grade distribution data of other sections of HIS 2213

Proposed use of Assessment Results:

1. Monitor enrollment trends and withdrawal rates of HIS 2213
2. Assign three hours of credit for student who met the minimum requirements
3. Advise and encourage students who completed class requirements to pursue other college courses in the Liberal Arts and Social Sciences
4. Modify future lectures and book assignments as assessment results and current trends and events require

HIS 2223 American (United States) History II

General Education Competency: To have an understanding of the political, economic, social, religious, and cultural institutions and traditions of the United States

Course or Program Objectives:

1. To have the ability to identify salient persons and events in the history of the United States from 1876 to the present
2. To develop historical skills in analyzing and critically evaluating historical works
3. To “think historically” in placing key events and persons in their appropriate contexts
4. To develop critical skills in understanding how social, political, religious, and cultural dynamics shaped the lives of Americans in both the past and present

Outcomes:

1. Effective note-taking, organizational, and research skills
2. A critical and deep knowledge of the key events and persons that have shaped the American past
3. Historical thinking that links current events, trends, and dynamics with the past

Assessment Tools:

1. Quizzes on reading and lecture material
2. Outside research project dealing with the appropriate material and topic
3. Class participation in a question and answer format
4. Major exams

Assessment Results:

1. Grade distribution
2. Comparison of grade distribution data of other sections of HIS 2223

Proposed use of Assessment Results:

1. Monitor enrollment trends and withdrawal rates of HIS 2223
2. Assign three hours of credit for student who met the minimum requirements
3. Advise and encourage students who completed class requirements to pursue other college courses in the Liberal Arts and Social Sciences
4. Modify future lectures and research assignments as assessment results and current trends and events require

PHI 1113 Old Testament Survey

General Education Competency: To have knowledge and understanding of Biblical history

Course or Program Objectives:

1. To identify key persons and events in the Old Testament
2. To display and knowledge and understanding of Old Testament civilizations and societies

Outcomes:

1. To develop more effective reading skills
2. To study these stories in view of the realities of their day and apply them to our day

Assessment Tools:

1. Reading quizzes
2. In-class discussions
3. Written examinations

Assessment Results:

1. Grade distribution data

Proposed use of Assessment Results:

1. To find strength for further study in the field of theology
2. To assign three hours credit to those who meet the minimum requirements

PHI 1133 New Testament Survey

General Education Competency: To have knowledge and understanding of Biblical history

Course or Program Objectives:

1. To identify key persons and events in the New Testament
2. To display knowledge and understanding of New Testament civilizations and societies

Outcomes:

1. More effective reading skills
2. Knowledge of New Testament times and people
3. Understanding of how the past molds the future

Assessment Tools:

1. Reading quizzes
2. In-class discussions
3. Written examinations

Assessment Results:

1. Grade distribution data

Proposed use of Assessment Results:

1. To find strength for further study in the field of theology
2. To assign three hours credit to those students who have met the minimum requirement

ENG 2423 World Literature I

General Education Competency: To have knowledge and understanding of the literature produced in the world during ancient times

Course or Program Objectives:

1. The student will be knowledgeable of major world literary works written before A.D. 1650.
2. The student will be able to analyze literature.

Outcomes:

1. More effective reading and writing skills
2. Knowledge of major writers and works from different countries in ancient times
3. Understanding of universal themes in the development of world literature

Assessment Tools:

1. Quizzes and examinations
2. Classroom discussions

Assessment Results:

1. One hundred percent of students will engage in classroom discussion.
2. Eighty percent of students will score seventy percent or better on examinations.

Proposed use of Assessment Results:

1. The assessment results will be used to review and improve instruction.

ENG 2433 World Literature II

General Education Competency: To have knowledge and understanding of the literature produced in the world during modern times

Course or Program Objectives:

1. The student will be knowledgeable of major world literary works written after A.D. 1650.
2. The student will be able to analyze literature.

Outcomes:

1. More effective reading and writing skills
2. Knowledge of major writers and works from different countries in modern times
3. Understanding of universal themes in the development of world literature

Assessment Tools:

1. Quizzes and examinations
2. Classroom discussions

Assessment Results:

1. One hundred percent of students will engage in classroom discussion.
2. Eighty percent of students will score seventy percent or better on examinations.

Proposed use of Assessment Results:

1. The assessment results will be used to revise and improve instruction.

MAT 1313 College Algebra

General Education Competency: To demonstrate knowledge of basic principles of mathematics

Course or Program Objectives:

1. Students should understand the concepts of functions, graphing, and systems of equations
2. Students should develop their problem solving ability
3. Students should see the connection in the mathematics in this course with that in other courses, such as calculus, chemistry, physics, and finite mathematics
4. Develop critical thinking skills in all students

Outcomes:

1. Effective problem solving skills
2. Develop the skills students need to continue their study of mathematics and science

Assessment Tools:

1. Examinations
2. Group work in class
3. Observation of students during class
4. Monitor their progress in other mathematics courses

Assessment Results:

1. Grade distribution data
2. Student attitudes to algebra

Proposed use of Assessment Results:

1. Monitor withdrawal rates
2. Evaluate assignments
3. Evaluate the course objectives with those of other schools in our area

BIO 1131/1133 General Biology I and Laboratory

General Education Competency: To describe the nature of biology and the significance of living organisms to their environment

Course or Program Objectives:

1. To understand the structure and function of the basic unit of life (cell) and its relationship to the environment
2. To understand a cell's capabilities concerning reproduction, heredity, chemistry, osmotic balance, and the production and utilization of energy
3. To understand the value of biology

Outcomes:

1. Critical thinking skills learned from eight basic science process skills
2. Using biological scientific principles learned to solve problems
3. Hands-on usage of scientific equipment such as compound microscopes, dissecting microscopes, and metric rulers

Assessment Tools:

1. Observing student actions, both in lecture and laboratory
2. Small interactive groups in lecture
3. Examinations
4. Homework
5. Hand-on projects or activities

Assessment Results:

1. Student assessments
2. Grade distribution data
3. Attitudes of students toward science

Proposed use of Assessment Results:

1. Evaluate group assignments
2. Evaluate laboratory assignments
3. Monitor withdrawal rates

BIO 1143/1144
General Biology II and Laboratory

General Education Competency: To describe the nature of biology and the significance of living organisms to their environment

Course or Program Objectives:

1. To describe and illustrate a survey of the viruses and monera, protista, fungi, plantae, and animalia kingdoms
2. To observe structural, functional, and adaptational relationships of the classification groups of all living organisms
3. To describe and review human body systems

Outcomes:

1. Critical thinking skills learned
2. Become aware of unique characteristics of each classification group of living organisms
3. Students will connect the biology learned with their experiences in the real world

Assessment Tools:

1. Observing student actions, both in lecture and laboratory
2. Small interactive groups in lecture
3. Examinations
4. Homework
5. Hands-on projects or activities

Assessment Results:

1. Student assessments
2. Grade distribution data
3. Attitudes of students toward biology

Proposed use of Assessment Results:

1. Evaluate group assignments
2. Evaluate laboratory assignments
3. Monitor withdrawal rates

CHE 1211/1213 General Chemistry I and Laboratory

General Education Competency: To understand general principles of chemistry, how to think logically and how to evaluate science

Course or Program Objectives:

1. Students should understand what the chemistry they are learning is about in terms of a strong base in concepts
2. Students should learn both how to use the chemistry they are learning and when to use it
3. Students should connect the chemistry they are learning with their experiences in the real world
4. Students should develop a good understanding of what it means to learn science and what they need to do to learn it. In particular, they need to learn to evaluate and structure their knowledge

Outcomes:

1. Effective problem solving skills
2. Understanding of the atomic nature of molecules and what is occurring in chemical reactions
3. Facility in translating the variety of representations used in chemistry (i.e. verbal/written descriptions of a chemical situation, algebraic, graphical representations, etc.)
4. Be able to use chemistry principles in ways or circumstances that they have not previously seen

Assessment Tools:

1. Observe student behavior in class and in office hours
2. Group problem assignments
3. Laboratory experiments
4. Examinations
5. Monitor their progress in concurrent mathematics/science courses

Assessment Results:

1. Grade distribution data
2. Student attitudes to science in general chemistry

Proposed use of Assessment Results:

1. Monitor withdrawal rates to determine if changes in classes helped
2. Evaluate laboratory assignments and modify them as needed to help students learn
3. Evaluate group assignments and modify them as needed to help students learn
4. Evaluate teaching methods and modify them as needed to help students learn

CHE 1223/1221
General Chemistry II and Laboratory

General Education Competency: To understand general principles of chemistry, how to think logically and how to evaluate science

Course or Program Objectives:

1. Students should understand what the chemistry they are learning is about in terms of a strong base in concepts
2. Students should learn both how to use the chemistry they are learning and when to use it
3. Students should connect the chemistry they are learning with their experiences in the real world
4. Students should develop a good understanding of what it means to learn science and what they need to do to learn it. In particular, they need to learn to evaluate and structure their knowledge

Outcomes:

1. Effective problem solving skills
2. Understanding of the atomic nature of molecules and what is occurring in chemical reactions
3. Facility in translating the variety of representations used in chemistry (i.e. verbal/written descriptions of a chemical situation, algebraic, graphical representations, etc.)
4. Be able to use chemistry principles in ways or circumstances that they have not previously seen

Assessment Tools:

1. Observe student behavior in class and in office hours
2. Group problem assignments
3. Laboratory experiments
4. Examinations
5. Monitor their progress in concurrent mathematics/science courses

Assessment Results:

1. Grade distribution data
2. Student attitudes to science in general chemistry

Proposed use of Assessment Results:

1. Monitor withdrawal rates to determine if changes in classes helped
2. Evaluate laboratory assignments and modify them as needed to help students learn
3. Evaluate group assignments and modify them as needed to help students learn
4. Evaluate teaching methods and modify them as needed to help students learn

PHY 2241/2243
Physical Science Survey I and Laboratory

General Education Competency: To better understand how the world works, how to think logically, and how to evaluate science

Course or Program Objectives:

1. Students should have some understanding of the physics concepts used to describe the physical world
2. Students should connect the science they are learning with their experiences in the real world
3. Students should develop a good understanding of what it means to learn science and what they need to do to learn it. In particular, they need to learn to evaluate and structure their knowledge

Outcomes:

1. Better problem solving skills
2. Be able to use principles of science in ways or circumstances that they have not previously seen

Assessment Tools:

1. Observe student behavior in class and in office hours
2. Group problem assignments
3. Laboratory experiments
4. Examinations

Assessment Results:

1. Grade distribution data
2. Student attitudes to science in physical science

Proposed use of Assessment Results:

1. Monitor withdrawal rates to determine if changes in classes helped
2. Evaluate laboratory assignments and modify them as needed to help students learn
3. Evaluate group assignments and modify them as needed to help students learn

PHY 2253
Physical Science Survey II

General Education Competency: To better understand how the world works, how to think logically, and how to evaluate science

Course or Program Objectives:

1. Students should have some understanding of the physics concepts used to describe the physical world
2. Students should connect the science they are learning with their experiences in the real world
3. Students should develop a good understanding of what it means to learn science and what they need to do to learn it. In particular, they need to learn to evaluate and structure their knowledge

Outcomes:

1. Better problem solving skills
2. Be able to use principles of science in ways or circumstances that they have not previously seen

Assessment Tools:

1. Observe student behavior in class and in office hours
2. Group problem assignments
3. Laboratory experiments
4. Examinations

Assessment Results:

1. Grade distribution data
2. Student attitudes to science in physical science

Proposed use of Assessment Results:

1. Monitor withdrawal rates to determine if changes in classes helped
2. Evaluate laboratory assignments and modify them as needed to help students learn
3. Evaluate group assignments and modify them as needed to help students learn

PHY 2414
General Physics I (Laboratory included)

General Education Competency: To understand how the world works, how to think logically, and how to evaluate science

Course or Program Objectives:

1. Students should understand what the physics they are learning is about in terms of a strong base in concepts firmly rooted in the physical world
2. Students should link the knowledge they acquire in their physics class into coherent physical models
3. Students should learn both how to use the physics they are learning and when to use it
4. Students should connect the physics they are learning with their experiences in the real world
5. Students should develop a good understanding of what it means to learn science and what they need to do to learn it. In particular, they need to learn to evaluate and structure their knowledge.

Outcomes:

1. Effective problem solving skills
2. Facility in translating the variety of representations used in physics (i.e. verbal/written descriptions of a physical situation, pictures, graphical representations, algebraic, etc.)
3. Be able to use physics principles in ways or circumstances that they have not previously seen

Assessment Tools:

1. Observe student behavior in class and in office hours
2. Group problem assignments
3. Laboratory reports
4. Examinations
5. Monitor their progress in concurrent mathematics/science courses

Assessment Results:

1. Grade distribution data
2. Student attitudes to science in general and physics in particular

Proposed use of Assessment Results:

1. Monitor withdrawal rates
2. Evaluate laboratory assignments
3. Evaluate group assignments

PHY 2424
General Physics II (Laboratory included)

General Education Competency: To understand how the world works, how to think logically, and how to evaluate science

Course or Program Objectives:

1. Students should understand what the physics they are learning is about in terms of a strong base in concepts firmly rooted in the physical world
2. Students should link the knowledge they acquire in their physics class into coherent physical models
3. Students should learn both how to use the physics they are learning and when to use it
4. Students should connect the physics they are learning with their experiences in the real world
5. Students should develop a good understanding of what it means to learn science and what they need to do to learn it. In particular, they need to learn to evaluate and structure their knowledge.

Outcomes:

1. Effective problem solving skills
2. Facility in translating the variety of representations used in physics (i.e. verbal/written descriptions of a physical situation, pictures, graphical representations, algebraic, etc.)
3. Be able to use physics principles in ways or circumstances that they have not previously seen

Assessment Tools:

1. Observe student behavior in class and in office hours
2. Group problem assignments
3. Laboratory reports
4. Examinations
5. Monitor their progress in concurrent mathematics/science courses

Assessment Results:

1. Grade distribution data
2. Student attitudes to science in general and physics in particular

Proposed use of Assessment Results:

1. Monitor withdrawal rates
2. Evaluate laboratory assignments
3. Evaluate group assignments

SPT 1113 Public Speaking

General Education Competency: To be able to understand the Communication process through the components of reading, writing, speaking, and listening

Course or Program Objectives:

1. Students will demonstrate their ability to express ideas logically and clearly in standard written English.
2. Students will demonstrate their ability to read, analyze, and comprehend college level written texts.
3. Students will be able to recognize, identify, and incorporate the components of effective verbal and nonverbal behaviors in public speaking.
4. Students should understand the Communication process of preparing and delivering different types of speeches.

Outcomes:

1. Students will demonstrate the ability to apply critical thinking skills when preparing and listening to oral presentations.
2. Students will be able to write coherent informative and persuasive speech outlines that demonstrate their ability to use organizational formats with a clear specific purpose and central idea.
3. Students will be able to deliver speeches to inform and to persuade successfully.
4. Students will be able to adapt their presentations to the audience based on situational and demographic audience analysis.

Assessment Tools:

1. Students will present different speeches to be evaluated by the instructor.
2. Students will be evaluated through speech delivery.
3. Students will be evaluated on speech outlines.
4. Students will be evaluated through quizzes and/or tests.

Assessment Results:

1. Grade distribution data
2. Comparison of transfer data when available

Proposed use of Assessment Results:

1. Monitor enrollment trends and withdrawal rates
2. Evaluate assignments
3. Evaluate course objectives with those of other schools in our area

GEO 1113 World Geography

General Education Competency: To have a knowledge and understanding of basic geographical concepts including physical and human dimensions of the world in the study of people, places, and environments

Course or Program Objectives:

1. To know and understand the world in spatial terms
2. To develop skills in analyzing various places and regions
3. To identify various physical systems at work
4. To display a knowledge and understanding of the various societies and how they impact their environment
5. To apply geography to interpret the past, present, and to plan for the future

Outcomes:

1. Effective research and organizational skills
2. Knowledge of the various geographic concepts
3. Ability to apply geography as an interpretive tool

Assessment Tools:

1. Reading quizzes
2. Outside assignments
3. In-class discussions
4. Major exams

Assessment Results:

1. Grade distribution data
2. Comparison of grade distribution data of other sections of GEO 1113

Proposed use of Assessment Results:

1. Evaluate whether or not the student has mastered the objectives
2. Assign three hours credit to those students who have met the minimum requirements
3. Monitor enrollment trends and success and failure rates

PSC 1113 American National Government

General Education Competency: To be able to discuss the structural organization and political processes which govern the behavior of the individuals and institutions, which make up the government

Course or Program Objectives:

1. To learn that there are different ways to analyze political institutions and behavior using these different perspectives
2. To understand that one's ideal of government goals and purposes is related to their ideological perspective – liberal, conservative, etc.
3. To develop and/or sharpen analytical skills

Outcomes:

1. Effective research and organizational skills
2. Effective audience analysis and adaptation skills
3. Effective oral presentation and delivery skills

Assessment Tools:

1. Examinations
2. Research assignments
3. Class participation

Assessment Results:

1. Grade distribution data
2. Student development through the course
3. Comparison of grade distributions data of previous terms

Proposed use of Assessment Results:

1. Assess the effect of assignments in PSC 1113
2. Monitor enrollment trends/withdrawal rates of PSC 1113

PSY 1513 General Psychology I

General Education Competency: Students will understand the major concepts and principles used in the field of psychology, and gain an organizing framework for understanding human behavior

Course or Program Objectives:

1. To familiarize the students with facts, concepts, and terminology common to general psychology
2. To provide students with a scientific basis for understanding thoughts, emotions, and behavior
3. To provide students with fundamental knowledge to begin effective understanding of human behavior

Outcomes:

1. Demonstrate knowledge of psychological facts, concepts, and terminology
2. Effective understanding of scientific research
3. Improve the application of psychological knowledge in understanding self as well as others

Assessment Tools:

1. Chapter quizzes and hour examinations
2. Written assignments
3. In-class activities
4. Comprehensive final examination

Assessment Results:

1. Grade distribution
2. Comparison of grade distribution data of other sections of PSY 1513
3. Analysis of student understanding of in class activities and written assignments

Proposed use of Assessment Results:

1. College credit awarded for successful completion of course
2. Contributing factor for grade point average

SOC 2113 Introduction to Sociology

General Education Competency: Ability to read the text with comprehension and take effective notes in class

Course or Program Objectives:

1. Students will learn the concepts, terminology and theories commonly used by professional sociologists
2. Students will learn and understand how sociologists do research
3. Students will learn how to apply sociological concepts to understanding their own lives

Outcomes:

1. Students will demonstrate their knowledge gained about sociology in class participation
2. Students will demonstrate their knowledge of sociology during testing sessions provided by the instructors
3. Students will develop effective study skills for learning sociology

Assessment Tools:

1. Periodic tests and quizzes
2. Student participation in class discussions
3. Application essays, recitation, or group problem solving sessions

Assessment Results:

1. Data related to grade distributions of classes
2. Comprehensive final examinations

Proposed use of Assessment Results:

1. Planning to content for sophomore level sociology classes
2. Planning content, new lecture material, and teaching methods for Sociology 2113 classes

ENG 1113 English Composition I

General Education Competency: To improve critical and analytical reading and writing skills

Course or Program Objectives:

1. To practice expository writing in response to specific readings with emphasis on standard written English
2. To improve ability to use the writing process in learning
3. To learn to find material in the library and online and document it appropriately

Outcomes:

1. To be able to edit a piece of writing to improve its sentence structure, grammar, and mechanics
2. To be able to assemble a working bibliography for a given subject
3. To demonstrate understanding of what has been read

Assessment Tools:

1. Essays
2. Bibliographies

Assessment Results:

1. Grade distribution data
2. Comparisons of grade distributions with other sections of English Composition I
3. Comparison of transfer data when available

Proposed use of Assessment Results:

1. College credit awarded
2. Prerequisite for next level of English Composition

ENG 1123 English Composition II

General Education Competency: To improve critical and analytical reading and writing skills

Course or Program Objectives:

1. To read literature critically and analytically
2. To write critically and analytically about literature
3. To use secondary research materials obtained through the library and online

Outcomes:

1. To write an undocumented short fiction analysis
2. To write a documented analysis of a novel or play
3. To read, understand, and write about poetry and drama

Assessment Tools:

1. Tests
2. Essays
3. Research paper

Assessment Results:

1. Grade distribution data

Proposed use of Assessment Results:

1. Prerequisite for literature classes

HPR 1752 Nutrition and Wellness

General Education Competency: The purpose of this course is to expose the student to the importance and significance of nutrition in health and physical activity. It also places emphasis on the various aspects of wellness and the relationship between weight control and therapeutic exercise.

Course or Program Objectives:

2. To provide effective and up-to-date instruction in nutrition which will encourage and enable students to incorporate healthy behaviors and attitudes into their daily lives
3. To evaluate current level of fitness
4. To provide student with recent information on proper nutrition and assist in understanding how lifestyle affects health

Outcomes:

1. Student will incorporate healthy behaviors into daily life
2. Student will gain understanding of current fitness level and how it can be improved
3. Student will learn that current nutrition habits will affect future health

Assessment Tools:

1. Student will keep a daily log of personal physical exercise
2. Blood pressure, resting heart rate, cardio-endurance (three-minute step test), muscular endurance (push-ups), and flexibility (sit and reach) is all measured at the beginning of the semester and again at the end of the semester

Assessment Results:

1. Student will understand the dynamics of proper nutrition and its relationship to exercise
2. Student will see improvement in fitness levels at the time of the post assessment if a regular exercise regimen is followed

Proposed use of Assessment Results:

1. In previous assessments, the abdominal crunch test was used to measure muscular endurance. Most students are more apt to do abdominal crunches on their own. Therefore, the test will be improved by changing to the push up test in order to measure and improve upper body muscular endurance.

*****Starting Fall 2010 HPR 1752 Nutrition and Wellness will change to:**

**HPR 1751 Nutrition and Wellness I
HPR 1761 Nutrition and Wellness II**

HPR 1213 Personal and Community Health

General Education Competency: The purpose of this course is to teach the student, through the components of wellness, about specific health behaviors. This course will help the student understand personal health behaviors by aiding the student in acquiring sound health-related attitudes and behaviors, improving skills in health decision making, offering learning experiences to improve self-esteem, developing a sense of personal self-control and educating the student toward health-related life time goals to achieve the student's full potential.

Course or Program Objectives:

1. To provide effective and up-to-date instruction in the areas of health, physical education, and recreation which will encourage and enable students to incorporate healthy behaviors and attitudes into their daily lives
2. To evaluate current level of fitness
3. To provide student with recent information on a wide variety of health topics and teach how lifestyle effects health status

Outcomes:

1. Student will incorporate healthy behaviors and attitudes into their daily lives
2. Student will gain an understanding of current fitness level and how to improve it
3. Student will learn that current lifestyles effect future health

Assessment Tools:

1. Student will keep a daily log of their physical exercise
2. Resting blood pressure, resting heart rate, cardio-endurance (three minute step test), muscular endurance (push-ups), and flexibility (sit and reach box) are all measured at the beginning of the semester and again at the end of the semester

Assessment Results:

1. Student will understand the dynamics of proper exercise and its relationship to nutrition
2. Student will see improvement in fitness levels at the time of the post assessment if regular exercise regimen is followed

Proposed use of Assessment Results:

1. In previous assessments, the abdominal crunch test was used to measure muscular endurance. Most students are more apt to do abdominal crunches on their own, therefore the test will be improved by changing to the push up test in order to measure and improve upper body muscular endurance.

Challenges

The General Education curriculum is centralized in organization and management. Each semester, department chairs outline a schedule of classes to be taught. The Academic Director (currently the Vice President for Instruction) approves this schedule. Enrollment and course sequence projections are used to develop a format of course offerings. Class size and facilities are accommodated through hands-on involvement of department chairs. Faculty availability, grants, accessible classrooms, and budgets impact the offering of course sequences and individual courses.

Challenge in the 2003–2004 General Education Review

Students have the opportunity to meet with an advisor of their choice, but because of the online registration system available at Pearl River Community College, a majority of students do not take advantage of this service. Therefore, students may not be exposed to all of the courses that comprise the General Education curriculum. The guidance counselors are encouraging faculty and students to be involved in the process of advisement. A suggested solution to the current situation would be the requirement of faculty/student interaction prior to allowing the student online registration privileges each semester.

Comment from 2006–2007 General Education Review

Advisement of students continues to be an issue. Since the 2003–2004 General Education Review, a number of different working groups have expressed concern about advisement of students. To this end, exploration of different methods of advisement including assigning advisors to students is underway. According to the Pearl River Community College Office of Institutional Research, in fall 2006, 70% of the students were undecided as to a field of study. This is further evidence that a formal system of advisement is needed. ***Therefore, this item continues to be a challenge in the 2006–2007 General Education Review.***

Comment from 2009–2010 General Education Review

Although the advisement of students still continues to be an issue, many improvements have been made since the last review. In July 2007 Dr. Ann Moore was appointed to the position of Director of Counseling, Advancement, and Placement. A proposal for improvements, including the implementation of the CAP (Curriculum, Advisement, and Program Planning) Module in Banner was presented to the Advisory Board. In January 2008, laptops were available for the first time at every table during open registration. In spring 2008, an Advisor's Guide was developed and advisor training in Banner was held for the first time in summer 2008. In spring 2008, a proposal was submitted to the U.S. Department of Education for Title III funding for improvements in advising and supplemental instruction in specified general education courses for the Poplarville campus and the Forrest County Center. In fall 2008 and spring 2009, students were assigned to individual advisors. In fall 2009 this process was further revised on the departmental level and a triplicate advisor's form was created to help advisors give students a better look at the overall requirements for their degree and their progress towards completing their degree. Also in fall 2009, the Title III grant was funded for approximately \$2,000,000 for piloting improvements in advising and instruction in specified general education courses with at risk students being the benefactors. Within the five year duration of the grant, faculty advisors and counselors will be trained in Banner's CAP Module and best advising practices according to CAS standards.

The challenges which remain are to ensure that all advisors are adequately trained in the best advising practices and to ensure that all students are engaged in the advisement process.

Challenge in the 2003–2004 General Education Review

Faculty members would benefit from receiving consultation concerning the General Education curriculum. The advantage of these potential sessions would allow instructors to better understand that their subject matter is not to be taught in isolation but instead is to be delivered in a holistic manner that allows the entire General Education program to benefit. Interaction related to General Education would involve individual faculty members and departments in the planning, delivering, and assessing of the General Education experience they desire students to have.

Comment 2006-2007 General Education Review

When the current General Education Review was written, department chairs were given the opportunity to review and revise the information listed in each academic basic core course listing. The department chairs were encouraged to share the information with instructors in order to encourage ownership of the General Education Curriculum.

Comment 2009-2010 General Education Review

The same basic process was followed for this General Education Review. Department chairs were given the opportunity to review and revise the information listed in each academic basic core course listing. The department chairs were encouraged to share the information with instructors in order to encourage ownership of the General Education Curriculum. ***A challenge expressed by several chairs is ensuring that a uniform standard is being maintained across the curriculum of each discipline in the many forms instruction is offered, including consistency in campus to campus instruction, online and traditional classroom instruction, and full-time faculty and adjunct faculty instruction. This challenge can be addressed by revising the General Education Review process and ensuring that all instructors, regardless of their employment status or instruction location are involved in the process.***

Challenge in the 2003–2004 General Education Review

Additional forms of effective assessment continually need to be explored.

Comment 2006-2007 General Education Review

The Mathematics faculty is executing the Quality Enhancement Plan (QEP) which has provided a variety of new opportunities for both instructors and students. Through an on-campus mathematics laboratory and personal computers, students are able to access programs such as MyMathLab and Blackboard which make it possible for instructors to use diverse methods of assessment. ***These opportunities are expanding to other areas of the curriculum and will be reflected upon as additional program reviews are conducted.***

Comment 2009-2010 General Education Review

The Mathematics faculty continues to be a forerunner in new advancements and is currently exploring the use of course redesign. The use of Blackboard has expanded across the curriculum. Every class now has access to a Blackboard supplement. Hybrid classes have become common, giving students the benefits of one-on-one time with their instructor coupled with the convenience of an online environment as well.

Challenge in the 2003–2004 General Education Review

The assessment surveys need to be revisited each year. It is vital objectives be reviewed annually.

Comment 2006-2007 General Education Review

The assessment surveys (the individual course information in the 2006–2007 General Education Review) was not reviewed annually. This was not done; however, department chairs and instructors review Assessment Charts annually which are completed as part of the annual Strategic Plan and Internal Performance Indicators document published by the Offices of Institutional Effectiveness and Institutional Research.

Comment 2009-2010 General Education Review

The same process discussed in the 2006-2007 General Education Review is still being followed. However, after studying several models from other institutions, this committee recommends that the process for the General Education Review be revised. This process has already begun as committees have been formed for each discipline and new measurable student learning outcomes are being added to all course syllabi for fall 2010. The next step for spring 2011 should be for these committees to develop appropriate assignments and accompanying grading rubrics which can be administered to a cross section of classes within each discipline. Random sections should be tested during the fall 2011 and spring 2012 semesters. The committees can review the data and determine the percentage of students who are meeting the stated goals for each course in spring 2012. Inter-discipline committees can review the data and determine if any changes need to be made to improve student learning. These measurable student learning outcomes and supporting statistics should become an integral part of the General Education Review process. The process could be repeated yearly or remain on its current three-year cycle.

STRATEGIC PLANNING

Policy:

Pearl River Community College will utilize an institutional Strategic Plan as a general process to develop and maintain college goals, purpose, and direction.

Procedure:

This ongoing plan which provides the structure to assess institutional effectiveness is reviewed at least annually and revised as needed. The process used in its development is institution-wide and based on research, planning, and evaluation. The results of this plan are demonstrated by continuous improvements being made college-wide and by accomplishing the mission of the College.

The Strategic Plan committee structure is as follows:

- Section I Administrative Council/Management Committee is chaired by the President. Its members are the Vice President for Instruction, Dean of Business Services, Dean of Student Services, Director of Development Foundation and Alumni Association, Director of Recruitment and Orientation, Director of Public Relations, Chief Planning Officer, Chief Technology Officer, Dean of Forrest County Center, Director of Career and Technical Education Programs (Poplarville), Director of Workforce Education, Director of Admissions, Director of Financial Aid, Director of Extended Education and Instructional Design, Director of Physical Plant, Director of the QEP, Director of Hancock Center, Director of Athletics, President of the Faculty Association (Poplarville Campus), and President of the Faculty Association (Forrest County Center).
- Section II Planning and Effectiveness Committee is chaired by a faculty member appointed by the President. Its members are the Vice President for Instruction, Chief Planning Officer, Institutional Research Specialist, Director of Hancock Center, eight faculty representatives, and others as appointed by the President.
- Section III Policy and Procedure Committee is chaired by the Vice President for Instruction. Its members are the Dean of Student Services, Dean of Business Services, Dean of Forrest County Center, Director of Career and Technical Education Programs (Poplarville), Chief Planning Officer, the Student Government Association President, seven faculty representatives, two staff members, and others as appointed by the President.

- Section IV Fiscal Management Committee is chaired by the Dean of Business Services. Its members are the President, Vice President for Instruction, Dean of Student Services, Dean of Forrest County Center, and Director of Career and Technical Education Programs (Poplarville).
- Section V Instructional Council is chaired by the Vice President for Instruction. Its members are the Dean of Forrest County Center; Director of Career and Technical Education Programs (Poplarville); Director of Admissions; Director of College Libraries; Director of Counseling, Advisement, and Placement Center; the Director of Extended Education and Instructional Design; Director of Nursing Education; nine faculty representatives; and others as appointed by the President.
- Section VI Professional Development Committee is chaired by a faculty/staff representative appointed by the President. Its members are the Institutional Research Specialist, Vice President for Instruction, Director of Career and Technical Education Programs (Poplarville), Chief Planning Officer, Director of Hancock Center, five faculty representatives, five staff members, and others as appointed by the President.
- Section VII Student Services Committee is chaired by the Dean of Student Services. Its members are the Recruiter/Assistant Student Activities Coordinator, Assistant Coordinator of Intramurals, Director of Financial Aid, Director of Admissions, three faculty representatives, and others as appointed by the President. Members also include the President, Vice President and Secretary of the Student Government Association.
- Section VIII Workforce Education Committee is chaired by the Director of Workforce Education. Its members are the Director of Adult Education Services, Workforce Training Project Manager, WIN Job Center Computer Instructor and Technician, Dislocated Worker Program Coordinator, Industrial Maintenance Training Specialist, GIS Training Manager, Construction Equipment Operation Instructors, Workforce and Economic Development Specialist, Utility Lineman Instructor, Commercial Driver's License Instructor, Leadership Development, and Secretary to Workforce Education.

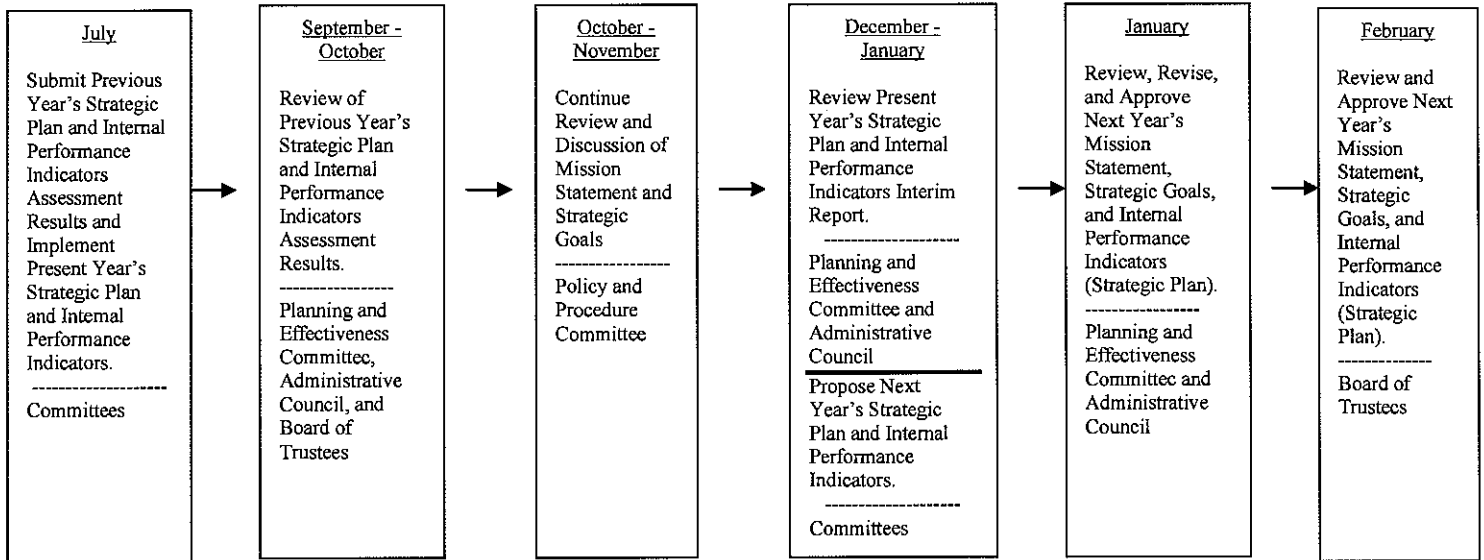

REVIEW, REVISION, AND EVALUATION PROCESS

Annual steps in the review, revision, and evaluation process are as follows:

- Step I In December, the Planning and Effectiveness Committee and the Administrative Council review the current year's Strategic Plan (Mission Statement and Strategic Goals) and Internal Performance Indicators Interim Report.
- Step II In December, committee chairs involved with strategic planning review and propose next year's Strategic Plan and Internal Performance Indicators.
- Step III In January, the Planning and Effectiveness Committee reviews and evaluates the proposed Strategic Plan and Internal Performance Indicators for the next year and prepares recommendations.
- Step IV In January, the Administrative Council reviews and evaluates recommendations from the Planning and Effectiveness Committee and submits recommendations to the Board of Trustees.
- Step V In February, the revised Strategic Plan and Internal Performance Indicators document for next year is completed, and the Board of Trustees is requested to take formal action.
- Step VI In February, the budget requests based on the Strategic Plan and Internal Performance Indicators are submitted to the Dean of Business Services.
- Step VII In June, the Dean of Business Services and respective administrators review budget allocations as assigned to Strategic Goals and Internal Performance Indicators.
- Step VIII At the end of the Fiscal Year, June 30, persons responsible for reporting accomplishments of the Strategic Plan and Internal Performance Indicators update the Interim Report with accomplishments from December to June.
- Step IX Early in the Fall Semester, the Planning and Effectiveness Committee, the Administrative Council, and the Board of Trustees review the Strategic Plan and Internal Performance Indicators assessment results from the previous year.

Dr. Lewis opened today's meeting by welcoming all council members. The following departmental reports were then provided by members of the Administrative Council:

Administrative Council Meeting Minutes

August 26, 2009

Business Services

- Informed administrative council of the new Payment On-Line service that is now offered for student accounts. Council members were also reminded of the upcoming cafeteria enrollment schedule that was recently emailed to all faculty and staff members.

Extended Education and Instructional Design

- Online enrollment is up as can be seen in the enrollment numbers that Steve provided. The Enrollment Tool audit will be probably available about the second week in September.
- We are currently holding Dual Enrollment classes in five high schools in the district. Many Dual Enrollment students are coming to one of our campuses to take classes. We are attempting to process these students through Extended Education so that we can better monitor the situation and help them if the need arises.

Athletics

- The soccer teams have started their seasons. The first football game will be played Thursday night, August 27, at Holmes Community College. The other sports are in fall conditioning.

Workforce Education

- The Lowery A. Woodall center will be celebrating its Fifth Anniversary on Tuesday, October 6, 2009, from 3:00 to 5:00 p.m.
- Food preparation courses will begin in the fall at the Woodall Center. These courses are sponsored through the NSF grant.
- Effective July 1, 2009, several new workforce projects began including: truck driving, welding, computer training, customer service, leadership, etc.

Admissions

- Reported that registration is now over. The increased workload has stretched Admissions and Records past the breaking point. Several workers in Admissions and Financial Aid are physically ill from the constant level of work we are required to perform.

Physical Plant

- No report provided.

Administrative Council Meeting Minutes

August 26, 2009

Public Relations

- Work is in process on the new editions of The Drawl and The RiverSide publications of the year.
- The Tim Hatten football show will be seen on Saturday mornings at 10:30 a.m. on WXXV and 5:30 p.m. Tuesday nights on Comcast Cable.
- The 2009 Fall Football game broadcasts can be heard on the same four radio stations as before in Hattiesburg, Picayune, Columbia and Bogalusa, LA., as well as can be heard on the PRCC website.
- Filming for the second phase of the television commercial will begin this coming week.

Instruction

- Members of the Administrative Council were informed of the following meeting dates:

Calendar Committee	September 15
Catalog Committee	September 22
Instructional Council	October 8
Policy and Procedure Committee	October 20
- All meetings are scheduled at 10:50 a.m. in the Administration Building Second Floor Conference Room. Members of the Council were asked to be sure to submit information needed for these meetings in advance of the scheduled meeting dates.

Planning and Research

- Evaluations of instruction are scheduled for the month of October. Supervisors should plan to send to the Office of Planning and Research the names of those in their areas of responsibility who are to be evaluated during the 2009 Fall Semester. Plans are being made to administer the evaluation online along with the Campus Climate Survey.
- Administrative Assessment Charts should be completed and returned this week. Instructional Assessment Charts will be distributed for completion next week.
- Professional Development Records will be sent to everyone by email and should be completed and returned to the appropriate supervisor(s) and to the Office of Institutional Research.
- A grant proposal writing workshop is scheduled for September 23 and will feature Dr. Susan Philliber, a nationally known grant writer.
- The Policy and Procedure Manual will be distributed to those who want a printed copy; however, the online version, which will be updated on a regular basis, will also be available.

Administrative Council Meeting Minutes

August 26, 2009

Retention and Adult Services

- Reported that 10 students were reported through the Early Alert System (EAS) system. All students were contacted. An email message and a follow-up phone call will be made if necessary.
- Work has begun on the design of a poster and brochure to begin a Non-traditional Student Organization.

Quality Enhancement Program (QEP)

- The position for the Mathematics^{Power} Laboratory on the Poplarville campus has been filled by Erin Westmoreland.
- The QEP is entering into the fourth year of implementation specifically introducing technology into the Introductory Algebra classes on the Poplarville campus.
- The SACS Fifth Year Report is due on September 15, 2011.

Faculty Association (Poplarville)

- Reported that the Fall meeting dates are set for Tuesday, September 29, and Tuesday, November 17, in the Special Events Room of the Olivia Bender Cafeteria.

Recruitment and Orientation

- Reported that new information brochures as well as admissions checklist postcards are being ordered.
- Reported that visits to district high schools have begun and will continue into the spring.
- A high school college fair will be attended next week at Hancock High.
- Receiving and responding to numerous calls/inquiries from potential students that are out of district.
- September 17 will be the second annual GED Tour Day.
- October 23 will be the Fall Festival event for all high school seniors.

Faculty Association (Hattiesburg)

- Reported that the Forrest County Center Faculty Association will have its first meeting of the semester on September 11. It will be the first of a series of FIRST FRIDAY FACULTY FELLOWSHIPS designed to promote friendships and teamwork among a diverse and growing faculty at the Forrest County Center. Members will be asked to bring a dish to share for lunch.

Administrative Council Meeting Minutes

August 26, 2009

Development Foundation and Alumni Services

- Reported that the Hancock County Alumni Chapter will have their Golf Tournament on Friday, October 23, at the Bridges Golf Course in Bay St. Louis. Breakfast Buffet and check in runs from 7:00 a.m. until 8:00 a.m. Tee time is at 8:00 a.m. and there will be a lunch buffet at the end of the tournament.
- Announced that a Coach Keith Daniels Scholarship Barbeque lunch sale is scheduled for Tuesday, October 6, from 11:30 a.m. until 12:30 p.m. Boxes will be available to pick up at the Gazebo during this time. Tickets for the lunch fundraiser will be available within the next week or so. This will be the World Famous Fat Boys Barbeque. There will be no Keith Daniels Golf Tournament this year.

Career and Technical Education Programs (Poplarville)

- Reported that the Lineman rodeo will be held on the Poplarville Campus Lineman Training Center on September 26 from 8:00 a.m. to 3:00 p.m.
- The Craft Committee Dinner Meeting will be held October 8, 2009, from 6:00 to 8:00 p.m. at the Technology Center.

Career and Technical Education Programs (Hattiesburg)

- Reported another record enrollment with over 1900 students.
- Occupational Therapy Assistant Program was recently re-accredited.
- September 30 is Allied Health Tour Day.
- Dual Enrollment's Practical Nursing Program is filled to capacity.
- Glenn Shoemaker's last day of employment is August 31, 2009. A small surprise party is scheduled for August 26 at 4:00 p.m.

Counseling Center

- Career Fair is set for Wednesday, February 24, 2010.
- Exit examinations for Career Technical students who are graduating will be taken electronically through the Mississippi Assessment Center.

Student Services

- Dormitory numbers are currently at 712. There are approximately 30-35 male students on the waiting list. All female student applications have been accommodated.
- Twenty percent of our faculty is reporting their Audit Rolls. It is imperative that this number increases. Our Early Alert System has started to become flooded with at risk students. Retention efforts will continue throughout the fall semester.

Administrative Council Meeting Minutes

August 26, 2009

Hancock Center

- Reported that Stan Davis, BSU Director, met with Rev. Al Green, Pastor of First Baptist Church of Bay St. Louis, Raymunda Barnes, and Maggie Smith for an organizational meeting to start a BSU group at the Hancock Center. The next meeting will be September 28. Tentatively, the meetings are scheduled to begin in October or November.
- Student registration went smoothly with the enrollment going over 300. Even though the registration process was successful, plans are to make some minor rearrangements and adjustments to make it more successful.

Information Technology

- Presented the current enrollment information. The headcount enrollment is up 14 percent over the fall 2008 semester, and the new record enrollment is 5,184.
- Discussed the Luminis portal implementation. We are awaiting approval documents to be signed by Mississippi Department of Information Technology Services. Once approval has been granted, implementation will begin with a "go-live" date in the late spring semester.
- The installation of VMWare is completed.
- Provided a report on the Emergency Notification System. An e-mail will be sent to all employees and students asking them to verify their contact information for the emergency notification system. Administrators were asked to encourage their employees and students to update their information. Employees and students will not receive emergency messages unless they have logged in and updated their contact information.

Financial Aid

- Reported on the comparison of ISIRs (tracking letters) imported for 2008-09 and 2009-10. As of August 25, 2009, there was increase from 2008-09 to 2009-10 of 1,445 ISIRs.

President's Report

- Dr. Lewis made the Administrative Council aware that the College had reached a settlement agreement with Zurich Insurance on the Hurricane Katrina claim.
- Discussed federal earmarks for instructional technology.
- Discussed plans for a new road project at the Forrest County Center.

There being no further business to come before the administrative council, the meeting was adjourned.

Administrative Council Meeting Minutes

October 14, 2009

In Dr. Lewis's absence, Dr. Grant opened today's meeting by welcoming all council members. Dr. Grant reported that Dr. Lewis had to attend an important meeting at the Forrest County Center with Rob Turner, Staff Architect from the Bureau of Building and Grounds, and Architect Lewis Griffin to discuss plans for the Brownstone Performing Arts Center. The following departmental reports were then provided by members of the Administrative Council:

Student Services

- Reported that after the sixth week of classes, student retention was at approximately 98.9 percent. It was reported also that 135 at-risk student referrals had been submitted to date. Student retention efforts will continue throughout the school year.

Information Technology

- Presented the current enrollment information. The headcount enrollment at the end of the sixth week is 3,836. This number is expected to decrease after the six week audit.
- Discussed the Luminis portal implementation. Implementation plans are to begin with a "go-live" date during the later portion of the spring semester.
- Provided a report on the Emergency Notification System. An e-mail was recently sent to all employees and students asking them to verify their contact information for the emergency notification system. To date, 70 percent of faculty and staff members had responded to the message and 60 percent of the students had verified their contact information. Employees and students will not receive emergency messages unless they have logged in and updated their contact information.

Recruitment and Orientation

- Reminded council members that the Wildcat Fall Festival for district high school seniors will be held on October 23 between the hours of 9:00 and 11:30 a.m.

Administrative Council Meeting Minutes

November 2, 2009

Dr. Lewis opened today's special called meeting by welcoming all council members. He stated that Dow Ford and Caycee Simon are in Hancock County this morning working on some orientation and registration issues.

As the meeting began, Dr. Lewis stated that his purpose in calling today's special meeting is to discuss several issues of importance. He began the meeting discussion by informing council members of the direction of the state's budget crisis and the potentially perilous times that the state could be facing in the near future. At this point in time, the state budget is down approximately \$78 million and it will have to somehow be recovered. No state growth is expected to help with this deficit, and it is an issue that the legislature will have to address when the 2010 spring session begins.

In discussing the College's budget issues, Dr. Lewis stated that the College has already had a 5 percent cut this year and another 2 or 3 percent reduction is expected later in the year. To make budget matters worse, an additional 10 percent funding reduction is expected for FY 2011 and an additional 20 percent reduction is expected for the following year, and by this time, all stimulus funds will have been depleted. Dr. Lewis stated that if the College is faced with a 10 percent reduction next year, a tuition increase will need to be considered to help absorb the cut, but the board of trustees will have the final decision to approve any increase in tuition.

Dr. Lewis stated that with the current budget restrictions, it is difficult for the College to move forward as it has done in the past. He encouraged administrators to begin thinking about and formulating a plan to handle the budget reductions that are expected in the near future. Administrators were encouraged to take the budget issues very seriously and to look at fresh, novel solution ideas. He suggested brainstorming areas that could impact all employees such as program areas and positions that could possibly be eliminated. Unnecessary out-of-state travel has already been cut or reduced. Council members were again encouraged to think, talk, discuss, and brainstorm to formulate some ideas that will assist during this difficult budget time.

Dr. Lewis then opened the floor for a question and answer session. Some areas of discussion included offering more hybrid classes, looking at ways to help the College's consumption of energy, low-enrollment programs, athletic programs, and an annual four-day work week.

In regard to an annual four-day work week, Dr. Lewis suggested that all facilities should be operating at maximum capacity. He reminded council members that the College now offers weekend classes; and should these classes be cut to allow for a four-day work week?

In discussing funding cuts in the athletic programs, Dr. Lewis stated that any reductions could have serious impacts to any athletic area. He stated that there is no FTE funding is available for out-of-state students, but that out-of-state tuition does help to make up for the lack of this impact in the funding formula. He added that athletics are a very vital and historical part of the College's culture and history.

Administrative Council Meeting Minutes

November 2, 2009

Another area of discussion included the use of funds from insurance money. Dr. Lewis informed council members that insurance money received from the destruction of Hurricane Katrina is designated to replace and repair campus buildings that were lost or damaged by Hurricane Katrina. Also, any monies received from state and county funding sources are also designated for specific purposes. In short, these funds are to be used per state law guidelines.

Dr. Lewis informed council members that he plans to conduct campus-wide small group sessions to further discuss the College's budget issues. The group discussions will be held later in the semester and will include both faculty and staff members.

Dr. Lewis reminded council members that Congressman Gene Taylor will be holding a Town Hall Meeting at 10:00 a.m. on November 13 in the Technology Building's Multipurpose Room.

In closing, Dr. Lewis stated his disappointment over the lack of participation and attendance of employees at the College's recent student and alumni events. He added that this issue has been discussed several times in the past, and requested that faculty and staff are expected to support and attend student and alumni events.

There being no further business to come before the administrative council, the meeting adjourned at 12 noon.

Administrative Council Meeting Minutes

December 9, 2009

Dr. Lewis opened today's meeting by welcoming all council members. He informed council members that Dr. Amy Townsend has been selected as Title III Director and that she will need complete support from all employees as she assumes her new role with the College. The following departmental reports were then provided by members of the Administrative Council:

Instruction

- Reported that final exams for the 2010 Fall Semester are now underway.

Planning and Research

- Shared information regarding the SACS Fifth Year Report.
- Since supervisors will be evaluated in January, each administrator was provided with a list of those reporting to him/her. In addition, each was asked to update the list and to indicate the supervisors who are to be evaluated according to the policy.
- Council members were reminded of the procedures regarding the review of the 2008-2009 Strategic Plan and Internal Performance Indicators and the 2009-2010 Fall Semester Assessment Charts, both of which had been sent to them by the Institutional Research Specialist. There were no questions.
- The 2010 Women's Health Symposium brochures were distributed.

Career and Technical Education Programs (Hattiesburg)

- Announced that Dr. Janet Thornton has been selected as the Assistant to the Dean for Evening Programs.
- Reported that another car accident occurred on Monday of this week at the Highway 49 entrance to the campus. There were no serious injuries as a result of the accident.

Administrative Council Meeting Minutes

June 10, 2010

Dr. Lewis opened today's meeting by welcoming all council members. Departmental reports were then provided by council members.

Instruction

- Discussed preparation of the 2010-2011 College Catalog.

Planning and Research

- The 2010-2011 Policy/Procedure Manual is currently being prepared for distribution. Although this information is updated as needed online, anyone who wants a printed copy may have one by communicating with the Office of Planning and Research.
- Evaluations of instruction will begin for the summer term according to policy. The 2010-2011 schedule for evaluations of all personnel will be sent by email to the Administrative Council members.
- Reports regarding the 2009-2010 Strategic Plan Internal Performance Indicators will be requested in July as will the completed Administrative Assessment Charts.
- All information regarding the requirements of the Higher Education Opportunity Act should be reviewed by those responsible for the specific areas involved and updated by those individuals as changes are made.

Hancock Center

- From May 3 through May 14, the Hancock Center helped coordinate and house classes for British Petroleum and H.S.I. Industrial & Environmental. 613 people attended thirteen classes consisting of four-hour Basic Safety training classes presented by British Petroleum. There was one class for boat owners, and it was attended by eight people. 197 people were trained in four 40-hour HazWoper classes. The students who completed the 40-hour training classes were eligible for hire for the oil cleanup crews. A total of 818 students went through some type of safety training within these eleven days. The College was reimbursed by BP for \$1,077.59 for various related expenses, and H.S.I. paid room usage fees of \$1,875.00.
- The Hancock Center has seen an increase in summer enrollment. Additions for the fall include a new textbook store; moving the library/learning lab to room 100 for more space; the addition of a 1,040 sq. ft. classroom which will be used for GIS training, welding classroom space, and as an overflow classroom; the addition of a new full-time math instructor; and the implementation of a QEP Math Lab.

There will be training on the phone system including one for end users.
- Discussed the Luminus project. There will be a single sign-on entry to all major IT systems. Information will be customized and targeted to specific groups. System Administrative training is taking place this week. Content administrative training will be conducted on this campus (actually developing the content) later this month or possibly July.
- Reported on Nebraska E-Text Books. This will be the purchasing of textbooks online. Training for this software will be the week of June 21. A storefront website will be created for PRCC. Students can purchase their textbooks online by a credit card or with financial aid funds. The books will be picked up at the campus bookstore. PRCC general merchandise will also be available for online purchase through the College's web site. "Jump books" will be available, but students will be required to purchase an access code to download the textbooks.

Counseling Center

- ACT Compass will be in place at all three PRCC locations in August. Compass will be used as an ability to benefit examination for prospective students who possess neither a standard high school diploma nor passing scores on the GED. Compass will replace neither the National ACT nor the ACT Residual examinations.
- Held a meeting with Dr. Grant to determine how to meet the needs of the large number of students who will be registering during the early registration period. The three day early registration sessions normally held in July will be accomplished through individual sessions arranged by appointments. To assist with this process, two faculty advisors, Carol Williams and Deana Holifield, will work in the Counseling, Advisement, & Placement Center during June and July.

Fiscal Management Committee Meeting Minutes Fall 2009

The institution's Fiscal Management Committee members convened on November 5, 2009, in an all-day retreat to discuss the financial challenges being faced by the institution as a result of the projected state funding cuts being predicted by the Governor's office.

State projections indicate that the college may face an additional 3.00% to 4.00% reduction in state funding as early as the spring of 2010, with a projected 10.00% reduction in state funding state wide for FY 2011.

The Fiscal Management Committee reviewed a number of the institution's cost centers in an effort to identify those areas where potential cost savings may exist.

WORFORCE MEETING – Welding on Wheels

August 10, 2009

9:00 AM

Scott Alsobrooks Office

Attendees:

Scott Alsobrooks

Leland Kennedy

Heath Ladner

Dee Dee Reid

The purpose of this meeting is to get organized and to schedule the high school welding programs for the fall. Our primary goal is secondary education. We are gauged on how many high schools we train. We will do two weeks of welding. They will be tested for SMAW/FCAW. If they pass this test, the student will receive AWS certification.

The Poplarville High School students will use our facilities at the Welding shop in Poplarville for training beginning on August 17 until August 27, 2009 at night. The next class will begin on September 21, 2009 and end October 2, 2009 at Pearl River Central High School. Lamar County Vo-Tech is schedule for October 13, 2009 – October 22, 2009. Columbia High School will follow on November 2, 2009 to November 13, 2009.

Leland will contact Petal High, Brooklyn High, Hattiesburg High, North Forrest High and others for the spring. They would like to also teach Bay High. They can use our facilities at Waveland since they do not have their own shop.

The WOW trailer is up and mobile. Heath Ladner will be the instructor for these classes. Scott said to keep an eye out for media write-ups and success stories to report on the students. This will be reported to Janet or Chuck at PRCC. We would like as much coverage as we can on this. Heath is to get the following filled out for each class:

Demographic Form

Sign In sheet

Exit Interview

With no other discussions pending, the meeting was adjourned.

Respectfully submitted,

Dee Dee Reid

Minutes for Meeting

December 17, 2009
Scott Alsobrooks' Office
NEG Grant

Attendees:
Scott Alsobrooks
Tommy Dorsey
Leland Kennedy
Julie Ray
Roger Knight
Troy Teadt
Ray Cody
Dee Dee Reid

The purpose of this meeting is to de-obligate funds from the NEG Grant. The State is de-obligating \$350,000. Scott said we need to brainstorm and come up with a solution that works best. The information needs to be turned into the State by December 31, 2009.

Tommy Dorsey suggested moving the welding portion of the grant to WIRED with the permission of Yolanda Boone of MDES. Tommy has a call in to her and expects to hear something in the next few days. He will get back to Scott.

Scott asked if we could lower our indirect cost percentage. Roger Knight said that wasn't realistic in the grand scheme of things.

Tommy Dorsey suggested that we end some of the courses early or all courses early. This would work for some courses, but not all.

Scott stated that the GIS program will be phased out of NEG all together. This will cut \$135,000. Welding will save around \$50,000.

Scott told Tommy that we would put a plan together and have it to him by the end of the year. He will work during the Christmas Holidays.

Respectfully submitted,

Dee Dee Reid

WORKFORCE EDUCATION

Meeting Minutes

March 15, 2010

The meeting of workforce education was called to order at 1:00 PM on March 15, 2010 in Hattiesburg at the Woodall Center by Scott Alsobrooks.

Present:

Scott Alsobrooks	Dale Miller	Troy Teadt
Lindsey Miller	Barry Upton	Jason Brown
Lee Bell	T. L. Davis	Marc McPhail
Randy Henry	Angela Ryals	Donnie Odom
Dee Dee Reid	Rebecca Brown	Lee Reid
Heath Ladner	Raymond Jarrell	Audrey Smith
Matthew Carver	Brad Ladner	Mike Guthrie
Leland Kennedy		

Scott Alsobrooks opened the meeting. He stated that Workforce had the first meeting five years ago. He called on the attendees to talk about each of their programs.

Matthew Carver was introduced by Scott. He teaches our new Culinary Training program. The classes have started out slow but successful. They are six week courses. The students are taught basic food preparation and restaurant management techniques. They will be cooking for many people in the area and at PRCC. At the conclusion of the course, they will be tested for ServeSafe Certification.

Leland Kennedy then spoke. He is the Master Trainer for Welding. He does the American Welding Society Testing and oversees the WIRED Grant. Because of the WIRED Grant, we were able to purchase many supplies that will help sustain the welding program. The welding programs are all at capacity and he has certified a lot of our students. We are training in Waveland, Poplarville, Hancock Vo-Tech, Jeff Davis and Hattiesburg. We run night classes at all of these locations. The Welding on Wheels program teaches high school students. We go to the high schools and give these students an introduction to the processes of welding.

Marc McPhail, welding instructor for the Waveland campus, gave a glowing report on the shop at Waveland. It has been very successful. Classes meet days, nights and we also have weekend classes. PRCC is running the welding shop almost around the clock. These students will also be certified AWS (American Welding Society) if they pass their tests. Mike Guthrie is the instructor for nights and weekends.

Heath Ladner reported that he teaches welding to high school students with the "Welding on Wheels" program. We have a fully functioning trailer that he teaches with. He will do four to six week programs at schools in our area. The program is a year old and been

very popular. The students are tested after the course and if they pass the basic structural test, they will receive AWS Certification.

Mike Guthrie introduced himself as the welding instructor for Waveland. He is teaching nights on Monday through Thursday and Weekends on Friday and Saturday all day. He is happy to be part of the program.

Jason Brown introduced himself as one of three Commercial Truck Driving Instructors. He commented that the program has an extremely long waiting list and most of his students received their Class A CDL, with many getting jobs immediately.

Donnie Odom introduced himself as a Commercial Truck Driving Instructor. He said things were going great and he has had a lot of success with the students. They usually teach a student for eight weeks before they are tested but they also do 40 – 80 hour refresher courses.

Terry Davis reported that he teaches construction equipment students and certifies utility lineman students on the equipment portion of the program for underground utilities. He and his students do projects for PRCC Poplarville and Forrest County Campus, Churches, schools and other non-profit organizations. His program is going well. We are still considering integrating a class of Construction Equipment Operations in with the Construction Management Program to make the CMP even more valuable for the students. We are also considering the possibility of making this course accredited.

Brad Ladner said that he was also a Construction Equipment Operations Instructor. He said the students were doing well and he would love to see the program continue after the grant ends.

Lee Bell is project manager for Pine Belt Mental Health, Forrest General Hospital and many more. She also oversees the EMT training. These programs are doing well and also continuing to grow. She is currently working with Matthew Carver to help establish the Culinary Training program.

Angela Ryals explained that she interviews dislocated workers and works with them to help with employment. She has folders with information she gives to dislocated workers on our classes available. She also touches on GED. She tests career readiness certificates through Work keys.

Rebecca Brown teaches computer classes and the WIN Job Center. She has a tremendous class load. She has a large waiting list. She is hoping to be able to hire another instructor to teach these classes.

Dee Dee Reid introduced herself as the Workforce Education Assistant. She works for Scott Alsobrooks. She puts together the classes for welding, construction equipment, and truck driving. She keeps the data on these students and does MDES reporting and DOL reporting. She said that the waiting lists are long for all classes. The WIRED Grant and

the NEG Grant will be over June 30, 2010 and there is no way possible that we will be able to get to all the students on the waiting list.

Troy Teadt stated his primary subject is GIS. He works at Stennis doing ESRI training. He said his program is growing and not slowing down at all. All programs are doing well.

Randy Henry stated that he is the Utility Lineman Instructor. His course offers both a one year certificate and a two year Associate degree. His classes are on the block schedule. He is at capacity with the classes. It has become an extremely popular course. The utility companies like Coast and Chain are working with him and also hiring a lot of his students. Pike and Mississippi Power are now hiring our students. Susan Anderson is the manager for the program. She sets the scheduling of students.

Lindsey Miller discussed that all of her computer classes are full. She has ongoing classes in Hancock, Marion County, and Picayune. The auditorium at the Woodall Center is ready for use. She is still doing Walmart.com. Lindsey and Scott are working on an Entrepreneurship Class. They hope to get it going by August.

Barry Upton stated that he is the Director of Adult Education. He helps people earn their GED. He has day and night classes available. He has 800 enrolled. GED's are up and he saturated the district with advertising. He has a new GED counselor to aid students and then assists them into PRCC or a training program. He would like funding for a reading program. The need is great for this.

Scott Alsobrooks thanked everyone for doing a good job. The WIRED and NEG grants will end on June 30, 2010. He hopes we will be able to get more grant funding and continue these programs. He asked for anyone to come to him with questions or new project ideas.

The meeting was adjourned at 2:50 PM by Scott Alsobrooks.

Respectfully submitted,

Dee Dee Reid

Graduate Report for 2008-2009

As a component of Pearl River Community College's commitment to excellence in providing a quality educational experience for all students, an exit survey is given to graduating students in order to obtain information concerning their educational experience at PRCC. Some of the results of that survey are summarized as follows:

The majority (95%) of students surveyed thought that faculty members were concerned or very concerned with the personal and intellectual development of their students. Ninety-six percent (96%) of graduating students surveyed indicated that faculty members were available for consultation during posted office hours. Faculty

members are appropriately using instructional technology in courses offered at PRCC according to ninety-six (96%) percent of students surveyed. Over half of the students surveyed (56%) also revealed that faculty members were particularly helpful to them with their adjustment to campus life. The majority of students believed that access to faculty members outside of class was an

extremely important component of campus life, and ninety-five percent (95%) of students surveyed were satisfied or extremely satisfied with access to PRCC faculty members outside of class.

Of graduates surveyed, eighty-seven percent (87%) indicated that PRCC had prepared them more than adequately or exceptionally well to either continue their education or enter the workforce. Of the graduating students surveyed, ninety-five percent (95%) indicated that they would choose PRCC if they could start college again.

CAMPUS CLIMATE SURVEY

The Campus Climate Survey is administered to the student body annually to ascertain student level of satisfaction with the services offered by Pearl River Community College. After analysis is completed, the Focus Group reviews all results of the surveys and recommends an action plan to address any areas which achieved less than a 70% satisfaction level. Below are the three year trends for select questions. You will find that satisfaction either increased in these areas or remained at approximately the same level at all campuses.

Note: Percentage reflects students who agreed or strongly agreed that they were satisfied with PRCC services.
