Student Achievement - Retention

Student Achievement Criteria One: Semester Retention Rates					
Criteria One	Semester Retention Rates				
Rationale for Selection of Criteria 1: Alignment to Mission	PRCC's Mission claims it is "...committed to providing quality educational and service opportunities." Measuring student retention by course within the semester helps ensure quality opportunities persist for our students. In addition, this indicator aligns with PRCC Strategic Goal: To recruit and retain students from a diverse population."				
Threshold of Acceptability	This threshold is defined by PRCC Internal Performance Indicator 2, "At least 80% of students who begin the semester will remain enrolled through the six-week period" and Internal Performance Indicator 3, "At least 80% of students enrolled through the six-week period will complete the semester."
