History of Pearl River Community College

Pearl River Community College is completing its 109th year of service to the citizens of South Mississippi. Several buildings remain from the early days of the campus of Pearl River County Agricultural High School in the northwest part of the county seat of Poplarville. The title "Mississippi's Pioneer Junior College" was earned when Pearl River became the first agricultural high school in the state to offer college courses in 1921. Appropriately, the name of the school was changed to Pearl River Junior College and Agricultural High School, which it remained until the high school classes were returned to Poplarville High School in 1960 and the name was changed to Pearl River Junior College. The College took a significant step toward its modern role as a comprehensive community college with the addition of vocational and technical courses on the main campus in the 1950's. In 1969 the Forrest County Center was established in Hattiesburg and is now a comprehensive center offering a wide range of transfer courses and technical programs. In 1988 the school became Pearl River Community College, offering comprehensive academic, career, technical, and community service programs. In September 2004, the Lowery A. Woodall Advanced Technology Center opened in Hattiesburg and provides workforce education and a number of specialized training programs. The Hancock center opened in Waveland in January 2005, and has grown rapidly.

Academic Costume Code

The history of academic dress, including gowns, hoods, caps, and tassels, with distinctive patterns and colors, dates back at least to European universities in the early 14th century. The Academic Costume Code of the American Costume Code of the American Council on Education has prepared an academic ceremony guide which governs the pattern, material, color, length, linings, and trimmings for graduates receiving various college degrees and for faculty holding the degrees. Please note that the associate degree candidates and certificate recipients are wearing Pearl River Community College's school colors of maroon and gold. This is acceptable within this code. The faculty wearing academic dress that varies depending upon the wearer's highest degree held and the subject of that degree. While space does not permit a thorough accounting here of the details of the American Costume Code, the Pearl River Community College Library can provide an interested person with information. One interesting detail is that there is no general rule for the position of the tassel on a mortarboard or cap. However, many institutions require a candidate for a degree to wear the tassel on the right front side before receiving the degree and to shift it to the left when the degree is conferred.
